

A FACT FOR THE CONSIDERATION OF CONGRESS.—It is stated as a fact, in the New York Sun, that one of the private mail concerns received in one day 530 letters, while the Post Office received only three; and the private mail, at six cents a letter, received \$31 30, while the Post office collected only fifty six and a quarter cents. This is an important fact, which shows what will become of the revenue which the Government derived from the Post-office Department, unless some reform is introduced and the cheap postage system adopted. The Postmaster General, it is said, has seen the necessity of the adoption of this measure, and in his report to Congress, in a few weeks, will press the necessity of a reduction which will not be lower than five cents, nor higher than 10, and the President will also call the attention of Congress to the importance of prompt action. Congress, it is to be hoped, will pay more attention to it than at the last session. Had the suggestions of the press and the popular voice, as expressed through public meetings, been listened to, the Government might now be reaping the advantages which others enjoy. We are anxious to see what effect has been produced in the last year upon the Post-office department in the pecuniary resources by the private mails.

EFFORTS FOR THE LIBERATION OF GOV. DORR.—We learn from the Providence Gazette, of Tuesday, that Gen. Fessenden, of Maine, is in Providence, endeavoring to do something for the liberation of Mr. Dorr, upon a writ of error and habeas corpus. He made an application to have an interview with the imprisoned man, through the Mayor of the city, but the application was denied.

MARYLAND COAL.—The first train of cars loaded with Bituminous Coal of Western Maryland, was despatched from the Mines to the city of Baltimore, by railroad, a distance of 100 miles, on Saturday last.

The Buffalo Advertiser states that more money has already been squandered in the Illinois Canal 100 miles long, and which is unfinished, than was required to complete the Ohio Canal 309 miles in length.

PROTESTANTISM PREDOMINANT.—New Hampshire is the only State whose constitution does not allow a Catholic to hold the offices of Governor, Councillor, Senator or Representative. A proposition to amend the constitution by abolishing this restriction, was submitted to the people, and the majority against it was large.

A FALL.—While the workmen were hoisting a new bell to the cupola of the Washington street Baptist Church, Buffalo, on Monday last, the ropes parted, the bell falling a distance of sixty feet, breaking through the floors and lodging in the earth under the basement. All hands narrowly escaped.

WHOLESALE SLAUGHTER OF HOGS.—Preparations have been made at Madison, Indiana, to slaughter and pack 100,000 hogs during the present season.

THE CAMDEN, N. J. RACE COURSE is about to be abandoned. The whole establishment is to be sold at public auction.

American Apples are deemed as great a luxury in England as English potatoes are this season in the U. States.

HOMAGE TO BEAUTY.—A New York publisher is preparing magnificent prints of Mrs. Madison, Mrs. John Tyler, and Mrs. Polk; the first an Ex-President's lady, the second a President's lady, and the third a President elect's lady. All charming and beautiful.

Twenty seven whig newspapers having supported Mr. Clay through the late campaign, have now come out openly for Nativism.

FREEDOM TO THE BOND.—Nathaniel Hood, of Kings county, Va., lately deceased, left by his will nearly all his slaves free, amounting to some two or three hundred, with ample provision to carry them to Liberia.

PLAYING CHESS BY TELEGRAPH.—The Washington Chess Club and the Baltimore Chess Club are to play a game of chess through the Magnetic Telegraph, soon.

BUSINESS AND RELIGION.—In Maine they liberally distribute business cards and circulars among the congregation at the churches. The ministers are beginning to oppose the custom. No wonder.

RAIL ROAD ENTERPRISE.—The subscriptions to the Canada and Boston Railroad already, it is said, reach eight hundred thousand dollars in Boston.

The Indians in the neighborhood of Fort Onachita, are said to be in a state of open hostility to the whites in the vicinity. So alarming has become their position, that an express had been despatched to Fort Jessup, for three companies of U. S. Troops to quell them.

There is a regularly organized temperance society in the Cherokee nation. Nearly 2000 Cherokees have enrolled themselves as members, and taken the pledge. This is an example of the advance of the "savage" that might put whites to the blush.

