OUR BANNER IN THE BREEZE.

WITH THE PROPERTY OF THE PARTY AND THE PARTY

Unfurl our banner to the breeze ! To droop or faulter never more-From Maine's far boundaries to the seas That roll upon the Texan shore. Our risin; hosts gird on in might The crushing arms that freemen wield, And with unbroken front unite And form along the battle field.

In serried phalanx dense and deep, Resolved and firm, and undismayed, As ocean waves resistless sweep, They march with Truth's bright shield and blade,

And "still they come," the gathering throng ! While rings afar the thundering cry, From host to distant host along, For Polk ! for Dallas ! Victory !"

The whigs look on in wild amaze, With pale despair in every eye, And vainly hope to quench the blaze That leaps and flashes through the sky In vain they hoist their frowzy flag, And flap their coon skins through the air ; In vain they drink and shout and brag ; Unfaltering still, "our flag is there !"

Soon o'er the field of conflict won, Above the foe's eternal grave, in victory's bright and cloudless sun Our star gem'd gonfalon shall wave ; And Max from every distant clime, From every shore and every see Small claim beneath its folds sublime, The glorious birthright of the free

DEMOCRACY! what joy shall pour Its swelling anthem on the wind, When at the idel's shrine no more Shall basely bend the human mind ; When owls, and cats, and coon skins, all Shall pass as long forgotten things, And radient o'er the land shall fall The day that Truth and Freedom brings?

INDIAN EDUCATION .-- There is an interesting communication in the last number of the Arcausas latelligencer, describing an examinaon of the boys in Spencer Academy -a school stablished in the Choctaw nation, and attened by nearly a hundred young Indians. This chool was opened in Pebruary last, and the parhave increased in number from about forty If there is scarcely-accommodation for them. Most of them when they entered it could not weak English, but now all receive instruction or that language, and upon being examined, ade their replies through the same. They ce arranged in three divisions, according to heir proficiency, a distinct teacher being dested to each. The most advanced division purat the studies usual in our academies; and it just have been an interesting sight, that of a sung savage in the back woods construing the Commentaries of Cresar. A RICH ASECDOTE.-A: friend informed as he other day, of the following scene which occurred in his presence. It is too good to be lost. A brother Coon noticed the omission, and whispered to him to say something about the Hero of the Mississinewa. And there, resumed the orator, is our pure high-minded, intellectual and distinguished candidate for Governor, from-from, looking around-fromwhere the devil is he from ! Our friend said it was the most ludicious scene he ever witnessed; and the crowd evinced the same feeling by a roar of laughter.

THE TOAD .- That poor, despised, and harmless reptile, is admirable in its proportions, and has an eye of such transcendent beauty, that when I find one I place it on my hand to view it more minutely. Its skin, too, so completely adapted to the subterranean places into which it goes for shelter, is well worth the attention of the philosopher. OAKLEY'S

DEPURATIVE SYRUP.

THE valuable properties of Oakley's Deputa-tive Syrup of Sorsaparilla, as a purifier of the blood, is so well known to the public generally, that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has once been intraduced, it takes precedence over all others; every one that has taken it, have derived so signal beneficial results from it, that it is recommended by them with the o most confidence. Physicians of the highest standing in the profession, prescribe it to patients under their care; containing nothing deliterious, but being composed of the most mild, vet efficacions vegetable materials, it is offered with confidence, as the chespest and most efficient puoffice of the blood now known. The use of a few bottles, especially in the spring months, will be attended with a most decided improvement in the general strength of the system, eralicating any seedof disease that may have been generated, besides giving health and vigor to the body .- For the cure of Scrolula or Kongs Evil, Rheumatism, Tetter, Pimples or cruptions of the Skin, White Swelling, F studa, Chronic Cough Asthma, &c. The numerous certificates in the possession of the subscri-Ler and his agents, from physicians and others, are sufficient to convince the most skeptical of is superiority over all preparations of Sarsaparilla.

