Death of Dr. Bradce, the Mail Robber, We learn from the Commercial Journal, of Pittsburg, that on Friday hight, this sotorious, in many respects, remarkable man, died in his cell, in the Western Penitentiary. He was convicted of robbing the mail, and imprisoned. it will be remembered, in 1841, pursuant to sen tence, by Judge Baldwin, for ten years. The Manuel recently head brayes internet

"Shortly after his incarceration, he conceived the idea of procuring his liberation by simula-Img a decline of health. For this purpose he would prick his guins with the awls, which were supplied to him in the vocation he bad chosen, that of shoemaker, and having saturated his towel with blood, was always prepared for the stated visit of physician or chaplain, with this evidence of a dangerous hemorrhage from the lungs, to which he was always careful to add a difficult and painful respiration. His physician was able, sometimes, to engage the suffering doctor in conversations, in which he would become sufficiently animated to forget his painful breathing, but, on the instant that he would recollect hinself, the difficulty would return .-These practices, it is believed, brought on the disease which terminated his life, and he died at last of a pulmonary affection.

Until two weeks before his death his disease had not assumed a formidable type, but then he bigan to sink rapidly. Up to this period he had steadily and vehemently asserted his innocence of the crimes imputed to him, but so soon as he became convinced that his recovery was imwesible, he confessed his guilt, and, although we are restrained by prudential considerations, from ferther allusion to this point, we may venture to add, that in his confession he has implicated several persons who had not been suspected of participating in his crimes.

It is known that Braddee's wife, who clung to hun during his trial, and suggested by her presonce and signs of affliction, that beautiful apostrophe to love in anguish, with which Mr. Biddie, in Braddee's defence, electrified the crowded auditory, had been unfaithful to her vows, and married another during Braddee's imprisonment. He was not made acquainted with the fact, and, for the five years he was in confinement, he was fond of an opportunity of talking about his 'wife and children." He spoke of them in terms of warm affection, and undoubtedly his desire to recover his liberty was stimulated by attachment to them ; even after he became aware that he must soon die, he desired to be at liberty, even if it were to die in a barn, to the end, that he might not die a prisoner. But so soon as he learned the conduct of his wife, he instantly ceased to wish for freedom. It was the final blow to the poor convict ; the unexpected thrust, like that which extorted the memorable et tu Brute, commanding surrender; and, poor fellow, he gave up at once. He never after mentioned wife or child, or desired to move beyond the limits of his cell. The name of his wife was avoided with an iron will, although for the previous years of his confinement, it had been a pleasant and hopeful theme.

WISTAR'S BALSAM OF WILD CHERRY, Wild Cherry Bark and Tar,

Wild Cheery Bark and Tar, The best remedy known to the world for the sure of coughs, colds. asthma, croup, bleeding of the lungs, whooping cough, bronchitis, influ-enza, shortness of breath, pain and weakness in the breast or side, liver complaint, and the

first stages of

CONSUMPTION.

We will not assert that this BALSAM will cure Consumption in ist worst form, but it has cured many after all other means of relief had been tried in vain .- And why not ? It seems that the WILD CHERRY was destined by Nature to be our PA. NACEA for the ravaging diseases of this cold la-titude. Let not the despairing invalid waste his money and loose TIME, to him so all important. in experimenting with the trashy nostrums of the day, but use at once a medicine that will cure, if a cure be possible-a medicine that science approves. and many years of experience have demonstrated

that it always relieves. "There is no such thing as fail." in the history of this wonderful BALSAM. Evidence the most convincing-evelence that no one can doubt, fully establishes this fact. For the sake of brevity we elect the following from thousands.

Isnac Platt, Esq., Editor of the Pokeepsie Eagle one of the most influential journals in the state of New York, states under the authority of his own name, that a young lady, a relative of his, of very delicate constitution, was attacked in Feb. 1842 with severe cold, which immediately produced spit ting of blood, cough, fever, and other dangerous and alarming symptoms. Through medical treatmen and care she partially recovered during summe But on the return of winter she was attacked more violently than at first, she became scarcely able to walk and was troubled with cough, chills and fever every day, and appeared to be going rapidly with consumption ; at this time, when there was no sign of improvement, Mr. Platt procured a bottle of WISTAR'S BALSAN OF WILD CRERRY, which she took, and it seemingly restored her. She got a secoud, and before it was half taken she was restored to perfect health, which she has enjoyed to the present time, without the slightert symptom of her former disease.

