From the Phil. Ledger, Extra, of Aug. 10. ARRIVAL OF THE STEAMSHIP GREAT WESTERN.

The steamship Great Western arrived at New York yesterday morning, at 6 o'clock, with six days later news from Europe.

An address of the merchants of Liverpool to Mr. McLane, congratulates him on the settlement of the Oregon question, to which he replied. Buth documents are highly interesting. and creditable to the feelings of the respective parties. If there is one place more than another which would suffer by the interruption of friendly relations with America, it is Liverpool,

STATE OF THE CHOPS -Since the sailing of the Hibernia the weather has been rather variable. There have been numerous showers of rain, and although the atmosphere has been cool, we believe it has been un'avorable to the ripening of the crops, which in this neighborhood look well and promise to be very abandant. We are sorry to say the potato disease has made its appearance to an alarming extent in the sis- 597 PIZAT COUNTY ter kingdom. Mention is made in the journals, from nearly every district of Ireland, that the potato rot has appeared in this year's crop; and many of them express the most gloomy apprehensions of the result.

The weather, at all times an object of interest, is especially so on the eve of harvest. Since he middle of last month, when the intense warmth which prevailed for some weeks ceasd, showers, more or less severe, have prevail-

Up to that time the parched earth required noisture ; since then it has enough and to spare. Every day during the present week has experienced copious showers, which have certainly ot improved the grain crops, which now rewires sun-shine to ripen them. No great in ary has been done yet; but two or three weeks I the same unsettled weather would go far to estroy the bright prospects of the last three nonths. It is an ascertained fact-one which hows the variable nature of our clime-that tore rain fulls in the month of July than during ny other month in the year.

At the Liverpool market, vesterday, grain ras somewhat more firm, but the trade per. hased cautiously, and prices were but little a!cted. The potato disease, which coused so such commotion last year, has reappeared this ear in various parts of England and Ireland. 'n such occasions there is a natural tendency. create alarm and unonify the evil Under he influence of the fear which prevailed at the ime, Peel was enabled to pass his bill for the peal of the Corn-law ; but the evil proved less rious than the timid people apprehended, id the Minister was charged with furthering e delusion. On all such occasions selfishness imbines with an amiable philanthropy to alarm e public. The result, however, in the prer Indian Wheat, and necessarily to improve e price. Iteland will be the recipient of a ege quantity of India Wheat, and to the stard peasantry of that unfortunate country, when y become used to it, it cannot fail to prove a Mesend.