It is said that out of 50,000 members of the Baptist churches in Georgia, 45,000 of them are black persons. In Augusta there are 1000 black members of that church and 200 whites, and in Savannah 2200 blacks and 300 whites.

The capital invested in Manufactures at Lowell, exceeds eleven million dollars. These factories consume annually 12,500 tons Anthracite Coal.

The number of distilleries in Sweden is said to be 150,000; furnishing 400,000,000 gallons of spirits annually, while the population is but 4,000,000.

A writer in the National Intelligencer, speaking of the morality of the Parisians, says: "Full one-third of the population of Paris live together without marriage."

Shocking Murder near Valley Forge.
A friend residing at Phoenixville, informs us that "an Englishman by the name of William Palmer, aged 21, was a day or two ago found in a ravine, under stumps and leaves, in an obscure place, within half a mile of Valley Forge, having been shot in the neck, and received other marks of severe violence. An Inquest reported "Deliberate Murder." He had been missed for about three weeks, but it was supposed that he had clandestinely left. Suspicion had fallen upon a man with whom he was boarding, who has been arrested and committed for trial. Another boarder had missed a considerable sum of money, and this is supposed in some way to be connected with the motive." Our correspondent states that the neighborhood is much agitated, as this is the first murder ever committed in the immediate vicinity. A deep feeling prevails moreover, because the accused is connected with one of the largest and most reputable families of the neighborhood.

The Norristown Register gives some further particulars of the murder of young Palmer, near Valley Forge. The name of the accused is Peace, and the two went out gunning together, but with only one gun. Peace returned without his companion. This excited inquiry, a search was made, and the dead body found in a neighboring wood. The Register adds:

"The pecuniary circumstances of Peace had been very embarrassing for some time, and he had been pressed very much for money. Directly, Peace was found to possess an unusual quantity of it, and with it he discharged some debts, one of which amounted to about \$61. The Englishman was poor, yet the sudden reverse in the circumstances and conduct of Peace, induced a general suspicion that he had been the perpetrator of the murder of the former. Accordingly on Saturday last the 16th inst., he was arrested, and underwent an examination before a Justice of the Peace, in that vicinity. He could not account for the receipt of more than \$25 of all the money in his possession. The \$61 above mentioned was paid on the day of the man's disappearance, whereas he insisted that it was paid long before; this debt was, moreover, paid by ten dollar notes, none of which he could account for. The circumstantial evidence adduced, was so strong against him, that the magistrate felt obliged to have him committed to the County Jail at West Chester. The deceased was subsequently disinterred, and upon a post-mortem examination held over his body, he was found shot in the back of his neck, and his skull was broken."

The Great Foot Race at Hoboken.
On Thursday the Great Foot Race on the Beacon Course, New Jersey, came off. It ended in the success of John Barlow, (English), who completed his ten miles in 51 minutes and 21 seconds. There must have been at least thirty thousand persons present on the stand and in the ring. The time of the principle race was as follows:

Barlow—1st mile, 5 minutes 10 seconds.
2nd " 5 " 15 "
3d " 5 " 22 "
4th " 5 " 25 "
5th " 5 " 28 "
6th " 5 " 32 "
7th " 5 " 33 "
8th " 5 " 36 "
9th " 5 " 35 "
10th " 5 " 25 "

Making 10 miles in 51 minutes 21 seconds.
Steeprock (the Indian) 54 minutes 33 seconds.
Greenhalgh, 55 " 10 "
Guillemerville, 56 " 1 "
First prize, \$700, John Barlow.
Second prize, \$250, Steeprock, (Indian).
Third prize, \$150, Greenhalgh, (English).
Fourth prize, \$75, Guillemerville.
Only twelve persons had entered for the race. There was previously a race which, although not advertised, resulted as follows:—

Three miles for a purse of \$200—\$50 to the second man in.
The competitors for this race were—Edwin Brown, Ambrose Jackson, William Fowl, and Myers.

