Russell tells a rich story about this song, that may be new to some of our readers. It appears that the first time he thad the honor of singing it to the American people," was at Niblo's, in New York soon after his return from Europe. -He had announced that he would bring out some of his new pieces, and the house was crowded from the foot-lights to gallery with the fashionables of the city. The great favorite of the "Napoleon of song," was this Newfoundland Dog.-He performed it in his best voice, and the nutience was in raptures. But, to his no small confusion, as he was bowing himself off the stage, he heard a shrill sharp Yankee voice, directly opposite the stage, sing out,

"Mister Russell." Russell stopped, and the audience was hushed in a moment.

"Mister Russell," says the Yankee, "how do you due ?"

"Very well," says Russell, scarcely knowing what he said.

"Mr. Russell," continues the Yankee, pointing to a raw bone seven footer, "this is my friend, John Peters, from Connecticut-'pisps you don't know John ! hay?"

"Indeed, I do not sir," says Russell,

"Wal, he's got the biggest kind of relations. He wants me to ax you, Mr. Russell, whethor that are dog was a black 'un or a whity 'un. "Indeed, I ennet tell,"

"You cant't wal, I'm sorry. John says, if 'twas a black 'un, he would't mind taking a pup

To any one who has listened to the touching pathos of the song, and can picture to himself the place and the audience-who remembers Russells Frenchified manner, and knows the peculiar twang of a genuine Yankee's voice, the incident will be fully appreciated. The uproar that followed you should hear Russel describe. As for himself, he says, he shot behind the curtain and was not able to sing for half an

A "Yankee Trick."

Some cute sprout of "the States," has lately came it over the "Blue noses," of the good city of Halifax, in a most amusing style. The following is the Halifax Goardian's account of the rascal's mysterious disappearance :

SWINDLING EXTRAORDINARY AT HALIFAX. -On Wednesday last, the eleverest and most suc. Junista Bank cessful piece of swindling that has lately been tried, upon Yorkshiremen at least, was carried on and completed by a man whose name, protersion, and place of residence are equally unknown. The fellow came into the town some days before as the proposed manager for a small company of American vocalists and comedians, and engaged the Odd Fellows' Hall, directed the erection of a temporary stage in it, and circulated flaming bills announcing the performance, "positively for night only," of "Miss Emma Grant, of the Bowery Theatre; Miss Charlatte Vithers, of the principal American concerts; Mr. T. D. Rice, the celebrated American comedian, (his last appearance in Halifax;) Mr. Henry Ford and Mr. Chas. Russell, the great American mimic and caricuturist." The charges were 2s., 1s. and 6d., and the bill certainly was one of great promise, for it enumerated twenty nine songs, besides three entertainments, a number of nigger dances, Virginia polkus, and a nigger lecture on phrenology ! No wonder, when so much was offered for so hittle money, that there was no lack of audience. The "managing" unknown showed himself quite au fait at taking the siller; but eight o'clock came, and then a quarter past eight, but no "American company" presented itself. The audience began to grow impatient; and, finding that there were no more sixpences to be got, the fellow set off as he said, to fetch the company ; but we need hardly add that he went direct to the railway station, performing in his own person the only song sung that night, "Oh, said the stranger, off, off, and away." The feelings of the audience, on finding that they were cheated, may (to use a common phrase) "be more easily imagined than described," The fellow, it must be admitted, was a wag; the titles of his songs being such as "The absent man," "I calculate there'll be a row," "Dinah, dear, him go away," "Right slick, away I went," &c. The first song to be sung was "I calculate there'll be a row;" and we calculate there was one, and no mistake.

Morriss .- The Prairie farmer has the follawing receipt for making muffins: "Take three pints of flour, one pint of water luke warm, one teacup full of baker's yeast, one great spoon fall of sugar, and one teaspoon full of salt; make them up in the morning for tea, or at night for breakfast, and bake them in muffin ther counterfeit or altered notes of the various derings. They are so good."

