

INFAMOUS OUTRAGE.—The New-York papers of Saturday last contain the following accounts of an infamous outrage perpetrated in that city:—

"A fiendish outrage was committed in that city on Monday night on the person of a respectable young female. The circumstances under which it was perpetrated are as follows:—A girl of about 16 years of age, named Sarah M. Dolsonmans, of Goshen, who was on a visit to her aunt, a Mrs. Jennings, was taken to the Bowery Theatre on Monday evening by a young man, her cousin. After the conclusion of the performance he invited her to take oysters, at an oyster cellar in the Bowery. She refused, and remained outside while he was taking refreshment. While waiting for him she was seized by several young men, one of whom placed his arm around her neck, and grasping her neckerchief, twisted it round her throat so tight that she could not scream; another of the party, named Alexander Edwards, then caught her by the waist, and others by her legs. They then carried her up an alley in a cross street, and there two of the ruffians, one of whom was Edwards, despite her struggles, accomplished their atrocious purpose. They also robbed her of her purse, containing \$5. In the struggle with the villains she severely bit the finger of one of them—Edwards—and this circumstance led to his arrest yesterday. He is about 20 years of age. The girl fully identifies him, and he is committed to answer. The others have not yet been taken."

THE CONVICTION OF PETER W. PARKE.—The conviction of Peter W. Parke, for the Castner murder in New Jersey, appears to have been effected by the following train of circumstances:—"Jesse Tiger deposed that some time before he murdered Peter W. Parke asked him if he could join in murdering John Castner, and then, said he, *we shall have money enough.* Mrs. Margaret Martens also testified that being at the house the morning after the murder, and going at the back door to throw out some bloody water, she saw two men leaning on the fence, and one of them said to the other *Do I look guilty?* He answered *No.* The latter then said to the former *Do I look guilty?* He also answered *No.* They then raised their heads, and seeing Mrs. M., one of them raised his voice and said *that horrid murder we have up here among the mountains!* They were Peter W. Parke and Joseph W. Carter.

Peter W. Parke will be brought to Trenton to receive his sentence at the next term of the Supreme Court, which begins on Tuesday the 25th of February; at which term the case of Joseph Carter, now in the Mercer jail, convicted of the same murder, will be disposed of."

PAUPERS OF FOREIGN BIRTH.—The following extraordinary statements have been published by the authority of a committee of the Common Council of New York:

"It appears that the bonds of nine firms in this city exhibit the enormous liabilities of \$16,000,000,—that of the 602 children supported by the city, at the Farm Schools, 457 are the children of any, if not most of them illegitimate; of foreign parents; that of latest born infants at nurse, the city's expense, 32 are foreign, and only 2 merican; and "that the whole number of children 626 have foreign parentage, and 195 American, exhibiting the average of more than three foreigners to one native, and an alarming increase the ratio of foreigners in the more recent years."

The whole number of inmates in our penitentiary is 1410, showing an increase of 400 since last year; of these 305 are Americans, and 1105 foreigners. The number of prisoners and paupers to support, we all pay taxes, 1341, showing increase since July last of nearly 1000."

MORSE'S MAGNETIC TELEGRAPH has been invented by M. Pagnot, the French Minister. M. Boco the Russian Minister, and M. Calderon de Haras the Spanish Minister—all of whom were highly gratified with the operations of this unequalled "Yankee invention."

The French Minister had written a despatch some length, in his own language, which was turned through the same medium. The specimen of Telegraphic writing thus returned it is ended to transmit to France.

REMARKABLE.—Mr. Walter Hasty, of Liming, Me., a few days since, found a cent embedded in the middle of an ox's liver, which he was tting up. The liver was entirely enclosed around the cent, and, on removing it, the imprint the letters was seen upon the parts with which it had been in contact.

ATTEMPTED REVIVAL OF HEATHENISM.—The *Advocate* says, in India there are several "spawpers" established for the express purpose of opposing Christianity, and public lectures are given in Calcutta for the same object. Some of the missionaries regard these efforts of native agents as indirectly beneficial to the cause of the, inasmuch as they arouse a spirit of inquiry among minds that hitherto have been characterized by inertness.

CAUGHT.—An eagle, measuring over seven feet between the tips of his wings, was caught in Orange county, N. Y., a few days ago, by means of a fox trap. A pound of beef makes only a trifling meal for him.

SANTA ANA.—By later accounts it appears that Santa Ana is not so badly off as represented.—he has the most military and civil stuff in him of any man in Mexico, and ought to rule by virtue of natural laws.

DISTILLERIES.—From the latest authorities, it appears that the number of distilleries in the U. States is 10,405; the number of gallons of distilled liquors produced annually is 41,602,607,—which, if sold at 20 cts. per gallon, would produce \$8,320,501 40. What untold misery is the result of this degrading traffic!