First Mile.	Second Mile.	Third Mile.
Brown, 1	gave out	
Jackson, 2	1	1
Fowl, 3	3	2
Myers, 4	2	gave out
Time 5 m. 10 sec.	5.30	5.36

Jackson won the first prize in 16 minutes and 16 seconds. Fowl coming in a short distance behind him.—N. Y. Tribune.

THE THREE KINGDOMS.—The world we inhabit is divided into three grand departments, named the Mineral, the Vegetable and the Animal kingdoms. The first named forms the base of the other two; thus the vegetable kingdom derives life and nutriment from the mineral, and the animal kingdom is supported by the vegetable.

No mineral substance can become a part of an animal body, because it cannot be digested. Quick-silver is a mineral, Calomel is sublimated quick-silver; therefore, calomel cannot be digested, but when lodged in the body acts as a corroding poison. Instead, therefore, of calomel, use Brandreth's Vegetable Universal Pills; because they are a medicine extracted entirely from vegetables, and known by long experience to be perfectly innocent, and yet of more power as a purgative or cleanser of the alimentary canal, than any other medicine. Their effect on the system is so easy that it is a remarkable fact that the same dose may be given to an infant or adult, without the possibility of doing any injury—but on the contrary good.

FIFTY DOLLARS REWARD!
CANTRELL'S
Celebrated Family Medicines
WILL not cure every thing, but still remain unequalled in their several departments by every thing ever offered to the public, who have voluntary come forward and offered numerous and highly respectable testimonials of their superior efficacy.
Cantrell's Compound Medicated Syrup of Sarsaparilla; or, Anti-Scorbutic Syrup, for the cure of Scourful, Chronic Rheumatism, Chronic Swellings of the Joints, Eruptions of the Skin, and all Diseases arising from the abuse of Mercury, &c., unsurpassed by anything in the market, combining all the virtues resident in the Sarsaparilla with a modern medicine, only lately brought out by the most respectable medical authorities. Price, 50 cents per bottle.
Cantrell's Anti-Dyspeptic Powder, for the relief and permanent cure of that distressing complaint, Dyspepsia, in all its forms and stages. It is truly a most valuable remedy. Sold in bottles at 25 and 50 cents each.
Cantrell's Aque Mixture and Tonic Medicaments, stands at the head of the list unrivalled by any, or all the innumerable medicines in use throughout the length and breadth of the land, for the cure of Fever and Ague in all its stages, and from all its consequences.
Residents in Fever and Ague districts should never be without it.
The subscriber will forfeit FIFTY DOLLARS where his medicine fails to perform a cure in the most obstinate case.
Sold Wholesale and Retail by CALER CRESSON, at his Drug Warehouse, No. 6 North Third Street, Philadelphia; also, by the regularly appointed agent, SETH W. ROBERTS, Wholesale Druggist, No. 54 Water Street, Mobile.
Prepared only by the Subscriber, corner of CANTRELL and SECOND Streets, below Christian, Philadelphia, where it is also retail.
Observe, none are genuine without the signature of JOHN A. CANTRELL.

Cantrell's Aque Mixture, or Tonic Medicaments.
For the cure of all Bilious affections, if taken according to directions.
It is a never failing remedy which no family ought to be without, especially in low marshy countries.
As this medicine is put up under the proprietor's immediate inspection on the most scientific principles, being Purely Vegetable, and having tried its efficacy on thousands, for upwards of 12 years, and to his knowledge when taken strictly according to directions, there has not been one failure. Under such circumstances I recommend it to the public, adding a certificate in support of my assertion.
John Burns, do certify that I was in the ship Talouca Plant of Philadelphia, Capt. Reed, in June, 1827, bound to Liverpool; took the fever and ague and laid in Liverpool some time under the doctor's hands, went from there to Baltimore, lay in the Infirmary for four or five weeks—from thence to Philadelphia; was six months under Dr. Coats; from thence to New York—went to the Hospital, remained there about four weeks without any relief—tried every thing without any benefit, for five years. Hearing of Cantrell's Aque Mixture from a friend, I went to his store, told him how I was afflicted, and got a bottle of his mixture and used it according to directions. It made a perfect cure, and I have not had the least return since. I do with confidence recommend it to the public.
JOHN BURNS.

