Original Anecdote of Gen. Jackson.

In the winter of 1832, President Jackson, conferred the mission to Russia upon a justly distinguished son of Pennsylvania. Before the newly appointed minister, however, had departed on his mission, he deemed it due to the President to ask his counsel in reference to the selection of a secretary of legation. The President declined all interference, and remarked to the minister that the United States Government would hold him responsible for the manner in which he discharged his duties, and that he would consequently be at liberty to choose his own secretary. The minister returned his respectful acknowledgements; but, before taking a final leave, sought his especial advice in regard to a young gentleman then in the service of the State Department, and who was highly recommended by the then Secretary. Gen. Jackson promptly said :- "I advise you, sir, not to take that man ; he is not a good judge of preaching. The minister seemed puzzled, and observed that the objection needed explanation. "I am able to give it," said the old hero; and he thus continued; "On last Sabbath morning, I attended divince service in the Methodist Episcopal church in this city. There I listened to a soul-inspiring sermon by Professor Durbin, of Carlisle, one of the ablest pulpit orators in America. Seated in a pew near me, I observed this identical young man, apparently an attentive listener. On the day following, he came into this chamber, on public business, when I had the curiosity to ask his opinion of the sermon and the preacher. And what think you, sir ! The young upstart, with consummate assurance, pronounced that sermon all froth, and Professor Durbin a humbug. I took the liberty of telling him : "My young man you are a humbug yourself, and don't know it. 'And now," continued the venerable old man, his eye lighted up with intense animation, "rest assured, my dear sir, that a man who is not a better judge of preaching than that is wholly unfit to be your companion. And besides," he added, "if he were the prodigy the Secretary of State represents him to be, he would be less anxious to confer his services upon you-he would rather be anxious to retain them himself." The President's advice was, of course, followed by the ambassador; and the young man's subsequent career of vice and folly proved that the General's estimate of his character, albeit founded upon a common incident, was substantially correct. Revolutionary Anecdotes.

GENEROSITY OF JOHN HANCOCK .- During

the siege at Boston, Gen. Washington consulted Congress upon the propriety of bombarding the town of Boston. Mr. Hancock was then President of Congress. After General Washington's letter was read, a solemn silence ensued. -This was broken by a member making a motion that the House should resolve itself into a committee of the whole, in order that Mr. Hancock might give his opinion upon the important subject as he was deeply interested from having all his estate in Boston. After he left the chair he addressed the chairman of the committee of Bank of Washington the whole, in the following words: "It is true, sir, nearly all the property I have in the world Farmers' & Mech'cs' Bank is in houses and other real estate in the town of Boston; but if the expulsion of the British army from it, and the liberties of our country re- Huntingdon Bank quire their being burnt to ashes-issue the order for that purpose immediately."

TAKING THE CENSUS - Some rich scenes occur in taking the Census under the late law of the State of New York for that purpose. The following from an eye witness, is one:

'Is the head of the family at home !' asks the inquiring Marshal.

'Here's the devil with his book again for the d'rectry,' shouts a junior of the family to the maternal head above stairs who presently appears. 'Is it the heads of the family ye want sure; but last week ye wanted our name for yer d'rectory, an' now ye want our heads? A free country this, sure, when one's head is not sate. Be off, and bad luck to ye and all like ye.' After some explanations the questions in order are asked.

Who is the head of the family?-'Ann Phelim yer honor, the same in old Ireland and foriver." How many males in this family !- Three males a day with prateys for dinner an' ---

But how many men and boys !- Och, why there's the ould man an' the biy, and three childer, who died five years ago, heavin rest their dear souls, the sweetest jiwils that iver'---

But how many are now living!- 'Meself, and me daughter Judy, ye see them, and a jewel of a girl she is indeed."

But have you no males in your family !'-Sorra the one, the ould man works hard by the day and Patric is not at home at all, but to his Paterson Bank\* males and his bed.'

How many are subjects to military duty !-'Niver a one ; Patrick and the ould man belong | State Bank . to the Immits, and sure finer looking soldiers State Bank. were niver born; did ye not see thim when the old Gineral was buried, 'twould have made yer heart best to see two such fine looking' gintale | Salem and Philad Manuf Co well behaved boys.'

How many are entitled to vote !-- Why the old man and meself and Judy, and warn't it we that bate the Natives an' the Whigs an' all, an' elicted ould Gineral Jackson over 'im all. Sorra the day when he died and dissappointed us all, for a fine man he was."

How many colored persons in your family ! 'Nugers, did you name nagers ! Out man, an, don't be insultin' me. Out wid ye, an' niver ask for me senses agin'-don't ask about me senses, - whither I have nagers in me family. Yer out of yer senses yerse!f-begone and don't ther counterfeit or aftered notes of the various debother me.

WISTAR'S BALSASS OF WILD CHERRY,

Compound Balannie Preparation from Wild Cherry bark and Tar, The last remedy known to the world for the cure of tungs, whooping cough, bremchitis, in fuenza, shortness of breath, pain and wenkness in the breast or side,

liver complaint, and the first stages of CONSUMPTION.