MORMONS.—Thirteen hundred and thirty-seven Mormons have remonstrated against the repeal of their charters.

FROM MEXICO.—Further intelligence from Mexico has been received at New Orleans via Havana. On the 30th of Dec., Santa Ana was at Ayotia, a small village a short distance this side of the capital. It will be recollected, says the *Picayune*, that the latest communication from him to the Government was dated at Huachuetoca, Dec. 26. The change of position is thought to strengthen an impression previously entertained, that he will endeavor, in case of failure before the capital, which the letter writers appear to think inevitable, to force his way to Vera Cruz, thence to escape by sea when he finds the game is all up with him.

A private letter from the city of Mexico, received at Havana, and dated the 28th of Dec., states that the force under Santa Ana exceeds 10,000 well appointed troops, and yet the writer is confident that this large command cannot avail him. The capital is defended by 20,000 men, of whom 12,000 are regular troops, and 8000 belong to the National Guard. Many families had left and were leaving the city, however, from fear that it would be bombarded. Resident foreigners were diligently fortifying their houses, in consequence of a report that Santa Ana had promised his troops that, in case they should be able to take the city, he would give it up to them to be sacked.

AFFAIRS IN HAVANA.—We learn by the N. O. *Picayune*, that several strange events have occurred at Havana.—The "Monte de Piedad," or pawnbroker's shop, under the sanction of the authorities, was broken open and robbed by the soldiers on guard. All have been arrested except the corporal and one other—the punishment will be death. The amount of property is variously estimated—from \$50,000 to \$75,000.

A lawyer, in coming out of one of the churches, trod on the toe of the gentry, who stabbed him instantly. Another sentinel ran up, and also drove his bayonet into him. The lawyer died instantly. The soldiers fled into the church, to the sanctuary, but were dragged out, tried the same day and sentenced to be shot. Their only excuse was that they were "tired of drilling."

MATHEMATICAL CALCULATION.—Some mathematical genius having made a calculation that Niagara Falls would turn all the machinery in the world, if applied to it, the Concordia Intelligence sets its wits to work and comes out with the startling fact that if all the machinery in the world was applied to Niagara Falls, it would not turn them.

EXCITING CASE.—A case of some interest occurred in this city on the 20th ult. A man from Martinsburg, Va., arrested a colored man and his wife—the woman as his runaway slave and the man for kidnapping the woman! The Alderman, before whom they were taken, declined investigating the matter, and the jailer wouldn't take care of them unless "by authority." So they are both at large.—*Pitts Aeg.*

THE WRONG MAN HANGED.—A Liverpool paper says that Wm. Towns, a soldier in the 21st Fusiliers, now in India, has confessed that it was he who dashed out the brains of a gamekeeper in Essex, about nine years ago, and that a man named Chalker, who was executed for the murder, was innocent.

THE IDENTICAL BIBLE which John Rogers, the martyr of Primer memory, once owned, was brought to this country nearly two centuries ago, and is now in the hands of one of his descendants. A "Breeches Bible," printed in London, 1577, the copy of which was presented by the printer to Queen Elizabeth, was procured in England at a high price by Admiral Sir Isaac Coffin, and sent to the late Rev. Dr. Hooper, of Mass., at the sale of whose library it was purchased by me, and is valued as a pleasing relic of Royalty and Puritanism.—*Correspondent Boston Trans.*

THE BIBLE IN IRELAND.—The English religious journals state that the Bible readers and home missionaries are laboring with animating success in Ireland. It is less than ten years since the first effort was there made to teach the Bible in schools; 400 schools came into the plan, and 242 teachers were employed the last year. It is estimated that 16,547 children have thus learned to read the Scriptures.

NO BETTER YET.—An old lady having heard somebody say "the mails were very irregular," remarked, "it was just so in her young days; no trusting to any of their fair words."

REASONABLE ADVICE.—"Take time by the forelock," says the adage. Take medicine at the proper time, say we. It is a matter of less difficulty to ascertain the proper time to seek relief from medicine, than it is to discover the proper medicine which is to administer comfort to the afflicted patient. Brandreth's Vegetable Universal Pill, which have obtained a celebrity in the "Annals of Physic," unequalled in ancient and modern times, have performed such astonishing cures, that thousands of people, in justice to Dr. Brandreth, have publicly recorded their opinions of their wonderful and extraordinary health-restoring qualities.

