WILDS ANDS IN NEW YORK STATE,-The | northern part of this neighboring State is so wild that its condition is scarcely creditable. A good deal of land is still owned by the State, while large tracts are in the possession of individuals who bought them for speculation. Some whole townships are still an unbroken wilder- Wm H Wapples ness. A few settlers are sprinkled here and there over this large territory. Sometimes you will find ten or twelve log huts in the whole | Seth Cadwallader township, sometimes four or five, sometimes George Correy none. In one instance one man is the only being in the township. In one of these little set- | Peter McDowall tlements, not long since, a man was found to William Hayes be a thief. His comrades immediately tried and convicted him, and then started with him through the woods for the nearest jail fifty miles distant. When about half way through the for- Wood & Rhawn est they stopped, and declared it was going to cost more than it would come to, and turned him loose in the woods. The country is too H B Masser mountaneous for farming, and this keeps it comparatively unsettled; but it is said sheep might be grown there to great profit and in sufficient Mosteller & Swenk numbers to supply all the wool of the United States. Such, at least, is the opinion of a writer in the New York Tribune.

NOVEL AND INTERESTING .- We learn that T S Mackey & Son our old fellow citizen Mr. R. Downey, now living in New Albany, has obtained a patent for a machine to aid in tunning leather, by which ses on or before the 18th day of Nevember next, be can manufacture the article in half the time it has heretofore taken, and save one-half of the bark. He uses no steam or chemical agent, but simply deprives the hides of a sort of mucus. and introduces the bark liquor by means of his machine. The city council of New Albany have appointed a committee of practical and sci- Ribbans. Ladies' Cravats, &c., and respectfully reentific men, at the request of Mr. Downey, to quests her customers and others to call and see, examine the process and machine, and to report thereon at as early a day as practicable. We understand that the committee are favorably impressed as far as they have gone in their exam- | N the matter of the proceeds of the real estate of inations. - Louisville Journal.

Dr. Caldwell states, in the New York Journal of Medicine, that nearly forty years ago, a distinguished and well known professor of chemist- To all persons interested in the distribution of the public, adding a certificate in support of my asserry, declared in his presence, and in his house, that, by a chemical process, he could make a haman being. About the same time, a book was published in Philadelphia, by a gentleman with whom he was intimate, in which it was openly in said distribution, asserted that the time would soon arrive, when, by the arrangement of a given kind of matter in a given way, and the passing through it of a stream of electricity, a man may be crystalized.

VAST SIZE OF LONDON -The city of London contains over 10,000 streets, courts and alleys, 160,000 houses and public edifices, and nearly two millions of inhabitants; it covers a space of righteen square miles and is over thirty miles in circumference. In other words, it is more than Bonily Weskness, &c. seven times as large as the city of New York.

There is plenty of salt at Turk's Island, but very little to cat with it.

JOHN A. CANTRELL. Cantrell's' Ague Mixture, or Tonic Medicamenta.

For the cure of all Billions affections, if taken ac-cording to directions, It is a never failing remedy which no family ought to be without, especially in low marshy

countries. As this medicine is put up under the propri tor's immediate inspection on the most scientific principles, being Purely Vegetable, and having tried its efficacy on thousands, for upwards of 12 years, and to his knowledge when taken strictly according to directions, there has not been one farlure. Under such carcumstances I recommend it to the

I. John Burns, do certify that I was in the ship Tobseco Plant of Philadelphia, Capt. Reed, in June, 1827, bound to Liverpool; took the fever and ague and laid in Liverpool some time under the doctor's bands, went from there to Baltimore, Welch, Pomp & Frick lay in the Infirmary for four or five weeks-from thence to Philadelphia; was six mentls under Dr. Ceats; from thence to New York—went to the Hospital, remained there about four weeks without sny relief-tried every thing without any benefit, for five years. Hearing of Cantrell's Ague Mixture from a friend, I went to his store, told him how I was afflicted, and got a bottle of his mixture and used it according to directions. It made a perfeet cure, and I have not had the least return since, I do with confidence recommend it to the public.
