

A LEAF FROM HAL CAROL
 Long years have passed since last we met,
 On a balmy summer night;
 With silver dew on path was wet,
 As if shone in the moon's pale light.
 But brighter far in thy dark eyes
 The light of love was gleaming,
 And on those lips of coral dye
 A heavenly smile was beaming.
 Our lips met in a thrilling kiss,
 Our hearts in a fond embrace;
 Tears, half of sorrow, half of bliss,
 Consoled o'er thy pale, sweet face.
 Mary, till then I never knew
 How deep was that love of thine—
 Nor feared I that 't was not true
 As the stars that o'er thee shone.
 I thought we loved each other well,
 Nor deemed that it would not last;
 Thine altered smiles too plainly tell,
 It has pass'd—forever pass'd.

A NEW PLANET—Professor Pierce, of Harvard University, in a letter to the Boston Courier, says: "Whatever may be shown to be the mass and orbit of Neptune, I am prepared to publish the corresponding elements and mass of another planet, (should one be needed,) which, combined with Neptune, and having a period of revolution of 168 years, will be sufficient to account for all the perturbations of Uranus."

MINES DISCOVERED—It is stated that several mines of gold and copper ore, and easily worked, have been discovered by Capt. Emory, in his explorations from Santa Fe, to California. He has brought home some specimens.

STARTLING OCCURRENCE—The Dubuque (Iowa) Republican publishes an account of the fall of a rock in that neighborhood. In one instance, a large stone, some six feet in diameter, and resembling a mass of sulphur, in its descent went through a large tree, crushing it to atoms, and entered the earth to the depth of about twelve feet, whence it was afterwards recovered by those who saw it fall. The traces of several smaller bodies of the same nature have been discovered in that vicinity within a short time.

CHIEF OF THE MIAMI DEAD—Lafontine, the principal chief of the Miami tribe of Indians, died on the 13th inst., at Lafayette, Indiana, on his return from the far west, where his tribe had recently emigrated. Lafontine was rich, and civilized—farmed extensively, and was a heavy dealer in produce and merchandise.

REFUSED TO FIGHT—Will the Indiana Regiment publish the names of their companies who refused to fight at Buena Vista? It is their duty, in justice to themselves, to do so; and the country should mark down for future remembrance, against the names of the heroes who fought and bled that day, those of the traitors or cowards who refused—Exchange paper.

We should be sorry to see any thing of the kind done. Among the Indians there are as few "traitors and cowards" as among any other troops. The best troops in the world have at times fled the field. The second Indiana regiment fought three hours in the thickest of the battle, before they gave way. Gen. Taylor himself bears testimony that they afterwards did good service in repelling an attack of a superior body of cavalry upon the baggage wagons, and saved them from capture. These men will yet distinguish themselves, and prove that they possess the courage which animates every American's bosom—*Phil Ledger*.

TEST TO BRANDRETH'S PILLS. Take them so as to produce a brisk effect, and your sickness will be the affair of a day or two, while those who are too wise to follow this common-sense advice, will be sick for months. Let the sick enquire of the agents for Brandreth's Pills whether these things are so or not. Let them enquire among their friends and ask the same question. Verily if evidence is wanted it shall be procured. To the sick let me say, use the BRANDRETH PILLS; the best advice mortal man can give you.

MARRIED.
 On the 22d ult., by the Rev. P. McPhally, Mr. WILLIAM BOULTON, of Danville, to Miss ELIZABETH WEAVER, of this county.

DIED.
 In this borough, on Wednesday night last, after a short and severe illness, JAMES H. HUSTED, aged about 45 years.

Mr. Husted was an estimable and exemplary citizen and neighbor, and his death will be sincerely regretted by his numerous friends and acquaintances.

In this borough, on Wednesday last, Mr. MARTIN C. HINER, aged about 82 years.

At his residence, on the Isle of Que, near Selingsgrove, on Tuesday evening last, Dr. JACOB WAGENSELLER, aged about 50 years.