Mr. Platt save "the cure came under my own ob servation and I cannot be mistaken as to the facts."

EXTRACT OF A LETTER FROM A POST MASTER, DATED

PEMBROKE, Washington co., Maine, Apr. 29, 1844. MR. ISAAC BUTTS .- Dear Sir: At the request of many of my friends in this place and viciity who are afflicted with consumption and liver complaints, I take the liberty of asking you to ap point some one in this county as agent to sell Wis-TAR'S BALSAN OF WIEN CHERRY, and to send him a few dozen, as there is none of it for sale within 200 miles from this. I have no doubt that it would meet with a ready sale if it were where it could be procured without too much expense and delay.

My wife was attacked about six months since with what the physicians called the first stage of consumption-a complaint very prevalent in this section of country. Having seen the Balsam advertised in Augusta.

07 200 MILES FROM HERE, 20 I took the pains to send there for a bottle of it, which she took, and which beloed her so much that I sent for two bottles more, which she has also taken, and the now says she has not felt so well for six years as she does at this time. All those who have inquired of me and ascertained what effect the Balsam had, are anxious to have some for sale in this vicinity, which is the cause of my writing you. Please inform me by return of meil whether you conclude to send some, and if so to whom, in order that it may be known where it can be had.

"NATURE'S FAVORITE PRESCRIPTION." a prescription congenial to our wants, as it is pre-

pared from chemical extracts from substances which the author of nature has placed in our own land for wise purposes, that many who know nothing of the mode of its preparation are endesvoring to reap pecuniary benefits by selling an article similar in name, or in appearance, or by representing their own trash as superior to this BALSAM, or by putting up a mixture and solemnly asseverating that it is imported from a foreign country, which is not the case. All these deceptive arts go to show that WISTAN'S BALSAN is known to the world to be "THE GREAT REMEDY." and that to sell any misture it must be like this in name, or purporf to be like it in substance.

OAKLEY'S DEPURATIVE SYRUP.

THE valuable properties of Oakley's Depura-L tive Syrup of Sarsaparills, as a purifier of the blood, is so well known to the public generally. that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has once been introduced, it takes precedence over all others; every one that has taken it, have derived so signal beneficial results from it, that it is recommended by them with the u most confidence. Physicians of the highest standing in the profession, prescribe it to patients under their care ; containing nothing deleterious, but being composed of the most mild, yet efficacious vegetable materials, it is offered with confidence, as the cheapest and most efficient purifier of the blood now known. The use of a few bottles, especially in the spring months, will be sttended with a most decided improvement in the general strength of the system, eradicating any seedof disease that may have been generated, hesides giving health and vigor to the body .- For the cure of Scrofula or Kings Evil, Rheumatism, Tetter, Pimples or cruptions of the Skin, White Swelling, Fistula, Chronic Cough Asthma, &c. The numerous certificates in the possession of the subscriber and his agents, from physicians and others, are sufficient to convince the most skeptical of its superiority over all preparations of Sarsaparilla.

MR. OAKLET :- I believe it the uty of every one to do whatever in their powerlies, for the brne fit of their fellow man, and having had positive proof in my own family, of the wonderful properties of your Depurative Syrup of Sarsaparilla, I meat conscientiously recommend it to the afflicted. RINGWORMS, PIMPLES ON THE PACE, AND OTHER

CUTANEOUS ERUPTIONS. The following certificate describes one of the most extraordinary oures ever effected by any application. PHILADELPHIA, February 10, 1838.

FOR twenty years I was severely afflicted with TETTER on the Foce and Head: the disease commenced when I was seventeen years old, and continued until the Fall of 1836, varying in violence, but without over disappearing. During most of the time, great part of my face was covered with the eruption, frequently attended with violent itch-ing; my head swelled at times until it felt as if it would burst-the swelling was so great, that I could scarcely get my hat on. During the long period that I was afflicted with the disease, I used a great many at plications, (among them several celebrated preparations) as well as taking inward remedies ncluding a number of bottles of Swaim's Panacea Extract of Sarsaparilla, &c. In fact, it would be mpossible to enumerate all the medicines I used. I was also under the care of two of the most distinguished physicians of this city, but without receiving much henefit, and I despaired of ever being cured. In the fall of 1836, the disease at the time being very violent, I commenced using the Rose Ointment, (prepared by Vaughan & Davis.) In a few applications the violent itching ceased, the swelling abated, the cruption began to disappear, and before I had used s jar the disease was entirely cured. It has now been nearly a year and a half since, and there is not a vestige of the disease re-maining, except the scars from the deep pits formed by the disease. It is impossible for me to describe in a certificate the severity of the disease and my suffering, but I will be pleased to give a fuller acconnt to any person wanting further satisfaction. who will call on me. At the time I commenced using the Rose Ointment I would have given hundreds of dollars to be rid of the disease. Since using it. I have recommended it to several persons, smong them my mother, who had the disease bad-

