Statistics of Coal Regions.

The last number of the Pottaville Journal is filled with coal statistics and the census of the towns in the coal regions, from which we gather the following facts :

The town of Pottsville had at the beginning o the present year, a total population of 5,224, an increase of 887 in five years. The rate of increase has not been so great in Pottsville as it has been in some of the neighboring mining towns, but it has assumed more the character of a business place. The number of licensed hotels has decreased to 13 since 1835, when, with a population of 3117, the number of such houses was 20. The number of stores, dwellings, offices and shops in Pottsville is 1060. There are in the borough 13 churches, of which seven are English, three Welsh, and three German. There are also a Friends' meeting-house, and an African church. There are nine public schools in the borough. The number of pupils taught in these schools averages about 708. There is also a public school for colored children, the number of pupils ranging from 35 to 45. The following is a recapitu-

lation of the bo	pulation :

Correspondence of the Phila, Ledger.

WASHINGTON, Jan. 14, 1845. Mr. Westcott of Florids, announced to the Senate to-day, that the name of his collegue, the Hon. David Levy, had been hanged by an act of the Legislature of that state, to David Levy family, dropped by his father, and now resumed by him. On motion of Mr. Westcott, it was,

Ordered, that the Secretary of the Senate in future use the surname Yules in the journals, as the name of the Senator from Florida, heretofore called David Levy-his name having been changed by act of the Legislature of Florida, to that of David Levy Yulce.

Mr. Allen, agreeably to provious notice, asked the Senate to fix a day for the introduction of the resolut one for terminating the joint occupancy of Oregon. He moved that the resolutions be made the special order of the day for Wednesday, the 27th instant.

Mr. Haywood suggested Saturday, the 3d of February.

Mr. Allen said there would naturally exist a diversity of desire as to the time when this question should come up for discussion. He was sware of the reasons which induced the gentleman from N. Carolina to desire a postponement. But in the arrangement of business, the wishes of all could not be consulted. He was compelled by a sense of duty to oppose a further postponement, and not from any wish to cross the wishes of the gentleman from N. Carolina.

Mr. Haywood did not wishe to have it supposed that he was influenced by any personal feeling in desiring the postponement, though he would necessarily be absent on the day named by the Chairman of the Committee on Foreign Relations. He thought that time for reflection should be afforded to Senators before they are called upon to vote on this question, and that 'our weeks would not be too long-three weeks, before the talking commences. A public discussion at an earlier day, would be more likely to excite the public mind than to enlighten

Mr. Westcott was in favor of the postponement for other considerations. It is probable that there will be an accession of Senators from a new State, (Texas,) and if the question of war or peace is to be involved in the discussion, it is one in which they have a right to be heard. The citizens of that State were perhaps more deeply interested than those of my other in the decision of this question, and he could see no good reasons why it should be pressed. His own vote, even, might be very different now from what it would be if the discussion was delayed. He was for even a longer delay than had been suggested by the gentleman from N. Carolina, and moved the 10th of Feb.

Mr. Mangum called for the year and mays, and they were ordered.

Mr. Calhoun said, though he was prepared to set at once he should vote for the longest period; but it was simply because the delay was desired by other Senators.

RANDOLPH'S SLAVES .- We I carn from the Colonization Journal, that Judge Leigh, the executor of John Randolph, has purchased a large tract of land in Mercer county, Ohio, on which to locate the slaves, some 300, manumitted by that remarkable man.

Ma. Goven .- It is said that Mr. Gough will shortly change his vocation as temperance lecturer to that of the Congregational ministry. He intends to spend the remainder of the winter in the South.

To extinguish fire in chimners .- Put a wet blanket under the whole front of the fire place, which soon stops the current of air, and extinguishes the flame.

The fact is well known, that BRANDRETE's PILLS are a certain cure in every form of disease, all having the same root, which is impurity of the

circulating fluid, the stoon. In a period of little more than ten years in the United States, they have restored to perfect health and enjoyment over Four Hundred Thousand persons who were given over as incurable by Physicians of the first rank and standling, and in many cases, when every other remedy had been resorted to in vain.

The great secret is to have the medecine by you when you are first attacked with sickness; one dose then will have more good effect than twenty, if you put it off until disease has enfeehled the bosdily powers; therefore every individual who considers health a blessing, should always keep a box of Brandreth's Vegetable Universal Pills, where they can be sure to lay their hands on them when wanted. Twenty-five cents carnot possibly be better disposed of. A valuable life may be saved, or long fit of sickness prevented.
