MIDSHIPMAN ROGERS bus written a letter to his father, who resides near New Castle, Delaware. It is dated City of Mexico, June 28, and states that the writer was allowed the liberty of the city. It further states, however, that he had not received any support from the Mexican government, and that he was twice robbed on his way from the sea coast to the city of Mexico.

SHIPMENT OF BREADSTOFPS. -15 000,000 bush els of corn, 2,700,000 bushels of wheat, and 2, 500,000 barrels of flour-the whole valued at \$33,000,000-have been shipped this season to Great Britain and Ireland alone.

THE SWIFTEST STRANGE AFLOAT .- The steamer Alida now makes the trip between New York and Albany, (154 miles) in seven hours easily .- This is at the rate of twenty-two miles

APPROPRIATE .- An eastern editor has adopted as its motto, "Come and take me." Alack! and alas! we are afraid that there are too many Santa Annas in the community in which he resides tion for this office who would render more satisfor the good of his subscription list.

WARM WORK FOR HOT WEATHER - Rev. James C. Richmond has challenged Harvard University to attack the 'divine doctrines of Episcopacy, the Holy Trinity and the Atonement of sins,' and proposes to defend, at such time and place as the University shall select.

LIGHTNING AND TELFGRAPH WIRES .- Professor Olmstead, of Yale College, says he has no doubt that the wires of the telegraph have an effect on electricity.

"As the storm comes up, and especially when over the wires, say fifty or a hundred miles distant, the lightning is attracted by the wires, which can be proved by any one remaining in the telegraph office for half an hour. About the time the storm is coming up the wires are continually filled with electricity. It is my opinion we shall never have very heavy thunder showers or hear lightning striking, as long as we have telegraphic wires spread over the earth."

A Washington letter in the New York Courer sayet

I hear from Havan, that the recent pledge given by the President, to exempt all imports under our Mexican tariff from confiscation, or any further duties to be imposed by Mexico. after a peace, has produced a great excitement there, and that immense chipments of sugar, molasses, coffee, tobacco, segars, and especially segaritos will be made from Cuba to Vera Cruz. in part to be sold during the war; but chiefly in the expectation of realizing an immense profit in the event of peace. No doubt the same course will be pursued in Europe, on hearing of this pledge; and hence, the imports into Mexico will be very large and the revenue very conpledge was not contained in Mr. Walker's Ta- from the body. riff, as promulgated; but the suggestion came from Scott and Taylor, and has been adopted by the administration.

Gur Next Member. Ma. Entros -The time is approaching when we should think about selecting a candidate for the Legislature. We have heard of a goodly number of persons who have been mentioned as candidates, and the claims of this person and that person, and of this side and that side of the river. Now we, who are not office hunters, think the 'local habitation' of the candidate is of much less importance than his ability, his honesty and integrity. And as for the claims of any one to office, we look upon it as a humbig, as well as anti-republican. Offices were made for the people and not for the benefit of efficebolders, who are, or at least ought to be, the servants of the people. If there are may claims or rights in these matters, they belong to the people, who have a right, and should exercise that right in selecting such persons who are best calculated to promote their interests, as well as the interests of the public. Such a man we think we find in the person of ALEXANDER JORDAN, Esq., of Sunbury, and as he has consented to serve if nominated and elected, let every good democrat and citizen put his shoulder to the wheel and insist upon his nomination. His election would follow of course,

and would alley all excitement and division. Many or Oto Touner. Our Choice.

Mn. Entron .- Your paper a few weeks since gave a list of the names of the democratic candidates in the field for the Assembly. Among them we noticed, with pleasure, that of Mr. 81LAS H ENGEL, of Sunbury. As the time is approaching for the nomination of candidates, you will much oblige many of your democratic friends in this township, by permitting us to express our preference for the gentleman above named, as a suitable person to represent us in the next Legislature. We know Mr. Excet to possess the requisite qualifications to make such a representative as the democracy of Old Northumberland desire, and shall, therefore, earnestly urge upon the party his nomination. In his democracy we have full faith, knowing him to be identified with the leading measures of the party. In his knowledge of the affairs of the State, complicated as they are at present, we have the assurance that he will be able to render important service. Besides, he is truly and emphasically one of the people, in every ense of the term-in sympathy as well as in sction and consequently can command a vote which few others will be able to do. The convention, we are persuaded, could put no person in nominafaction, and who would reflect more credit upon the county, than Mr. Rogel.

THE VOICE OF AUGUSTA.

Legislature.