We will not ascert that this BALSAM will cure Consumption in ist worst form, but it has exceed many after all other means of relief had been tried in vain,-And why not ? It seems that the WILD CHERRY was destined by Nature to be our PA-NACEA for the ravaging diseases of this cold latitude. Let not the despairing invalid waste his m-ney and loose TIME, to him so all important. in experimenting with the trashy nostrums of the day, but use at once a medicine that will cure, if a cure be p s-ible-a medicine that science approve and many years of experience have demonstrated

that it always relieves.

There is no such thing as fail." in the history of this wonderful BALSAM. Evidence the mos convincing—evedence that no one can doubt, fully establi hes this fact. For the sake of brevity we select the fellowing from thousands.

Isaac Plat, Esq., Editor of the Pokeepsie Engle. one of the m st influential journals in the state of New York, states under the authority of his own name, that a young lady, a relative of his, of very delicate constitution, was attacked in Feb. 1842 with severe cold, which immediately produced spir ting of blood, cough, fever, and other dangerous and alarming symptoms. Through medical treatmen and care she partially rec verid during summer. But on the return of winter she was attacked more violently than at first, she become scarcely able to walk and was troubled with cough, chills and fever every day, and appeared to be going rapulty with consumption; at this time, when there was no sign of improvement, Mr. Platt precered a bottle of Wistan's Balsan or Wild Chegur, which she took, and it seemingly restored her. She got a second, and before it was half taken she was restored to perfect health, which she has enjoyed to the present time, without the slightert symptom of her for-

mer dise se, Mr. P att says "the cure come under my own observation and I cannot be mistaken as to the facts."

EXTRACT OF A LETTER FROM A POST MASTER, DATED

PEMBURE, Washington co., Maine, Apr. 29, 1844 MR, ISAAC BUTTS .- Dear Sir: At the re prest of many of my friends in this place and vicinity who are afflicted with consumption and liver complaints, I take the liberty of asking you to appoint some one in this county as agent to sell Wis-TAR's BALSAM OF WILD CHERRY, and to send him few dozen, as there is none of it for sale within 200 miles from this I have no doubt that it would meet with a ready sale if it were where it could be procured without too much expense and delay.

My wife was attacked about six m oths since with what the physicians called the first stage of consumption-a complaint very prevalent in this section of country. Having seen the Balsum ad-

vert sed in Augusta DF 200 MILES FROM HERE, AT I took the pains to send there for a bottle of it which she took, and which helped her so much that I sent for two bottles more, which she has also taken, and he now says she has not felt so well for six years as she does at this time. All those who have inquired of me and ascertained what effect the Balsam had, are anxious to have some for sale in this vicinity, which is the cause of my writing you. Please inform me by setuen of mil whether yo conclude to send some, and it so to whom, in order

hat it may be known where it can be Lad. I am with respect yours, etc. P. G. FARNSWORTH, P. M. The whole country is fast learning that no medicine-no physician-no preparation of any kind whatever-can equal Da, Wistan's Balsan or WILD CHERRY.

A TRULY WONDERFUL CURE.

WATERVILLE, Oncada co., N. Y. Sept. 15, 1843. Dear Sir-I owe it to the afflicted to inform v t that in January last I was attacked by a very violent cold, caused by working in the water, which settled on my lungs. It was accompanied by a ve no sale ry severe pain in my breast and sides, and also a distressing cough. I had in attendance all the less medical aid in our voltage; but after exhausting all their skill to no avail, they pronounce I my di ease a cosringen coverapries, and they one and all gare me up to die. After much persussion I got the consent of my physician to use the Balson of WILD CREEKE proposed by DR WISTAR, I purchased of the Agent in our place one buttle, before no sale using half of which I began to guin strength, and it was very evident my cough was much better and my symptoms in every way impriving. I have now used three bottles, and am restored to perfect health. This result is alone owing to the use of DR WISTAR'S BALSAM OF WILD CHER-RY; and I take this method of g ving you the in formation, partly to pay you the debt of gratitude I owe you, and partly that others similarly afflicted may know where to apply for relief.

Very truly yours. JAMES SAGE.
MR. PALNER. Druggist, under date of Waterville,

Sept. 24th, 1843, writes; The statement given you by Mr. James Sage is well known to be true by this whole community It certainly was a most remarka le cure. The sale of the Balsam is very good, and its success in cures truly flattering. Yours respectively.

T E MOST REMARKABLE CURE EVER RECORDED.