CONSUMPTION. We will not assert that this BALSAM will cure Consumption in ist worst form, but it has cured many after all other means of relief had been tried in vain .- And why not? It seems that the WILD CHERRY was destined by Nature to be our PA-NACEA for the vavaging diseases of this e ld lastitude. Let not the despairing invalid waste his

money and bose TIME, to him so all important, in experimenting with the trashy nostroms of the day, but use at once a medicine that will cure, if a cure be possible - a medicine that science approves and many years of experience have demonstrated par that it always relieves.

There is no such thing as full" in the history of this wonderful BALSAM. Evidence the most convincing-evelence that no one can doubt, fully par establi hes this fact. For the sake of brevity we

Isaac Plant, Esq., Editor of the Poke-psic Eagle, These one of the most influential journals in the state of New York, states under the authority of his own name, that a young lady, a relative of his, of very delicate constitution, was attacked in Feb 1812. with severe cold, which immediately produced spit ting of blood, cough, fever, and other dangerous and alarming symptoms. Through medical treatment and care she partially rec verid during summer. But on the return of winter she was attacked more violently than at first, she become scarcely able to walk and was troubled with cough, chills and fever every day, and appeared to be going rapully with onsumption; at this time, when there was no sign. of improvement, Mr. Platt procured a bottle of Wiscan's Bars wor With Chenny, which she took, and it seemingly restored her. She got a second, and before it was half taken she was restored to perfect health, which she has enjoyed to the present time, without the slightert symptom of her for-

EXTRACT OF A LETTER FROM A POST MASTER, DATED PEMBROKE, Washington co., Maine, Apr. 29, 1844. MR. ISAAC BUTTS .- Dear Sir: At the request of many of my friends in this place and vietcomplaints, I take the liberty of asking you to apjoint some one in this county as agent to sell Wis-TAR'S BALSAN OF WILD CHERRY, and to send him a few dezen, as there is none of it for sale within 200 miles from this. I have no doubt that it would ment with a ready sale if it were where it could be

procured without too much expense and delay. My wife was attacked about six m oths since with what the physicians called the first stage of e n-tumption-a complaint very prevalent in this section of country. Having seen the Balsam advert sed in Augusta.

200 MILES FROM HERE, I took the pages to send there for a bottle of it, which she took, and which helped her so much that I sent for two bettles more, which she has also taken, and the now says she has not felt so well for six years as she does at this time. All those who have inquired of me and ascertained what effect the Balsam had, are anxious to have some for sale in that vicinity, which is the cause of my writing you. Please inform me by setuen of meil whether you conclude to send some, and if so to whom, in order but it may be known where it can be lad,

I am with respect yours, et-P. G. FARNSWORTH, P. M. The whole country is fast learning that no mediine-no physician-no preparation of any kind wholever-con equal DR, Wistan's Bassan or WILD CHERRY.

A TRULY WOSDERFUL CURE.

WATERVILLY, Oneids co., N. V. Sept. 15, 1813. Dear Sir-I owe it to the afflicted to inform v u hat in January last I was attacked by a very violent cold, caused by working in the water, which settled on my lungs. It was accompanied by a very severe pain in my breast and sides, and also a distressing cough. I had in attendance all the best medical aid in our village; but after exhausting all their skill to no avail, they pronounced my disease a configure consumerton, and they one and all gare me up to die. After much persuasion I got he consent of my physician to use the Barson or WILD CHIRRY prepared by Du. Wistan, I porchased of the Agent in our place one buttle, before using half of which I began to gain strength, and a was very evident my cough was much better and my symptoms in every way improving. I have now used three bottles, and am restored to perfect health. This result is alone owing to the use of DR. WISTAR'S BALSAM OF WILD CHER-RY; and I take this method of giving you the information, partly to pay you the debt of gratifule I owe you, and partly that others similarly afflicted

may know where to apply for relief. Very truly yours, JAMES SAGE.
Mu. Palmen. Druggest, under date of Waterville, Sept. 24th, 1843, writes;

The statement given you by Mr. James Sage is well known to be true by this whole community It certainly was a most remarks becore. The sale of the Balsam is very good, and its success in cures tru y flattering. Yours respectfully. D. D. PALMER.

