

of excitement, and even women and boys joined in the affray, some of the women actually throwing missiles. Many of them when they temporarily retreated, returned armed with fire arms, which they discharged sometimes with particular aim at individuals engaged on the other side, and at other times firing indiscriminately in the several groups, on the larger body of the belligerents.

From what we could see and gather from persons on the spot, we believe the following is the origin of the affray:

After the re-organization of the meeting some difficulty occurred on the Western side of the market house, just inside, between two persons, named Fields and M'Laughlin, which originated in some discussion, and led to an interference on the part of two or three others, one of whom, a young fellow, drew a pair of pistols, threatening to shoot the first man who should molest him. At this instant, a man who had taken some part in the affair stepped off towards the Hibernia House house, and defied him to fire. A shot then took place, which was followed by repeated discharges from both sides, from one of which Patrick Fisher received his wounds.

12 o'clock.—We have just returned from the scene of the riot. About 10 o'clock in the evening, a mob collected in the vicinity of Franklin and Second streets, and commenced breaking into the houses on both sides of the street, destroying the furniture, demolishing the windows, and rendering the houses completely uninhabitable. The inmates of all the dwellings in the neighborhood fled with precipitation, abandoning their homes to the lawlessness of the mob.

This continued for some time without any resistance being offered. At length an attack was made upon a Seminary at the corner of Second and Phoenix streets, formerly occupied by the Sisters of Charity, and a number of persons were about tearing down and setting fire to the fence when some persons advanced from above and fired a volley of ball and buckshot among the crowd.

This was followed by two or three succeeding volleys, when the crowd dispersed. Several persons fell severely wounded. A young man, named Nathan Ramsey, blind maker, in Third street, above Barren, received a shot through the breast bone, perforating his lungs, and he was carried from the ground to an apothecary store in Second street, above the junction of Germantown road. Here he was visited by his wife and mother, who appeared almost distracted. The young man is mortally wounded.

Another young man, named John W. Wright, son of Archibald Wright, salt merchant, residing in Fourth street, near Tenny, was shot through the head and killed instantly. He was not participating in the riot, but in conversation with a friend, about sixty yards below the seminary, where he fell. He was carried to the same place where Mr. Ramsey lay, and his father had his remains removed when our reporter left.

It is supposed that a number of others have fallen at the back part of the Seminary, but have been left lying there in consequence of the danger of returning to carry them away. We saw numbers who were more or less injured in the fight, some with bullet holes in their clothes, and there must be a great number of persons wounded by the frequent discharge of fire arms.

It having been rumored that an attempt would be made to fire the Catholic church on Second street, many of the residents retired from their houses to it, with arms, determined to protect it at the hazard of their lives. Up to 12 o'clock no attempt upon the church had been made.

FROM ST. DOMINGO.—By the schr. Robert Treat, at New York, we learn that the Spanish part of the island, having declared itself independent, has organized a regular government, at the head of which is Z. M. Serra, and had, up to the middle of April, resisted the troops of Riviere, with every prospect of ultimate success. The following is the Declaration of Independence, the author of which must have had our own close at hand:

"Declaration of the inhabitants of the Spanish part of the Island of Hispaniola, (once so called) or Santa Domingo, and of the causes of their separation from the Haytian Republic.

Decent attention and due respect to the opinions of all men and to that of civilized nations, exacts that when one people which has been united to another, shall wish to resume its rights, to repossess itself of them, and to dissolve its political bonds, it should declare with frankness and good faith the causes which have impelled it to that separation, that it may not be believed that it was influenced by ambition or a desire of novelty. We think that we have shown, by a heroic constancy, that the evils of misgovernment are to be borne as long as they are supportable, rather than to win justice by casting aside all its forms; yet, when a long series of injustice, of contumely and insult, persevering in one course, shows a design to reduce every thing to despotism and the most absolute tyranny, it becomes the sacred right and duty of nations to cast off the yoke of such a government, and by new guarantees to secure its establishment and future prosperity. Therefore, men assembled in communities with the sole object of winning together their safety, which is the supreme law of the universe, have received from nature the right of proposing and demanding the best means for its preservation; and for a like reason they are authorized to shake off all that infringes on this right whenever the organization of society is endangered.

And, therefore, the inhabitants of the Eastern part of the Island of Hispaniola, or of Santa Domingo, using their inalienable right, impelled by twenty-two years of oppression, and hearing on

all sides the clamors of their country, have firmly resolved to separate themselves forever from the Haytian Republic, and to constitute themselves a free and independent people."

"STICK A PIN THERE."—The Editor of the Rochester Democrat, who has been on a visit to Connecticut, and saw at Birmingham the process of making Pins; after detailing some facts about this curious business, thus describes the way in which they are put upon paper. He says—

As an instance of the marvellous achievement of skill when so brought to bear upon even one branch of this process, and that quite subordinate, the facility for executing the task of sticking the pins upon the sale paper, may be noticed. It takes in England 60 females to stick in one day, by sunlight 90 packs, consisting of 302,400 pins—the same thing is performed here in the same time by one woman. Her sole occupation is to pour them—a gallon at a time—into a hopper, from whence they come out, all neatly arranged upon their several papers! The mechanism, by which the labor of 50 persons is daily saved, yet remains a mystery to all but the inventor; and no person but the single one who attends to it, is upon any pretext whatever, allowed to enter the room where it operates.