Reading, March 14, 1843, Ma, Orkery :- I believe it the uty of every ne to do what ver in their power lies, for the binefit of their fellow mae, and having had por ive proof in my own family, of the wonderful properties of your Depurative Symp of Sarsaparilla, I in st consciention-by recommend it to the afflicted. We streets, Philadelphia, and sold on agency in Sunbahad the misfortune to lose two of our children, by ry, by the breaking out of ulcorous sores that covered the face, head and teck, although we had some of the most scientific physicians to attend them, and hatried all the known remedies, including Swaim's Panacca, without avail. Another of my children was attacked in the same manner, her face and neck was completely covered; the discharge was so offensive, and the disease at such a height, that we despaired of her life. Seeing the wonderful effects of your Deparative Syrup of Sarsaparola, we were induced to make trial of it, as the last resort; it acted like a chaim; the ulcers commenced healing immediately, a few bottles entirely restored her to

her health, which she has enjoyed uninterruptedly

ever since. As a purifier of the blood, I verily be-

fieve it has not its equal. JOHN MOYER, Teilor, Walnut street, near Fourth, Reading.

Douglassville, April 19th, 1843. Mn. Oakunr :- My son Edmond Leaf, had the scrofela in the most dreadful and distressing manner for three years, during which time he was deprived of the use of his limbs, his head and neck were covered with ulcers. We tried all the different remedies, but to no effect, until recommended y Dr. Johnson of Nonistown, and also Dr. Isaac Hiester, of Reading, to use your Depurative Syrup of Sarsaparilla, of which I obtained several bottles. the use of which drove the disease entirely out of hes system, the sore healed up, and the child was restored to perfect health, which he has enjoyed unintercurtedly ever since, to the ast aushment of many persons who seen him during his affliction. I have thought it my duty, and send you this certificate that others who have a like affliction in the family may know where to obtain so valuable a Yours truly

ROSE OINTMENT. FOR TETTER.

RINGWORMS, PIMPLES ON THE PACE, AND OTHER

CUTANEOUS ERUPTIONS. The following certificate describes one of the most extraordinary cures ever effected by any application.

PHILADELPRIA, February 10, 1838. OR twenty years I was severely afflicted with TETTER on the Face and Head; the disease mmenced when I was seventeen years old, and continued until the Pall of 1836, varying in violence, but without ever disappearing. During most of the time, great part of my face was covered with the eruption, frequently attended with violent itching; my head swelled at times until it felt as if it would burst-the swelling was so great, that I could careely get my hat on. During the long period that I was afflicted with the disease, I used a great many at plications, (among them several celebrated preparations) as will as taking inward remedies, cluding a number of bottles of Swaim's Panacea, Extract of Sarsaparilla, &c. In fact, it would be impossible to enumerate all the medicines I used, I was also under the care of two of the most distinguished physicians of this city, but without receiving much benefit, and I despaired of ever being eared. In the fell of 1836, the disease at the time being very violent, I commenced using the Rose Ointment, (prepared by Vaughan & Davis.) In a few applications the violent itching ceased, the swelling abated, the cruption began to disappear, and before I had used a jar the disease was entirely cuted. It has now been nearly a year and a half since, and there is not a vestige of the disease remaining, except the scars from the deep pits formed by the disease. It is impossible for me to describe a a certificate the severity of the disease and my suffering, but I will be pleased to give a fuller secount to any person wanting further satisfaction, who will call on me. At the time I commenced using the R se Ointment I would have given hundreds of dollars to be rid of the disease. Since using it. I have recommended it to several persons (among them my mother, who had the disease badon her arm,) who were all cured by it.

Rose Cintment, for Tetter. A PROOF OF ITS EFFICACY.

PHILABELPHIA, May 27th, 1839. HIS is to certify that I was severely afflered with Tetter in the hands and feet for upwards of forty years; the disease was attended generally with violent itching and swelling. I applied to a number of physicians, and used a great many applicarrons without effecting a cure. About a year since, I applied the Rose Ointment, which entirely stopped the itching, and a few applications immedintely cured the disease, which there has been no return of, although I had never been rid of it at any time for forty years. Of the ROSE OINTMENT, for Tetter, A LTHOUGH the superiority of the preparation over all others is fully established, the proprietors take pleasure in laying before the public the ollowing certificate from a re-pectable physician, graduate of the University of Pennsylvania, Dr. Baugh, having found in this remedy that relief for a tedious and disagreeable affection which the means within the range of his profession failed to afford, has not hesitated to give it his approbation, although the prejudices and interests of that profession are prosed to secret Remedies.

Parladelpula, Scot. 19, 1836. I was recently troubled with a tedious herpetic eruption, which covered nearly one side of my face. atal extended over the ear.