T E MOST REMARKABLE

CURE EVER RECORDED. HADDONFILLD, N. J. April 20, 1813. On or about the 13th day of October, 1841, I was larly affected, to make it public. taken with a violent poin in the side near the liver, which continued for about five days, and was followed by the breaking of an u cer, or absects, in wardly, which relieved the pain a little, but caused me to throw up a great quantity of offensive matter and also much blood. Being greatly alarmed at this, I applied to a physician, but he said be thought he could do but it the for me except give me some Mercury Pills, which I refused to take, feeling satisfied that they could do me no good; many other rem dies were then procured by my wife and friends, but none did me any good-and the discharge of blood and corruption still continued every tow days, and at last become so offer sive that I could scarcely breathe. I was also seized with a visolent cough, which at times caused me to raise much more blood than I had done before-and my disease continued in this way, still growing worse, until February, when all hope of my recovery was given up, and my friends all thought I would die of a GALLOPING CONSUMPTION. At this moment, when my life was apparently drawing near its close I heard of DR. WISTAR'S BALSAM OF WILD CHELRY, and got a bottle which ax-LIEVED ME IMMEDIATELY; and by the use of only three bottles of this medicine, all my pains were removed-my cough and spitting of blood and corruption entirely stopped, and in a few weeks my health was so far restored as to enable me to work at my trade, (which is a carpenter,) and up to this time I have enjoyed good health.

OAKLEY'S DEPURATIVE SYRUP.

THE valuable properties of Oakley's Deputa-tive Syrup of Sursuparilla, as a purifier of the blood, is so well known to the public generally. that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has once been introduced, it takes precedence over all others; every one that has taken it, have derived so signal beneficial results from it, that it is recommended by them with the namest confidence. Physicians of the highest standing in the profession, prescribe it to patients under their care; containing nothing deleterious, but being composed of the most mild, yet efficacious vegetable materials, it is offered with confidence, as the cheapest and most efficient purifler of the blood now known. The use of a few bottles, especially in the spring months, will be at tended with a most decided improvement in the general strength of the system, eradicating any seedof disease that may have been generated, besides giving health and vigor to the body .- For the cure of Scrafula or Kings Evil, Rheumatism. Tetter, Pimples or eruptions of the Skin, White Swelling, Fistula, Chronic Cough Asthma, &c., The mumerous certificates in the possession of the subscriber and his agents, from physicians and others, are sufficient to convince the most skeptical of its superiority over all preparations of Sarsaparilla.

ROSE OINTMENT FOR TETTER.

RINGWORMS, PIMPLES ON THE FACE, AND OTHER

OUTANEOUS ERUPTIONS.

The following certificate describes one of the most extraordinary cures ever effected by any application.

PHILADELPHIA, February 10, 1838. FOR twenty years I was severely afflicted with TETTER on the Face and Head: the disease commenced when I was eventeen years old, and continued until the Pall of 1836, varying in violence, but without ever disappearing. During most of the time, great part of my face was covered with the eruption, frequently attended with violent itching; my head swelled at times until it felt as if it would burst-the swelling was so great, that I could scarcely get my hat on. During the long period that I was afflicted with the disease, I used a great many at plications, (among them several celebrated preparation-) as well as taking inward remedies, including a number of bottles of Swaim's Panacea, Extract of Saranparilla, &c. In fact, it would be impossible to coumerate all the medicines I used. I was also under the care of two of the most distinguished physicians of this city, but without rereiving much benefit, and I despaired of ever being cored. In the fall of 1836, the discase at the time being very violent, I commenced using the Rose Ointment, (prepared by Vaughan & Davis.) In a few applications the violent itching ceased, the swelling abated, the cruction began to disappear, and before I had used a jar the disease was entirely cured. It has now been usurly a year and a half since, and there is not a vestige of the disease remaining, except the sears from the deep pits formed by the disease. It is impossible for me to describe in a certificate the severity of the disease and my uffering, but I will be pleased to give a fuller account to any person wanting turther satisfaction, who will call on me. At the time I commenced using the Rose Ointment I would have given hundieds of dollars to be rid of the disease. Since using it. I have recommended it to several persons. among them my mother, who had the disease badon her arm,) who were all cured by it.