The deceased had a severe and painful surgical operation performed upon him in November last, at Philadelphia. His left arm, with a large portion of the shoulder blade, was taken off. He bore the operation with great fortitude, and for some weeks was supposed to be doing well. His system, however, gave way under the shock which it sustained, and he gradually declined until death relieved him from his sufferings. Dr. Wagenseiller was a highly useful and enterprising citizen, and his death will be sincerely lamented in the community in which he has long resided. At the time of his death, he was the Senator of the district composed of the counties of Union, Mifflin and Juniata, but was not, on account of his illness, able to occupy his seat at the last session.

TESTIMONY IS NOW RECEIVED FROM ALL QUARTERS OF THE GLOBE.
 THE following letters are presented with a view of more fully showing the opinions of physicians in relation to the medical value of Dr. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.
 Dr. SWAYNE—Dear Sir: Having used your Compound Syrup of Wild Cherry, extensively in my practice, I was requested by your agent, Dr. Crutcher, to express my opinion in writing, of its properties as a remedial agent. I most cheerfully comply as I feel by so doing, I will discharge a debt I owe the community at large, and physicians in particular. As much as I detect quick remedies and patent nostrums, I was induced from a failure of the most potent expectorants, recommended in our materia medica in some cases of Prussic Acid, to try your preparation of Prussic Acid, or Wild Cherry. It is sufficient to say that I was so much pleased with the result of that and subsequent trials that I now prescribe it in preference to all other remedies where an expectorant is indicated. In the much dreaded Pneumonia or Disease of the Lungs, in the alarming form in which it appears in Kentucky, I regard it as an invaluable remedy in the treatment of that disease. To all who know me I have said enough, but as this may be seen by persons out of the vicinity of Frankfort, I will briefly add, that I have been engaged in an active practice of my profession for 12 years, and am a regular graduate of Transylvania, and this is the first patent medicine I ever thought enough of to express an opinion in writing.
 J. H. ELLISON, M. D.
 Jan 7, 1847. Frankfort, Ky.

The above certificate is from one of our physicians living a few miles from here, he is doing a very good practice, and is considered a good physician, and stands fair; he is as he says, a regular graduate.
 Dr. W. L. CURETHER, Druggist and Apothecary.
 Since the introduction of my article to the public, there have been a number of unprincipled individuals got up nostrums, which they assert contain Wild Cherry, some are called "Balsams," "Biters," and even Syrup of Wild Cherry, but mine is the original and only genuine preparation ever introduced to the public, which can be proved by the public Records of the Commonwealth of Pennsylvania. The only safeguard against imposition is to see that my signature is on each bottle.

SOMETHING NEW!
 THE Subscribers have the exclusive right of vending J. M. THATCHER'S Hot Blast Hot Air Cooking STOVES.
 In the counties of Northumberland, Columbia and Schuylkill; and from the encouragement met with already, they expect to do a large business. This stove is constructed on an entirely new principle, and on the only principle that can make both a good wood and coal stove. The inventor has overcome all the difficulties that so frequently belong to other stoves. He has by his arrangement, constructed a boiling *Open* in front, when in boiling, roasting, frying or baking may be done, and all the steam that arises therefrom, must pass into the combustion chamber, and is not at all thrown out into the room. Besides this, there is an oven, only two inches less than the whole size of the stove, wherein baking or roasting may be done as well as it can be in the common brick oven. This oven is always fit for use when the stove is heated, as the whole draught of hot air passes around it constantly.
 Public attention is particularly called to this stove. It can be seen at our Store and Tin Establishment in North Danville, at the sign of the Columbus Tin shop, and at the Foundry of Robinson & Clement in Sunbury, where its particular qualities will be fully shown and explained to any person wishing to examine it.
 The subscribers continue to have on hand all kinds of parlor stoves, such as radiators, cylinders, range and plain stoves, for all who may favor us with a call; also cast-iron stoves and Rueda Iron, which can be made in any desirable shape; together with a general assortment of tin and japanned ware, wholesale and retail. Country merchants are invited to call and examine our stock, as our work cannot be surpassed, and prices moderate.
 N. B. We can not so fully recommend the above mentioned stove to persons who wish to embark in a good business. The patentee will sell either county or state rights, to suit purchasers, and on reasonable terms. He or his agents may be found in Danville, Pa.

