The promised race between the Princeton and Great Western took place yesterday in New York Bay, and as far as the result is known, the Princeton came off the victor. The Tribune says the Great Western came in sight, emerging from the East River and slowly unrolling her canvass to the breeze. Many a warm and generous wish followed her, as she floated away. In a few minutes the Princeton shot out from the Hudson, showing no paddle wheels or pipe, and moving as if carried along by a swift current alone. As she passed Castle Garden, she was greeted with a shout-and no wonder; for in the clear sun light her beautiful model and long taper masts presented one of the finest | he sold at the mill price. specimens of ship architecture we have ever seen. The Great Western apparently waited her appreach, when they moved off together. The Princeton held her own, altogether beyond expectation; for she had not a rag of canvase up, while the Great Western threw out sheet after sheet. On such a smooth sea, with the wind fair abeam, her canvass alone must have taken her five or six knots an hour.

They proceeded together, without any seeming difference of speed, to the quatartine, when the Pinecton had so closed with her that she was nearly aboom; about half a mile below she was aboom, when she let fall her foretopsail and shot past and ahead in one minute. The Princeton entered the Narrows with fore and maintopsails, jib and foresail set, and when she disappeared behind the point of other county in the state, if we except old Becks, Long Island, at twenty minutes past three, she was eight miles from the Battery and a half mile shead of the Western. As seen from the Battery, the Princeton was dropping behind the western Bluff of the Narrows. This is triumph for the Princeton, triumph for Capt. Stockton and for the builders of his beautiful ship-the Philadelphia shipwrights.

THE CIRCUMSTANCES ATTENDING THE DEATH OF SENATOR LINN,-The circumstances attending the death of Senator Linn have never, says the St. Louis New Era, been correctly stated. Dr. L. was in good health till the 2d inst., and on that day was busily engaged in prepa ing business, intenfor some papers in a trunk, he raised suddenly and asked Mrs. Linn if his face was flushed, as he felt exceedingly dizzy, and there seemed to be a general determination of blood to the head. The painful sensation, however, soon passed off, and he resisted the suggestion that he should be bled. During the evening, and to a late hour at night, he was busily employed in correspondence and other matters, and when he retired he was indisposed to sleep. When Mrs. Linn rose in the morning, he requested that he might not be disturbed, saying that he would endeavor to sleep an hour or two. He soon fell into a slumber, apparently gentle and refreshing. When visited two or three times he was still found in this state, and there was no disposition to disturb him. It was not until near 12 o'clock of the 3d that Mrs. Linn approached his tedside to awaken him. She attempted to do so but in vain. Calmly and placidly-without a sigh, or the change of a single feature in his benevolent value \$100, sold at \$4 per share. countenance-had life passed away. Three or four hours afterwards there was a profuse bleeding from \$7,50 per share. the mouth and nostrile.

Religious Persecution in Denmark. - The Leeds Mercury states that a Baptist Minister from England, Dr. Hoby, from Birmingham, and a Baptist minister from Hamburg, Mr. Oucken, have been expelled from Copenhagen, solely because they were Baptists. They arrived in Copenhagen on a festival visit to their brethern, the former having a passport from the British Charg d'Affaires at Hamburg. Mr. Oucken was imprisoned, and both were expelled from the city by the same packet in which they had arrived. The particulars of this affair have been laid by Dr. Hoby before the British Envoy, of Copenhagen.

THE ANTARCTIC REGION .- Captain Ross of the British Exploring Expedition, in the Polar Seas, veered out more than 6,000 fathoms (or 36,000 feet, nearly seven miles) of rope, yet could find no bottom at that great depth. The Expedition discovered a volcano in these deso- lection eering story by his outrageously extravalate regions, of such surpassing power and brilliancy, that its light was seen at the distance of one hundred and thirty miles.

SIXTUS THE FIFTH .- When Sixtus the Fifth aspired to the Popedom, he counterfeited old age for fifteen years. During the conclave assembled to elect a new Pope, he leaned upon a crutch and appeared remarkably infirm. His plan took so well that the Cardinals elected him, expecting that he would soon die. But shortly after his election, he performed the miracle of his own cure.

We have received the second number of the "DEMOCRATIC CHAMPION," a new paper established at Harri-burg, to support the claims of FRAN-CIS R. SHUNK BE a candidate for Governor, next fall. The contest has now settled down, we think, by c mmon consent, between Mr. Snexk and the Hon, HENRY A. MURLENBURG. In this county Mr. Muhlenburg has always been highly popular. In 1835 he received, probably, a stronger support in this county, in proportion to its voters, than any

Shamokin Anthracite Furnace.

We are pleased to state that the Shamokin Anthracite Furnace has again been put into blast, after a suspension of 18 months. The Furnace, we understand, has been leased by two practical Iron Masters from New York. The Iron produced at this furnace is of a very superior quality. We should like to see cast iron rails made at this furnace. The experiment at least, might be tried with but little expense on our rail road.

(Honest John, of the Milton Ledger, yelps like a whipped spaniel at our exposure of his Munchausen stories about the embankment, &c. It is your misfortune, not your fault, John, that you must always be either in the clouds, or in a ditch! For your peace and comfort we would advise you, hereafter, to take a medium course. That you would find great difficulty in keeping in it, we are aware, for Cowper says:

The vote at the last election were, in many places, unusually close, more so than at any previous election that we recollect of. In the district composed of the counties of Erie, Warren, Clarion, Jefferson, Potter and M'Kean, Gen. CHARLES M. REED, federalist, is elected by a majority of 57 votes over laving, democrat. In the district composed of Washington and Beaver, Jour Dieger, federalist, is elected by a majority of 59 votes over LEET. democrat. In the Payette district, STEWART, federalist is elected by a majority of 137 over CLEAVESgun, democrat. Here are three Congressmen elected by an aggregate majority of only 253 votes. In this district FRICK's majority is only 249. Taking from this 101 votes cast for Mr. Jordan, in Union county, reduces Frick's actual majority to

By the above it will be seen that the townships in the Forks, in 1840, gave Mr. Syrnan a majority of 117 votes. At the late election they gave a majority of 332 against him, making a difference of 449 votes in favor of Frick. It will also be seen that in the townships on this side of the river, Gen. FRICK received but 85 more votes than Mr. Merrill did in 1840, when Syrnen's majority in the county was 778. This proves most conclusively the defection in the Forks among the friends of Mr. Forsythe. Northumberland and Point, in 1840, gave Mr. SNYDER a majority of 101 votes. At the late election, these townships gave a majority of 3 votes. in favor of Gen. FRICK. Now, as Mr. Forsythe held almost absolute sway in these two townships, and received nearly all the votes, it seems singular that Mr. Sarnen should lose 104 votes if it was not caused by the Forsythe party. Mr. Bright's friends certainly cannot be blamed, inasmuch as he received but 49 votes in these townships, which is less than half the amount of Mr. Saypen's loss, Therefore, if all Mr. Bright's friends had voted for Frick, there would still be 55 votes to account for by the Forsythe party. But it is useless to multiply words when things are so self-evident. Any one who cannot see that the Forsythe party had entered into a league against Mr. Sayder, must be blind, indeed.