FOR THE AMERICAN

Mr. Epiton - You would confer a favor upon many of your democratic friends, by allowing us to bring forward, through the medium of your paper, WILLIAM D. GEARHART, of Rush township, as a candidate for the Legislature. Mr. Gearbart is a gentleman of sound judgment, correct habits. and worthy the support of the Democratic party We know of no pers in more suitable to fulfill the duties of that high and responsible office. Shou'd the people see proper to elect him as their Representative, we feel confident that they will find in him a public servant . f di-tinguished abilities, and an intelligent, firm and unwavering Democrat of the Jeffersonian school.

MANY VOTERS OF THE PORES.

SUMMER WEATHER .- It should be remembered that during the intense heat of summer, the process of digestion is performed with such extreme languor that our food, instead of being speedily dissolved and converted into nutriment for the body, often becomes actually spoiled, or putrified in the stomach. Hence bad breath, disagreeable taste in the mouth, colic pains, dysentery, cholera morbus and other disorders of the intes-

Wright's Indian Vegetable Pills are a certain cure for all the above dangerous complaints : because they cleanse the alimentary canal of all those billious and putrid homors, which are the cause, not only of all disorders of the bowels, but of every malady incident to man. They also improve digestion, and purify the blood, and therefore give health and vignr to the whole siderable. You must bear in mind that this frame, as well as drive every description of pain

Beware of counterfeits of all kinds! Some are outward appearance the original medicine. The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.

No CHANGES IN THE WEATHER Will materially offict the body if the blood is pure. Every individual, even the most diseased, has within him a germ or root of that original pure blood of our common mother Eve; which germ of pure b'ood GRAIN-Wheat is inactive, at about \$1 10 is the supporter of his life, and is in constant strugits bad humors, you allow the germ of pure blood to gain ground and to make blood of a better quality. Let all who wish to be of a fine, healthy habit, and who desire to be able to stand without injury the continual changes of this climate, use the Brandreth Pills, which will effectually cleanse the blood of all had or corrupt humors, and restore the human body to the state of health enjoyed before the introduction of mineral medicines.

DR. SWAYNE IN THE SOUTH. THE following letter just come to hand, and

wi'l be read with interest. The patient suffer ed intolerably, and could find no relief until be used Dr. SWATNE'S COMPOUND STRUP OF WILD CHERRY. It is certainly the most wonderful cure on record !- Read it.

Wilmington, N C., Jan. 12th, 1847. DR. Switke-Dear Sir: Having been almost miraculously cured by your valuable medicine. I think it not more than common gratitude in me to make one addition to the long list of certificates which you have nec ived of remarkable cures by your medicine. During the two years preceding last August. I was very much distressed by a very had cold and racking cough, and during the latter port of the time it continued to grow worse, and oderd, in July my friends gave me over, having tried all kinds of medicine, said to be good for such diseases, without the least good effect. I was re any flesh upon my body, and for a long time never thought to rise from my bed again A friend one day asked me if I had tried Dr. Swayse's Compound Syrup of WILD CHERRY, and advised me to do so at once, as he heard that it had worked a great many wonderful cures. I took his advice, and after using up several bottles of it, I grew so much better that I was enabled to leave my bed, and afterwards to walk about the house, and go out into the street I was entouraged by this, and continued the use of your medicine, and now, by means of its wonderful curative powers, I am perfeetly well, and enjoy the use of all my faculties, just as much as if I had never been afflicted in the way I described to you. I have written this not thinking that it will at all interest you, but humbly hoping that it will have its mite of influence in cansing your valuable medicine to be spread am ing mankind, and in essisting to raise you to that station which you richly deserve, for your persevering efforts for the public good.

Respectfully your friend and mimirer. JAMES R. MAISLAND.

Comment on such evidence as the above is un necessary. A single trial will place Dr. Swatne's Compound Sturp of Wild Chenat beyond the reach of compet than in the estimation of every patient .- But its healing virtue will be its best recommendation.

Beware of Imposition -Attemp's have often been made by unprincipled individuals to impose upon the community a spurious article. Stealing nearly the whole of the name of my preparation. OPINIONS OF THE PRESS. PREATIVE TO WRIGHT'S INDIAN PROBTABLE PILLS,

WRIGHT'S INDIAN VEGETABLE PILLS. These celebrated Pills, so universally used and admired, have become to be considered almost as necessary in families as water or fuel. In fact, the principle upon which this medicine has astablished its reputation—purgation—is now pretty generally schooledged to be the only true one, by which health may be p es rved, or restored when impaired. Wright's Pills are now a universal favorite.

