

POLK, DALLAS AND SHUNK.

Grand Democratic Mass Meeting of the THIRTEENTH CONGRESSIONAL DISTRICT, AT MILTON, PA., ON SATURDAY, 14th OF SEPTEMBER.

RALLY DEMOCRATS! Rally Freeman! Rally Brethren! Rally from the Pines of gallant "OLD LYCOMING." Rally little CLINTON, the glorious Banner county of the district! Rally down-trodden but patriotic Democrats of UNION! Rally your legions NORTHUMBERLAND! Come on, ye noble sons of the "STAR OF THE NORTH!" All come with the family! Come one, come all! Come old, come young! All to the rescue!

To our brethren of all sections we send greeting, and we shall be glad to welcome you among us. Come on! Democrats will always do their duty.

Hon. James Buchanan, Pennsylvania's gifted and talented favorite son, has written us, "that God willing, he will be here," no day can suit him better. Who will not spend one day to listen to that eloquent champion of the people's rights?

We have also invited the following able speakers to attend, viz:—

- B. H. Brewster, Col. James Page, Charles Brown, and E. B. Schnabel, of Philadelphia, Col. Reah Frazier and John W. Forney, of Lancaster, R. M. Barr, of Reading, Wilson McCandless, of Pittsburgh, Gen. Robert Fleming and Wm. F. Packard, of Lycoming, Col. H. B. Wright and Hon. B. A. Bidlack, of Luzerne, James McManus and Col. James Burnside, of Centre, F. W. Hughes, of Schuylkill, and other eminent speakers.

The names of those who will certainly attend will be announced in the papers as their consent is received.

Democrats, this is no time for repose. Federalism, with its hydra head, is leaving no means untried to fasten upon us its atrocious principles and measures, therefore, arouse in the might and strength of Freeman, who are determined to remain free, and show Federalism that the Democratic party values the true principles of our government and is fully determined that they never shall fall.

By order of the Milton Democratic Club,
A. D. Patterson, Samuel Blair,
James Covert, H. L. Dieffenbach,
H. M. Davidson, J. W. Brewer,
James Buoy, Committee.

Milton, August 24, 1844.

Of Tonaco, the duty paid in Great Britain on 23,650,000 pounds, or about 18,000 lbs. consumed there in the last twelve months, was about Twenty Millions of dollars,—being probably as much as was paid in the United States on all articles imported from Great Britain during the same period.

The present duty on American Flour in England, were it worth but eighteen shillings per barrel, is nearly eleven shillings—So much for Free Trade!

The importation of Cotton Goods into the U. States from England during the last twelve months, according to the British official returns, is double as much as in the preceding twelve months.

BALTIMORE MARKET.

Office of the BALTIMORE AMERICAN, Sep. 2.

GRAIN.—There is a good demand for wheat for shipment to the British Provinces, which caused a further advance to day of a cent or two per bushel.—The rates were at 80 a 85 cents for good to prime reds and at 70 a 80 cts. for ordinary to good. Sales of Corn at 40 a 41 cts. for white, and 41 a 43 cts. for yellow. We quote Oats at 20 a 21 cents, which is a slight decline.

WHISKEY.—The stocks are very small, and holders firm. Sales of blts. at 24 cts. and of lbs. at 23 cents.

CAIN is generally called the first murderer, but some call him the first soldier; others might call him the first physician, as the three terms are considered synonymous.

Frederick the Great must have destroyed a great many thousand lives before he became so proficient in the art of killing; yet, when in the presence of his own physician he resigned his laurels to the M. D., and surrendered all claims to superiority over him in that department. Napoleon, in his fatal Russian campaign, destroyed about one million of human beings, and we call him a hero!

Dr. Brandt's Vegetable Universal Pills have saved the lives of at least half that number, and when the properties of his medicine shall be duly appreciated, he will receive the thanks of his fellow citizens; a richer gift than either titles or crowns.

In order to secure the medicine in its purity, he has excluded druggists from any participation in its sale.

SHUGERT'S PATENT WASHING MACHINE.

THIS Machine has now been tested by more than thirty families in this neighborhood, and has given entire satisfaction. It is so simple in its construction, that it cannot get out of order. It contains no iron to rust, and no springs or rollers to get out of repair. It will do twice as much washing, with less than half the wear and tear of any of the late inventions, and what is of greater importance, it costs but little over half as much as other washing machines.

The subscriber has the exclusive right for Northumberland, Union, Lycoming, Columbia, Luzerne and Clinton counties. Price of single machine \$6.

H. B. MASSER.

The following certificate is from a few of those who use these machines in use.

We, the subscribers, certify that we have now in use, in our families, "Shugert's Patent Washing Machine," and do not hesitate saying that it is a most excellent invention. That, in washing, it will save more than one half the usual labor.—That it does not require more than one third the usual quantity of soap and water; and that there is no rubbing, and consequently, little or no wearing or tearing.—That it knocks off all buttons, and that the finest clothes, such as collars, hems, tucks, frills, &c., may be washed in a very short time without the least injury, and in fact with any apparent wear and tear, whatever. We therefore cheerfully recommend it to our friends and to the public, as a most useful and labor saving machine.

The Philosophical WASHING MACHINE.

THIS WASHING MACHINE, plain and simple in its construction, cannot fail to find its way into every family when its real value becomes known. The price (six dollars) is fixed at the lowest rate, in order to induce every family to obtain one. The inventor guarantees that it will not require more than one fourth the usual quantity of soap.—That it will wash in one third the usual time, and what is a matter of great importance, the wear and tear is so small, or at least so little, that it is not perceptible, so that finest black worsted and woollen can be washed, if necessary, in the same suits with linen and cotton. This may seem strange to those who do not know the principle upon which it works. It is the only machine ever invented that washes upon the principle of the friction of water alone. All others wash upon the principle of friction or rubbing, by bringing the clothes in contact with some part of the machine. Independent of the great saving of labor, economy should bring it into general use. The poor man cannot afford to do without it, while the rich man will use it for convenience, if nothing else. Large families will save from five to fifteen dollars a year in soap alone, and not less than 50 per cent. in the wear and tear of clothes, besides the great saving of labor and expense in washing. The subscriber will guarantee that it will perform all that he has stated, if properly used. He has secured from the patentee, the right to Northumberland, Union, Lycoming, Columbia, Luzerne and Clinton counties.
