

which the certificates are entered, with the vouchers and documents produced before them, relative to the claims allowed or rejected, to the Treasury Department of the United States, to be deposited therein; and the Secretary of the Treasury shall, as soon as practicable after the receipt of the same, ascertain the aggregate amount of the debts and liabilities allowed: and if the same, when added to the amount to be paid to Frederick Dawson and the sum which may be paid in the redemption of the exchequer bills, shall not exceed the estimated sum of ten millions of dollars, he shall, on the presentation of a certificate of the commissioners, issue, at the option of the holder, a new certificate for the amount, distinguishing principal from interest, and payable to him or order, out of the net proceeds of the public lands hereby ceded, or stock of the United States, for the amount allowed, including principal and interest, and bearing an interest of three per cent. per annum from the date thereof; which stock, in addition to being made payable out of the net proceeds of the public lands hereby ceded, shall also be receivable in payment for the same. In case the amount of the debts and liabilities allowed, with the sums aforesaid to be paid to Frederick Dawson, and which may be paid in the redemption of the exchequer bills, shall exceed the said sum of ten millions of dollars, the said Secretary, before issuing a new certificate, or stock, as the case may be, shall make in each case such proportionable and ratable reduction on its amount as to reduce the aggregate to the said sum of ten millions of dollars, and he shall have power to make all needful rules and regulations necessary to carry into effect the powers hereby vested in him.

ART. VII. Until further provision shall be made, the laws of Texas, as now existing, shall remain in force, and all executive and judicial officers of Texas, except the President, Vice President, and heads of departments, shall retain their offices, with all the power and authority appertaining thereto, and the courts of justice shall remain in all respects as now established and organized.

ART. VIII. Immediately after the exchange of the ratifications of this treaty, the President of the United States, by and with the advice and consent of the Senate, shall appoint a commissioner, who shall proceed to Texas and receive the transfer of the territory thereof, and all the archives and public property, and other things herein conveyed, in the name of the United States. He shall exercise all executive authority in said territory necessary to the proper execution of the laws, until otherwise provided.

ART. IX. The present treaty shall be ratified by the contracting parties, and the ratifications exchanged at the city of Washington, in six months from the date hereof, or sooner if possible. In witness whereof, we, the undersigned plenipotentiaries of the United States of America, and of the Republic of Texas, have signed by virtue of our powers, the present treaty of annexation, and have hereunto affixed our seals, respectively.

PAY FOR A PREP.—Windows on the line of the contemplated procession on the 23d of May, at Baltimore, are at a decided premium. The Sun says a room, containing three windows, was rented for the day, for what we consider an enormous sum, \$15.

LAW IN MARYLAND.—A French woman and a negro man, who were found living together in Maryland, have, according to law, been sold for seven years into slavery.

YOUTHFUL CRIMINALS.—Six children, the eldest twelve years of age, were taken on Friday night, in Boston, from their beds, charged with plundering a building of its contents.

NAME FOR NEWS-PAPERS.—A paper, called the "Corkscrew, and Gimlet of Attraction," has been started at Peru, Indiana, and another at Jeffersonville, in the same State, called the "Grindstone."

THE BOSTON POST-OFFICE.—On Sunday, the day on which the Acadia arrived, thirty thousand letters and about seventy bushels of newspapers were examined and assorted at the Boston Post-office.

EXECUTION OF GENERAL MALOT.—A French officer, quoted by Mr. Marshall, mentions Gen. Malot, who conspired against Napoleon in 1812, as the man who, at the moment of execution, displayed the most astonishing courage. On being conducted, with twelve of his accomplices, to the plain of Grenelle, he, as the chief of the conspirators, asked permission to give the word of command. "Carry—arms," cried he, in a voice of thunder. "That won't do; we must begin again. Your pieces on the arm all of you. Carry—arms! Good—Platoon—arms! Present! Fire!" All fell except Malot. He was left standing alone. "And why not me? Sacre nom de—! Reserve platoon, forward! Right! Carry—arms! Platoon—arms! Present! Fire!"

BALTIMORE MARKET.

FLOUR.—There is very little demand for Howard street Flour. The limited sales that are making from store are at \$4.75 for good mixed brands. There is no fixed receipt price.

City Mills Flour is held at \$5—no transactions.

GRAIN.—No Md. Wheat at market. A sale of a very good lot of Pennsylvania red at 111 cents. Sales of Md. white Corn at 44 cents, and of yellow at 47 cts. Sales of Oats at 27 a 28 cts.

WHISKEY.—Sales of hds. at 22 1/2 cts. and of bbls. at 2 1/2 cts.

ASSISTANT OF NATURE.—Dr. Brandreth does not profess that the Brandreth Pills are other than an effectual Assistant of Nature: he knows that if she be not entirely exhausted, they cannot fail to cure; and he is reminded they may be taken at all times without fear of other than good results. In truth, in this city, where five hundred and thirty five thousand boxes have been sold, there is little occasion for saying any thing in their favor; for it is clear that 5000 boxes would never have been sold had they not been good! Every fourth individual in this city has made trial of them. It may be observed, that their object is to restore the constitution to a state of health, and the result, when they have been persevered with, has fully established their power for so grand a consummation. In other words, it is the Blood which has become perfectly purified, as on its purity depends entirely the health of the whole animal machine.