PUBLIC SALE.
IN pursuance of an order of the Orphans' Court, of Northumberland county, on Thursday the 6th day of February next, at 1 o'clock, P. M., Sharpless Taylor and J. C. Grier, Administrators of William Garrett, late of Rush township, in said county, deceased, will expose to sale by public vendue, at the house of John Garrett, in Point township, in Northumberland county aforesaid, all the IRON ORE, in a certain tract of land containing 170 acres, situated in Point township aforesaid, adjoining E. G. Cough, M. J. Biddle and the Susquehanna river; whereas the said John Garrett now resides, with the free privilege to pass and repass from the said property to the Canal, for the purpose of conveying the ore, and right to land at the mines sufficient to build two houses up-on, with privilege for the miners to pass and repass to and from their houses. All of which will be sold subject to a sale on the 13th August 1845, by the said deceased of the said Iron Ore, at 40 cents per ton, to Eli Trege. Said Trege to take out three hundred tons the first year, and at least four hundred each subsequent year, commencing in the spring of 1845, if the price at which the said ore could be sold would yield a small profit to said Trege, with the right of entry way, &c. Late the estate of said deceased, situate in the township of Point, and county aforesaid SHARPLESS TAYLOR, JOHN C. GRIER, Danville, Jan. 18, 1845.—3t, Adm'rs.

Cantrell's Ague Mixture, or Tonic Medicament.
For the cure of all Bilious affections, if taken according to directions.
It is a never failing remedy which no family ought to be without, especially in low marshy countries.
As this medicine is put up under the proprietor's immediate inspection on the most scientific principles, being Purely Vegetable, and having tried its efficacy on thousands, for upwards of 12 years, and to his knowledge when taken strictly according to directions, there has not been one failure. Under such circumstances I recommend it to the public, adding a certificate in support of my assertion.
I, John Burns, do certify that I was in the ship Tubacco Plant of Philadelphia, Capt. Reed, in June, 1827, bound to Liverpool; took the fever and ague and laid in Liverpool some time under the Doctor's hands, went from there to Baltimore, lay in the Infirmary for four or five weeks—from thence to Philadelphia; was six months under Dr. Coates; from thence to New York—went to the Hospital, remained there about four weeks without any relief—Tried every thing without any benefit for five years.—Hearing of Cantrell's Ague Mixture from a friend, I went to his store, told him how I was afflicted, and got a bottle of his mixture and used it according to directions. It made a perfect cure, and I have not had the least return since. I do with confidence recommend it to the public.
JOHN BURNS.

Medicated Syrup of Sarsaparilla.
Philadelphia, April 10th, 1844.
Mr. JOHN A. CANTRELL,
Dear Sir,—Having been afflicted for upwards of two years with ulceration of the throat, destroying the whole of the soft palate, then through the upper part of my mouth into my nose, from which several pieces of bone came out, which partially destroyed my speech, through a kind Providence and your Medicated Syrup of Sarsaparilla, I am now restored to perfect health, and my sight, which was so much impaired, is as strong as when I was a boy. I thought it a duty I owed to you and those similarly affected, to make it public.
Yours, R. spee fully,
SAMUEL KIRK, Corner of Truth and Coates Streets.

I, Gabriel Jonston, No. 6 Rockless Street, do certify that my wife, Jane, was afflicted for two years with Rheumatism, and at last was entirely disabled, so that she was obliged to be confined to a bed; hearing of Cantrell's Medicated Syrup of Sarsaparilla, or Anti-Scorbutic Syrup, I procured four bottles, which completely removed all her pains and stiffness from her limbs; two more bottles made a perfect cure. She is now able to attend to her household duties as usual.

DISPENSARY OF VEGETABLE COMPOUND, FOR THE CURE OF DYSPEPSIA.
THIS Medicine is offered to the public generally, from a full conviction that it is superior to any other medicine now in use, for the cure of Dyspepsia, Liver Complaint, Nervous Debility or Bilious Weakness, &c.
Its effects have been tested in a private practice of near eight years, and it is now more extensively circulated, at the solicitation of many who have received the most signal benefit from the use of it.
The following is one among a number of certificates received in relation to the success of this medicine:
LANCASTER Co. March 18.
Dr. GEORGE W. ALLEN,
Dear Sir:—It is with great pleasure that I inform you of the success attending your Dyspeptic Medicine, while employed in my practice. From past experience, I firmly believe that in eight cases out of ten, the Dyspeptic, by the use of your medicine, may entirely rid himself of this thorn in the pathway of life; not only in dyspeptic cases, but in all cases of constipation, and diseases depending on a debilitated state of the nervous system, together with a torpid state of the bowels, will your Elixir be found of inestimable value. Numerous instances where the usefulness of the medicine has been tried, may be forwarded, if required. I wish you great success, and recommend the medicine to the suffering part of mankind.
Yours, with great respect,
ROBERT AGNEW, M. D.