From the Philadelphia Saturday Evening Post. WRIGHT'S INDIAN VEGETABLE PILLS, are attaining great celebrity in New England, as well as other parts of the United States. The attempt of persons to defraud the public by the side of spurious articles meets with general reprobation Wright is an indefatigable business man, and shows an array of cures by the medecine which warrant confidence in the virtues of his Indian Vegetable

From the Philadelphia Spirit of the Times. WRIGHT'S INDIAN VICETABLE PILLS .- Peo ple are pretty well savi-fied by this time that cale mel, and the other thousand and one mineral preparations of the shops, are better adapted, as a genetal rule, to kill rather than cure the patient; as a mat'er of course, vegetable medicines are therefore in great request. There are many humbugs however, among the latter, and we would pdvi-e all those who have the least regard for their bealth, to try Wright's Indian Vegetable Pills of the North American College of Health, as they are the preparation of one in imately acquainted with the healing art.

From the Boston Daily Times. WRIGHT'S INDIAN VEGSTABLE PILLS -- OF all the public advertised medicines of the day, we know of none that we can more safely recommend for the "il's that flesh is beir to," then the Pills that are sold at the depot of the North American Colge of Mealth, No. 198 Tremont street, Boston. Several histances we know of where they are used in families with the highest satisfiction; and no I nger ago than yesterday, we hard an eminent physician of this city recommend them in high terms.

LDLI. CHUTCHE THEY'S Indian Vegetable Panacea.

HEREDITARY TETTER.

exrs.—It is now six months since my vonngest child, a daughter, had a cutaneous affection, which made its appearance over its entire hods. It was a case of Hereditary Tetter, and so virolent was the disease, that we wished in case it could not be speedily relieved, that it might e soon laid in its grave. At this stage of the discase my sister-in-law called upon ton to odvice as to the best preparation of Saraspatilla that conf. be procured, as an alternative; and mended the use of Dr. Cutter's la Panaces, and I am pleased effects of the medicine were perceptible when it had taken bur a few dozes; and by the time *

had used one single bottle, the disease had entirely

disappeared, and from that time there has been no

re-appearance. I really feel thankful to you for

having recommended the Panacea to this cast, for

I feel confident that had not the disease been ar-

WHITE SWELLING. Mr. J. T. ROWAND, Plot Dec 10 1845 Dear Sir, -At your request I cheerfully give you an account of the wonderful cure effected upon me by Dr. Cuilen's Indian Vegetable Panaces. At the age of 14 years I had moon my right know a White Swelling, which suffered the joint, and caused some seventy or more pieces of the bone pieces of the bone to come away in the sores, and which was temporarily relieved by the usual remedies, but not entirely cured. At times sorts would sosin break out, and become as distres ing and prinful that I could get no rest night mar day. In this way it continued until last spring, when, having witnessed the extraordinary effects of your Panacea as an alternative, upon a daughter of mine was using it for a chronic disease, I concluded to make a trial of it in my own case; the result has been an entire cure. I am now 67 years of age, and have suffered 53 years with the sores. I cheerfully add my testimonial to the many others I have heard, of the cures performed by your celebrated Panacea. SCORFULA.

To whom it may concern.-This may certify that my child, almost from birth, was afflicted with Scorfula, which covered most of its body with sores; and that for 18 months, though constantly under medical treatment, nothing afforded reliet till I was induced to make trial of Dr. Cullen's Indian Vegetable Panacea. The attending physis cian, on witnessing its good effects, recommended its continuance according to directions, and by using a single bottle of the Panacea, the child was apparently cured. It is now about 4 months since the medicine was discontinued, and I have no doubt but the cure is complete. Yours truly. M. McCLEAS. ROWAND & WALTON

BARBERS' ITCH. Mr J. T. Rowann-Sir .- Sometime last spring was so unfortunate as to get the "Jackson, or Barbers' Itch," by shaving after some one affected by that troublesome and obstinate disease. You cannot have forgotten the swillen and iri-

tated condition of my face at the time you recenmanded "Dr. Collen's Indian Vegetable Panaces. I have now the pleasure to inform you, for the benefit of all who are similarly afflicted, that the use of a single bottle of the Paracea cured me entirely. You may well judge of my gratuleation at such a result, as I had so often known the discar-

SCORFULA. Mesars. Rowand & Watton .- I have been for two years or more severely afflicted with Scorfule, and after having tried three eminent physicians without any relief. I had come to the conclusion that I must die. I had fourteen open ulcers on my face and body at the same time. While in this condition, a friend procured me a bottle of your Dr. Collen's Indian Vegeteble Panaces, Inis was about two months since. I have taken six by as and am completely cured. My general handle is also better than it has been for se-