Medicated Syrup of Sarsaparilla.
Philadelphia, April 10th, 1843.
Dear Sir,—Having been afflicted for upwards of two years with ulceration of the throat, destroying the whole of the soft palate, then through the upper part of my mouth into my nose, from which several pieces of bone came out, which partially destroyed my speech, through a kind Providence and your Medicated Syrup of Sarsaparilla, I am now restored to perfect health, and my sight, which was so much impaired, is as strong as when a boy.
I thought it a duty I owed to you and those similarly affected, to make it public.
Yours, Respectfully,
SAMUEL KIRK, Corner of Truth and Cones Streets.

DR. ALLEN'S
VEGETABLE COMPOUND,
FOR THE CURE OF
DYSPEPSIA.
THIS Medicine is offered to the public generally, from a full conviction that it is superior to any other medicine now in use, for the cure of Dyspepsia, Liver Complaint, Nervous Debility or Bilious Weakness, &c.
Its effects have been tested in a private practice of near eight years, and it is now more extensively circulated, at the solicitude of many who have received the most signal benefit from the use of it.
The following is one among a number of certificates received in relation to the success of this medicine:
LANCASTER Co. March 18.
Dr. GEORGE W. ALLEN,
Dear Sir—It is with great pleasure that I inform you of the success attending your Dyspeptic Medicine, while employed in my practice. From past experience, I firmly believe that in eight cases out of ten, the Dyspeptic, by the use of your medicine, may entirely rid himself of this thorn in the pathway of life: not only in dyspeptic cases, but in all cases of constipation, and diseases depending on a debilitated state of the nervous system, together with a torpid state of the bowels, will your Elixir be found of inestimable value. Numerous instances wherein the usefulness of the medicine has been realized, may be forwarded, if required. I wish you great success, and recommend the medicine to the suffering part of mankind.
Yours, with great respect,

SHUGERT'S PATENT WASHING MACHINE.
THIS Machine has now been tested by more than thirty families in this neighborhood, and has given entire satisfaction. It is so simple in its construction, that it cannot get out of order. It contains no iron to rust, and no springs or rollers to get out of repair. It will do twice as much washing, with less than half the wear and tear of any of the late inventions, and what is of greater importance, it costs but little over half as much as other washing machines.
The subscriber has the exclusive right for Northumberland, Union, Leominster, Columbia, Luzerne and Clinton counties. Price of single machine 26.
The following certificate is from a few of those who have these machines in use.
Sunbury, Aug. 24, 1844.
We, the subscribers, certify that we have now in use, in our families, "Shugert's Patent Washing Machine," and do not hesitate saying that it is a most excellent invention. That, in its use, it will save more than one half the usual labor. That it does not require more than one third the usual quantity of soap and water; and that there is no rubbing, and consequently, little or no wearing or tearing. That it knocks off no buttons, and that the finest clothes, such as collars, faces, necks, frills, &c., may be washed in a very short time without the least injury, and in fact without any apparent wear and tear, whatever. We therefore cheerfully recommend it to our friends and to the public, as a most useful and labor saving machine.

HERN'S HERR, (formerly Pennont House, No. 116 Chestnut street.) Philadelphia, September 21st, 1844.
I have used Shugert's Patent Washing Machine in my house upwards of eight months, and do not hesitate to say that I deem it one of the most useful and valuable labor-saving machines ever invented. I formerly kept two women continually occupied in washing, who now do as much in two days as they then did in one week. There is no wear or tear in washing, and it requires not more than one-third the usual quantity of soap. I have had a number of other machines in my family, but this is so decidedly superior to every thing else, and so little liable to get out of repair, that I would not do without one if they should cost ten times the price they are sold for.