on her arm.) who were all cured by it. JAMES DURNELL, No. 156, Race St. The Rose Ointment is prepared by E. B. Vaughan, South East corner of Third and Race streets, Philadelphia, and sold on agency in Sunbu-

PHILADELPHIA, May 27th, 1839. HIS is to certify that I was severely afflicted with Tetter in the hands and feet for upwards of forty years ; the disease was attended generally with violent itching and swelling. I spplied to a number of physicians, and used a great many applications without effecting a cure. About a year since, I applied the Rose Ointment, which entirely stopped the itching, and a few applications immedistely cured the disease, which there has been no return of, slthough I had never been rid of it at any time for forty years. MEDICAL APPROBATION

Of the ROSE OINTMENT, for Tetter. A LTHOUGH the superiority of the preparation over all others is fully established, the propriotors take pleasure in laying before the public the following certificate from a respectable physician, graduate of the University of Pennsylvania, Dr. Baugh, having found in this remedy that relief for tedious and disagreeable affection which the means within the range of his profession failed to afford, has not hesitated to give it his approbation, although the prejudices and interests of that profession are opposed to secret Remedies.

PHILADELPHIA, Sept. 19, 1836. I was recently troubled with a tedious herpetic eruption, which covered nearly one side of my fice most scientific physicians to attend them and had | and extended over the ear. Mr. Vaughan, proprieded me s jar. Although in common with the mem bers of my profession, I discountenance and disap prove of the numerous nostrums paimed upon th public by ignorant pretenders, I feel in justice boun to except the Rose Ointment from that class of me dicines, and to give it my approbation, as it entire ly cured the eruption, shhough it had resisted th usual applications. Braddee could read or write. In his last illness it was satisfactorily ascertained that he could do neither, although every effort in the early part of his imprisonment to determine the question was unsuccessful.

Braddee died a penitent, it is believed. If he was a very great villain, he seems to have had, nevertheless, room in his heart for some affectionate impulses; and we cannot record his fidelity to his wife without feeling a regret that she proved unfaithful."

FALL OF WORMS, -- We find in the last Congregational Journal, Concord, N. H., the following singular and wonderful account of what appears to have been a shower of small worms in connection with a fall of snow. The Rev. I. S. Davis, the narrator, is the brother of the late Mayor of Boston, and a man of the most exemplary character and unquestionable veracity-His statement is as follows :

"As I was returning from Pierpont on Monday, the 1st of Dec. I saw on the snow which had fallen during the night, that I supposed to be oats, spread broad cast ; but not seeing any track in the enow, for I was the first that travelled the road after the snow fell, my curiosity led me to descend from my carriage and examine ; when, to my great surprise, I found that the objects I saw were living worms, about an inch long, lying on the top of the enow by hundreds ; and these were scattered along the road | I travelled for a distance of not less than five miles. I would say farther, that there were no trees near from which the worms might have been shaken, and if there had been, and the worms had been on them, they would all have been frozen, for it had been very cold, and the Paterson Bank* ground was frozen hard before the snow fell. The worms were alive, for they immediately coiled up when I took them in my hand. They were of a brown color with about 12 or 16 legs."

MERCY WITH JUSTICE .--- A Mr. Sterling. who was minister of the barony church of Glasgow, during the war with this and other countries, mantained against the insatiable ambition of Louis XIV., in that part of the prayer relating to public affairs, used to beseach the Lord that he could take the haughty tyrant of France, and shake him over the month of hell; "But, good Lard," added the worthy man. "dinna let him fa" in." This curious prayer baying been men-"in." This curious prayer having been men-tioned to Louis he laughed heartily at his new and ingenious method of punishing ambition, and frequently afterwards gave as a toast, "The good Scoth parson"

Economy .- A neighbor of ours informs us, says the Providence Journal, that wood goes further, when left out of doors, than well housed-some of his having gone upwards of a quarter of a mile is one eight.