MERCANTILE HONOR.—James McAllister, Esq. of New York, has honorably discharged the debts from which he had been absolved by the operation of the Bankrupt law.

BALTIMORE MARKET. Office of the BALTIMORE AMERICAN, May 6.

GRAIN.—There is very little Md or Va. Wheat coming to market. We quote this description at 100 a 108 cts. for good to best reds. On Friday and Saturday last sales of Pennsylvania red to the extent of 30,000 bushels were made at 106 a 109 cts. principally at 106 a 108 cts. We also note a sale of 2100 bushels very superior white wheat, for family flour, on terms not transpired. It came from Luzon County, Pa and is the handsomest parcel which has ever reached his market from that State. It is called the "white blue-stem"—a new kind of wheat raised in that section of country. Purchaser Mr. Jacob P. Miller. Sales of several parcels of Penna. Rye at 61 cts. Corn is not very brisk. Sales of Md. to day at 40 a 43 cts. and of yellow at 45 a 46 cts. A lot of Penna. yellow was offered to day at 46 cts. and refused. Sales of Oats at 27 a 28 cts.

WHISKEY is dull. Small sales of hbls. at 22 cts. and of blbs. at 23 cts.

ORIGIN OF EVERY DISEASE, AND THE MEANS OR CURE.—In the year 1795, Le Roy clearly demonstrated that every disease originated from impure or undigested particles becoming mixed with the blood and fluids. And also, that to cure every disease, it was only requisite to open the natural outlets of the body, and allow them to remain open, by which means the blood and fluids would release themselves from the undigested and impure particles, and a state of health would be certain to ensue.

The Royal Institute of France awarded to him, for this discovery, the Gold Medal of the Institute. This is a historical fact.

All which the Brandeth Vegetable Universal Pills profess to do is, to carry out this principle, and experience has fully established them capable of it. When, therefore, a bad state of health exists in the body, all that has to be done is to continue to purge it effectually with them, and the more violent the disease, the more powerful must be the dose.

OAKLEY'S DEPURATIVE SYRUP. THE valuable properties of Oakley's Depurative Syrup of Sarsaparilla, as a purifier of the blood, is so well known to the public generally, that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has once been introduced, it takes precedence over all others; every one that has taken it, have derived so signal beneficial results from it, that it is recommended by them with the utmost confidence. Physicians resort to it to patients under their care; containing nothing deleterious, but being composed of the most mild, yet efficacious vegetable materials, it is offered with confidence, as the cheapest and most efficient purifier of the blood now known. The use of a few bottles, especially in the spring months, will be attended with a most decided improvement in the general strength of the system, eradicating any seeds of disease that may have been generated, besides giving health and vigor to the body.—For the cure of Scrophula or Kings Evil, Rheumatism, Tetter, Pimples or eruptions of the Skin, White Swelling, Fistula, Chronic Cough Asthma, &c. The numerous certificates in the possession of the subscriber and his agents, from physicians and others, are sufficient to convince the most skeptical of its superiority over all preparations of Sarsaparilla. Sold wholesale and retail, by the proprietor, GEORGE W. OAKLEY, North 5th street, Reading, Berks County, and to be had of the following persons: In Northumberland County.—H. B. Masser, Sunbury; Ireland & Mixel, McEwenaville; D. Krauser, Milton. In Union County.—J. Gearhart, Selinsgrove; A. Gutelius, Millburg. In Columbia County.—R. W. McCay, Washington. Reading, March 14, 1843.

Mr. OAKLEY—I believe it the duty of every one to do whatever in their power lies, for the benefit of their fellow man, and having had positive proof in my own family, of the wonderful properties of your Depurative Syrup of Sarsaparilla, I must conscientiously recommend it to the afflicted. We had the misfortune to lose two of our children, by the breaking out of ulcers sores that covered the face, head and neck, although we had some of the most scientific physicians to attend them and had tried all the known remedies, including Swain's Panacea, without avail. Another of my children was attacked in the same manner, her face and neck was completely covered; the discharge was so offensive, and the disease at such a height, that we despaired of her life. Seeing the wonderful effects of your Depurative Syrup of Sarsaparilla, we were induced to make trial of it, as the last resort; it acted like a charm; the ulcers commenced healing immediately, a few bottles entirely restored her to her health, which she has enjoyed uninterruptedly ever since. As a purifier of the blood, I verily believe it has not its equal. JOHN MOYER, Tailor, Walnut street, near Fourth, Reading. Douglassville, April 19th, 1843.

Mr. OAKLEY—My son Edmund Leaf, had the scrofula in the most dreadful and distressing manner for three years, during which time he was deprived of the use of his limbs, his head and neck were covered with ulcers. We tried all the different remedies, but to no effect, until recommended by Dr. Johnson of Norristown, and also Dr. Isaac Hiestor, of Reading, to use your Depurative Syrup of Sarsaparilla, of which I obtained several bottles, the use of which drove the disease entirely out of his system, the sores healed up, and the child was restored to perfect health, which he has enjoyed uninterruptedly ever since, to the astonishment of many persons who seem him during his affliction. I have thought it my duty, and send you this certificate that others who have a like affliction in the family may know where to obtain so valuable a medicine. Yours truly, AMELIA D. LEAF.