IT IS WRITTEN IN THE BOOK OF NATURE AND OF COMMON SENSE, that the natural vegetable productions of every country are, if properly applied, amply sufficient for the cure of every malady incident to each peculiar climate.
WRIGHT'S INDIAN VEGETABLE PILLS, or the **North American College of Health,** are composed of all plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions than Medicines concocted from foreign drugs, however well they may be compounded; and as they are founded upon the principle that the human body is in truth **SUBJECT TO BUT ONE DISEASE,** namely, corrupt humors, and that Medicine cures this disease on NATURAL PRINCIPLES, by cleansing and purifying the body, it will be manifest that, if the constitution be not entirely exhausted, a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.
 When we wish to restore a swamp or morass to fertility, we drain it of the superabundant water. In like manner, if we wish to restore the body to health, we must cleanse it of impurity.
WRIGHT'S INDIAN VEGETABLE PILLS will be found one of the best, if not the very best medicine in the world for carrying out this GREAT PRINCIPLE. Because they expel from the body all morbid and corrupt humors, the cause of the disease, in an easy and Natural Manner; and while they every day give ease and pleasure, disease of every name is rapidly driven from the body.

A VOICE FROM THE SOUTH.
PERSONS afflicted with Cancer, Scourful, King's Evil, Tyer, Salt Rheum, Erysipelas, Old Sores, Mercurial Diseases, and all complaints arising from impurities of the Blood, are requested to **Read the Following!!!**
ROWAND & WALTON, Gents.—Feeling grateful for the extraordinary cure performed upon me by your Dr. CHILLEN'S INDIAN VEGETABLE PANACEA, I feel it my duty to furnish you with a short history of my case.
 When about 12 years of age I was attacked with King's Evil. I was under the care of an eminent physician, and after a long course of medical treatment, was pronounced cured. At 14 years of age a disease, pronounced by some of the medical faculty as "Scourful," and by others "Cancerous," manifested itself. This disease increased in its ravages, till my throat was filled with ulcers, and my face was covered with them; my nose was ulcerated and swollen to apparently four times its natural size. I also had tumors in my breast, and ulcers on different parts of my person. I was placed under the care at various times of the most eminent physicians of New York, Philadelphia, Baltimore and Cincinnati, who after having used their utmost endeavors to effect a cure, my case by them was pronounced incurable. I have travelled over 21 states of the Union seeking relief; no expense was spared, and a large amount of money was expended, but all in vain. I then used large quantities of Swain's Panacea. I have also taken Carpenter's Sarsaparilla, Selenick's Pulmonic Syrup, Townsend's Sarsaparilla, and numerous other preparations without effect; my throat, nose and face were still ulcerated, and at length I was entirely the subject of smiling. I continued in this deplorable condition for about two years, having given up all hopes of recovery, I resigned myself to the will of Providence, supposing that every means of relief had failed. On the 5th day of August last I commenced taking your Dr. CHILLEN'S INDIAN VEGETABLE PANACEA, having but little hope of its benefiting me. After having used one bottle, I discovered to my utter astonishment and gratification, that my sense of smelling was entirely restored, and that the ulcers were rapidly diminishing in size. I have now taken three bottles of the panacea; my face, mouth, throat and nose are entirely healed. I am now 40 years of age, and after 28 years of indescribable suffering, my general health is better, and in fact, at no period of my life have I felt as well as I have since using your invaluable Panacea.
 JULIA BRANCH, No. 141 Cliff st. N. Y., Sept. 30, 1846.

We, the undersigned, being personally acquainted with Mrs. Julia Branch, of No. 141 Cliff street, and having a knowledge of her situation for several years past, do hereby certify, that the above is a true statement of her case, so far as our personal knowledge goes; and from her character and standing, we have full confidence in her statements, and in the efficacy of Dr. Challen's Indian Vegetable Panacea.