A TRULY WONDERFUL CURE. WATERVILLE, Oneida co., N. Y. Sept. 15, 1843. Dear Sir-I owe it to the afflicted to inform you that in January last I was attacked by a very violent cold, caused by working in the water, which settled on my lungs. It was accompanied by a very severe pain in my breast and sides, and also a distressing cough. I had in attendance all the test medical aid in our vallage; but after exhausting all their skill to no avail, they pronounced my disease a

CONFIRMED CONFUMPTION, and they one and all gave me up to die. After much persuasion I got the consent of my physician to use the BALSAN or WILD CHERRY prepared by DR. WINTAR. I purchased of the Agent in our place one bottle, before using half of which I began to gain strength, and i was very evident my cough was much better and my symptoms in every way improving. I have now used three bottles, and am restored to perfect health. This result is alone owing to the use of DR. WISTAR'S BALSAM OF WILD CHER-RY ; and I take this method of giving you the information, partly to pay you the debt of gratitude I owe you, and partly that others similarly afflicted may know where to apply for relief.

JAMES SAGE. Very truly yours, Ma. PALMER. Druggist, under date of Waterville, Sept. 24th, 1843, writes ;

The statement given you by Mr. James Sage is well known to be true by this whole community. It certainly was a most remarkable cure. The sale of the Balsam is very good, and its success in cures truty flattering. Yours respectfully.

D. D. PALMER.

THE MOST REMARKABLE CURE EVER RECORDED.

HADDONFIELD, N. J., April 20, 1843. On or about the 13th day of October, 1841, I was taken with a violent pain in the side near the liver. which continued for about five days, and was followed by the breaking of an ulcer, or sincess, in-wardly, which relieved the pain a little, but caused me to throw up a great quantity of offensive matter and also much blood. Being greatly alarmed at this, I applied to a physician, but he said he thought he could do but little for me except give me some Mercury Pills, which I refused to take, feeling satisfied that they could do me no good ; many other remedies were then procured by my wife and friends, but none did me any good-and the discharge of blood and corruption still continued every few days, and at last become so offensive that I could scarcely breathe. I was also seized with a violent cough, which at times caused me to raise much more blood than I had done before-and my discase continued in this way, still growing worse. until February, when all hope of my recovery was given up, and my treads all thought I would die of a GALLOPING CONSUMPTION. At this moment, when my life was apparently drawing near its close, I heard of DR. WISTAR'S BALSAM OF WILD CHELRY, and got a bottle which as-LIEVED ME IMMENIATELY ; and by the use of only three boules of this medicine, all my pains were removed—my cough and spitting of blood and cor-ruption entirely stopped, and in a few weeks my health was so far restored as to enable me to work at my trade, (which is a carpenter,) and up to this ume 1 have enjoyed good health.

tried all the known remedies, including Swsim's tor of the Rose Ointment, observing my face, mais Panacea, without avail. Another of my children | ted on my trying his preparation, of which he han was attacked in the same manner, her face and neck was completely covered; the discharge was so offensive, and the disease at such a height, that we despaired of her life. Seeing the wonderful effects of your Depurative Syrup of Sarsaparilla, we were induced to make trial of it, as the last resort ; it acted like a charm; the ulcers commenced healing immediately, a few hottles entirely restored her to her health, which the hes enjoyed uninterruptedly ever since. As a purifier of the blood, I verily believe it has not its equal. JOHN MOYER, Tailor,

Douglassville, April 19th, 1843. MR. OAKLEY :- My son Edmund Leaf, had the rofela in the most dreadful and distressing man-

ner for three years, during which time he was deprived of the use of his limbs, his head and neck were covered with ulcers. We tried all the different remedies, but to no effect, until recommended y Dr. Johnson of Nomistown, and also Dr. Isaac Hiester, of Reading, to use your Depurative Syrup of Sarsaparilla, of which I obtained several bottles. the use of which drove the disease entirely out of his system, the sore healed up, and the child was restored to perfect health, which he has enjoyed uninterruptedly ever since, to the astonishment of many persons who seen him during his affliction. have thought it my duty, and send you this certificate that others who have a like affliction in the family may know where to obtain so valuable a

medicine. Yours truly. AMELIA D. LEAF. Sept. 16, 1843,-1y