THE LIVING AGE, PUBLISHED EVERY SATURDAY, AT 12 1/2 CENTS A NUMBER.
THIS is a work composed chiefly of choice articles from the Periodical Literature of Europe. Boston having become the point of communication with the Old World, and the intercourse being now so frequent, we think it the best location for our office, and believe that such a compilation may be issued once a week, from this city, as will be read with pleasure and profit in all parts of the United States.
The Living Age will be conducted in the spirit of Little's Museum of Foreign Literature, (which was favorably received by the public, for the past 20 years,) but as it will be twice as large, and will appear so often, we shall not only give spirit and freshness to it by many things which were excluded by a month's delay, but shall also,—while thus extending our scope and gathering a greater and more attractive variety,—be able to increase the solid and substantial part of our literary, historical and political harvest, as fully to satisfy the wants of the American reader.
The elaborate and stately Essays of the Edinburgh Quarterly, and other Reviews; and Blackwood's criticisms on Poetry, his keen and pungent Commentaries, highly wrought Tales, and vivid descriptions of rural and mountain Scenery; and the contributions to Literature, History and common life, by the sagacious Spectator, the sparkling Examiner, the judicious Athenaeum, the busy and industrious Literary Gazette, the sensible and comprehensive Christian Observer; these shall be intermixed with the Military and Naval reminiscences of the United Service, and with the best articles of the Dublin University, New Monthly, Fraser's, Tatler's, Ainsworth's, Hood's, and Sporting Magazines, and of Chamber's' admiral Journal. We shall not consider it beneath our dignity to borrow wit and wisdom from Punch; and, when we think it good enough, shall use the thunder of The Times. We shall increase our variety by importations from the continent of Europe, and from the new growth of the British Colonies.
Geographical discoveries, the progress of Colonization, (which is extending over the whole world,) and Voyages and Travels, will be favorite matter for our selections; and in general, we shall systematically and very fully acquaint our readers with the great department of Foreign affairs.
While we aspire to make the Living Age desirable to all who wish to keep themselves informed of the rapid progress of the movement—in Statesmen, Divines, Lawyers and Physicians—to men of business, and to men of leisure—it is a still stronger object of our ambition to make it attractive and useful to their Wives and Children. We believe that we can thus do some good in our day and generation; and hope to make the work indispensable in every well-informed family. We say indispensable, because in this day of cheap literature it is not possible to guard against the influx of what is bad in taste and vicious in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental and moral appetite must be gratified.
We hope, that by "winnowing the wheat from the chaff," by providing abundantly for the imagination, and by a large collection of Biography, Voyages and Travels, History, and more solid matter, we may produce a work which will be popular, while at the same time it will aspire to raise the standard of public taste.
The Living Age will be a large pamphlet, handsomely printed, and stitched in a cover, containing as much matter as an ordinary duodecimo volume, and upon good type and paper.
Each number sold separately, and with the usual discount to wholesale dealers. Persons at a distance will be supplied by mail, on their remitting to us any sum of money that may be convenient.
There will be three volumes, making three large volumes, in the remaining part of 1844. Price of each volume of twelve numbers will be \$1 50. Postmaster, or other persons who may lend us their aid in getting up a subscription list, will be entitled to four copies of any volume, on remitting to us five dollars. The copies to be addressed as they may order.
E. LUTELL & CO., 118 1/2 Washington St. & Co., Boston.

SHUGERT'S PATENT WASHING MACHINE.
THIS Machine has now been tested by more than thirty families in this neighborhood, and has given entire satisfaction. It is so simple in its construction, that it cannot get out of order. It contains no iron to rust, and no springs or rollers to get out of repair. It will do twice as much washing, with less than half the wear and tear of any of the late inventions, and what is of greater importance, it costs but little over half as much as other washing machines.
The subscriber has the exclusive right for Northumberland, Union, Leominster, Columbia, Lancaster and Clinton counties. Price of single machine \$8.

The following certificate is from a few of those who have these machines in use.
We, the subscribers, certify that we have now in use, in our families, Shugert's Patent Washing Machine, and do not hesitate saying that it is a most excellent invention. That, in washing, it will save more than one half the usual labor.—That it does not require more than one third the usual quantity of soap and water; and that there is no rubbing, and consequently little or no wearing or tearing.—That it knocks off no buttons, and that the finest clothes, such as collars, laces, tucks, frills, &c., may be washed in a very short time without the least injury, and in fact without any apparent wear and tear, whatever. We therefore cheerfully recommend it to our friends, and to the public, as a most useful and labor-saving machine.

HERN'S HOTEL, (formerly Tremont House, No. 116 Chestnut street,) Philadelphia, September 21st, 1844.
I have used Shugert's Patent Washing Machine in my house upwards of eight months, and do not hesitate to say that I deem it one of the most useful and valuable labor-saving machines ever invented. I formerly kept two women continually occupied in washing, who now do as much in two days as they then did in one week. There is no wear or tear in washing, and it requires not more than one-third the usual quantity of soap. There is had a number of other instances in my family, but this is so decidedly superior to every thing else, and so little liable to get out of repair, that I would not do it without one if they should all come into the price they are sold for.