HADDONYIELD, N. J. April 20, 1843. about the 13th day of October, 1841. I was taken with a violent poin in the side near the liver, which continued for about five days, and was followed by the breaking of an u'cor, or at seess, inwardly, which relieved the pain a little, but can-ed me to throw up a great quantity of offensive matter and also much blood. Being greatly alarmed at this. I applied to a physician, but he said he thought he could do but little for me except give me some Mercury Pells, which I refused to take, feeling atisfied that they could do me no good; many other rem dies were then procured by my wife and friends, but none did me any good-and the discharge of blood and corruption still continued every few days, and at last become so officesive that I could scarcely breathe. I was also seized with a violent cough, which at times caused me to raise much more blood than I had done before-and my disease continued in this way, still growing worse, until Pebruary, when all hope of my recovery was given up, and my friends all thought I would die of a GALLOPING CONSUMPTION. At this moment, when my life was apparently drawing near its clos-I heard of DR. prescription congenial to our scants, as it is prepared from chemical extracts from sub-tances which the author of nature has placed in our own land for wise purposes, that many who know nothing of the mode of its preparation are endeavoring to reap pecuniary benefits by selling an article similar in name, or in appearance, or by representing their own trash as superior to this BALSAM, or by putting up a mixture and a lemnly asseverating that it is imported from a foreign country, which is not the All these deceptive arts go to show that WISTAR'S BALSAN is known to the world to be "THE GREAT REMEDY." and that to sell any mixture it must be like this in name, or pur-

OAKLEY'S

DEPURATIVE SYRUP. VIIIE valuable properties of Oakley's Deputa-L tive Syrup of Sarsaparilla, as a purifier of the blood, is so well known to the public generally, that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has once been introduced, it takes precedence over all others; every one that has taken it, have derived so signal beneficial results from it, that it is recommended by them with the u most confidence. Physicians of the highest standing in the profession, prescribe it to patients under their care; containing nothing deliterious, but being composed of the most mild yet efficacious vegetable materials, it is offered with confidence, as the cheapest and most efficient purifier of the blood now known. The use of a few bottles, especially in the spring mouths, will be attended with a most decided improvement in the goneral strength of the system, eradicating any seed of disease that may have been generated, giving health and vigor to the body .- For the cure of Scrofula or Kings Evil, Rheumatism, Tetter, Pimples or eruptions of the Skin, White Swelling, Fistula, Chronic Cough Asthma, &c. The numerous certificates in the possession of the subscriber and his agents, from physicians and others, are sufficient to convince the most skeptical of its superiority over all preparations of Sarsaparilla. ROSE OINTMENT FOR TETTER.

CUTANEOUS ERUPTIONS. The following certificate describes one of the most extraordinary cures ever effected by any

application. PHILADELPHIA, February 10, 1838. FOR twenty years I was severely afflicted with commenced when I was seventeen years old, and continued until the Fall of 1836, varying in violence, but without ever disappearing. During most of the time, great part of my face was covered with the eruption, frequently attended with violent itching; my head swelled at times until it felt as if it would burst-the swelling was so great, that I could scarcely get my hat on. During the long period that I was afflicted with the disease, I used a great many as plications. (among them as veral celebrated preparations) as well as taking inward remedies, cluding a number of bottles of Swdim's Panacen, Extract of Sarsaparilla, &c. In fact, it would be impossible to course all the medicines I used. was also under the care of two of the most dis tinguished physicians of this city, but without receiving much benefit, and I despaired of ever being cured. In the fall of 1836, the disease at the time being very violent, I commenced using the Rose Ointment, (prepared by Vaughan & Davis.) In a few applications the violent itching ceased, the swelling abated, the cruption began to disappear, and before I had used a jar the disease was entirely cured. It has now been nearly a year and a half since, and there is not a vestige of the desease remaining, except the scars from the deep pits formed by the disease. It is impossible for me to describe in a certificate the severity of the disease and my suffering, but I will be pleased to give a fuller acconnt to any person wanting further satisfaction, who will call on me. At the time I commenced using the Rose Ointment I would have given hundreds of dollars to be rid of the disease. Since using it. I have recommended it to several persons, famong them my mother, who had the disease badly on her arm, who were all cured by it.

I applied to comber of physics one, and used a great many applica ions without effecting a core. About a year succe. I applied the Rose Ointment, which entirely stopped the itch ng, and a few applications ignirediately cured the disease, which there has been no return of, sithough I had never been rid of it at any time for forty years. Eleventh, below Spruce Street. C 7 The Rose Ointment is prepared by E. B. Vanahan, South East corner of Third and Race Streets, Philadelphia, and sold on agency in Sunbu-H. B. MASSER. May 14th, 1843. Agent.

MEDICAL APPROBATION

the ROSE OINTMENT, for Tetter. A LTHOUGH the superiority of the preparation over all others is fully es ablished, the proprieors take pleasure in laying before the public the ollowing certificate from a respectable physician, graduate of the University of Pennsylvania. Dr. Baugh, having found in this emody that relief for a tedious and disagreeable affection which the means within the range of his profession failed to afford, has not he wated to give it his approbation, although the prejudices and interests of that profession are proceed to secret Remedies.

PRILADELERIA, Sept. 19, 1836. I was recently troubled with a tedious herpetic cruption, which covered nearly one side of my face, and extended over the ear. Mr. Vaughan, propriefor of the Rose Unitment, observing my face, motor ted on my trying his preparation, of which he handed me a jar. Although in common with the mem-bers of my profession, I discountenance and disapprove of the numerous nostrums palmed upon the public by ignorant protembers, I feel in justice bound to except the Rose Continent from that class of medeemes, and to give it my approbation, as it entirely cured the eruption, although it had resisted the usual applications. DANL BAUGH, M. D. G.) The Rose Continent is prepared by E. B.
