Pills.-In consequence of the great variety of counterfeit labels of pretended Brandieth's Pills. Dr. Brandreth, scring under a sense of duty to the public, has employed those celebrated artists, Mesers. Perkins and Durand, who have succeeded in producing three new labels, of so complicated a nature, as to amount to an impossibility of imitation. The border of the top and also of the under label, is composed of the most elaborate and chaste patterns of lace-work. To crown the climax of the e beautiful labels, the paper upon which they are printed is previously printed with red ink, after a design so exquisite and minute as to defy compe ition; the top and the under label each contain the words, "BENSAMEN BRANDRETH'S PILLS." written in red ink nearly two hundred times-the top and under label containing, therefore, upwards of five thousand letters. There is also upon the op, the under, and the side label, two signatures f Dr. Brandreth; one being his regular signature, hus-B. Brandreth; and the other, his full signsure, thus-Benjamin Brandreth; both being facimiles of the writing of Dr. Brendreth, to imitate thich is forgery! The Brandreth Pills having hese labels upon them, can be relied upon as true

SECURITY TO THE PATRONS OF BRANDRITH'S | TO THE SICK AND AFFLICTED. DR. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY—We can consistently state that Dr. Swayne's Compound Syrup of Wild Cherry has been extensively used in the United States for more than ten years—that its heneficial effects have been tested by thousands—That IT INVARIABLE RELEVES A RECEST COVOR, and that hundreds of individuals, gradually sinking under the insidious attack of death's fell emissary, PULMONARY CONSTRUCTION, have been restored to health, happiness and friends, by its use, and are now living testimonies of the curative power of this REMEDY. ASSTREE INVALID BESTORED TO HEALTH. READ THE MOST RESARKABLE CURE EVER RECORDED!

DR. SWAYNE-Dear Sir : I feel colled by a sense of duty I owe to suffering humanity, to scknowledge my grateful thanks for the wonderful effects of your Compound Syrup of Wild Cherry on me, after suffering month after month with the most afflicting of all diseases, Consumption. The first symptoms were of a very heavy cold which settled on my lungs, which guidually grew worse, with profuse night sweats, a backing cough, spitting blood, with great debility. My constitution seemed broken down, and nervous system very much impairrd. I went to Philadelphia, was treated there by physicians of the highest standing, but received no benefi whatever from them, but gradually grew worse, until my physicians, as well as myself, gave up all hopes of recovery, and I felt like one who is about to pass through the Valley of the Shalow of Death. At this "awful juncture" I heard of your Compound Syrup of Wild Cherry, of which I purchased six bottles, which I am happy to say entirely cured me, and I am now enjoying better health than I ever have before in my life. Physicians who witnessed my case are highly recommending it in similar cases, and I wish you to make this public, so that all may know where to procure a remedy at once which will reach their disease before tempering with the many 'quack nostrums' with which the country is flooded. My residence is at 45 Am street, where I should be happy to have the above substanti ted by a personal inter-ALBERT A. ROSS, Who esale and retail Dealer in cigars. 45 Ann street, N. Y.

The aversion to taking medicine is most effecmally removed by CLICKNER'S VEGETABLE PUR-BATIVE PILLS, being completely enveloped with a coating of pure white Sugar, (which is as distinct from the internal ingredients as a nut shell from the kernel) AND HAVE NO TARTE OF MEDICINE,

But are as easily swallowed as bits of candy. Moreover they neither naments or gripe in the slightest degree, but operate equally an all the disessed parts of the system, instead of confining themselves to, and racking any particular region. Thus, if the Liver be affected, one ingredient will operate on that particular organ, and, by cleansing it of an Excess of Bile tretote it to ite nature state. Another will operate on the Blood, and remove all impurities in its circulation; while a third will effectually expel whatever impurities may have been discharged into the stomach, and hence they STRIKE AT THE BOOT OF BISEL-E, femove all Impure Humors from the body : op-n the pores externally and internally; separate all foreign and obsozious particles from the chyle, so that the blood may be thoroughly pure—thus secuand Liver; and thereby they RESTORE HEALTH E-TER WHEN ALL OTHER MEANS HAVE FAILED.

#### SIX YEARS AGO

THE children began to cry for Sherman's Lozenges. The noise was not so loud at that time, but it has kept increasing ever doce, and now has become so great that the mouths of the little ones can scarce be stopped. Dr. Sherman sympathises with the little sufferers, and very much regre's that any of them should be disappointed. Knowing the vast benefit which has been conferred upon the community by the introduction of

WORM LOSENGES. he has entered into arrangements for enlarging his Manuf ctory, by means of which he thinks he will be able to supply the demand. And the same pains and care will be taken, that there relebrated Los senges be made as they have always been, in order that those who depend upon them, may not be disappointed in their hopes. He know when he commenced the manufacture of the Worm Lozenges, that they would supersade the use of every to the taste, speedy in its effects, as well as certain, and the quantity required to effect a perfect cure, is very small. These properties, in connection with the feet that they are sold for 25 cents per box, thus placing them in the reach of the poorest man in the land, has not only caused them to take the piace of every other vermifuge aver offered, but also tendered them popular to the community.

COUGH LOEENGES continue to cure Cougts, Uohls, Consumption, Asthms, shortness and difficulty of Breathing, and other diseases of the Lungs, with the same facility they dld on their first introduction, and the people have now become persuaded by actual experience, that on the accession of a slight cold, they have only to step to either the Dr's, office, or one of the Agents, and obtain a box of his Cough Lozenges. which are very convenient to carry in the pocket, and to take a few through the day. By pursuing this course a cure is often effected in 24 hours, and the patient about his busin ss. So great is the ceebrity of the Loz-nges, that thousands of persons who have used them, and become acquainted with their effects, will never be without them.

POOR MAN'S PLASTER has cured more cases of Rheumatism, Pain in the Back, Side and Chest, Lumbago and Weakness, than any application that has ever been made. The only known Medicine that at the same time purges purifies and strengthens the system. Losnow, July 7, 1846. DR. LE ROY'S Pills are a new medicite which has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients, but the ry, so united that they not together; the one, through its admixture with other substances, pu rifying and purging, while the other is strengthen-ing the system. Thus those pills are at the same time tonic and epening; a desideratum long and eagerly sought for by medical men, but never before discovered. In other words they do the work of two medicines, and do it much better than any two we know of for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause n debilitation, and are followed by no re-action. Dr. Le Roy's pills have a wonderful influence on the blood; they not only purify without weakening it, but they remove all Loxlous particles from the chyle before it is converted into fluid, and thus make impure blood an utter impos-ibility. As there is no debilitation, so there is no nauses or sickness attending the operations of this most excellent of medicines, which never strains or tortures the diges tive functions, but cau-es them to work in a perfeetly natural manner; and hence persons taking them do not become pale and emociated, but the contrary; for while it is the property of the Sarsa-parilla, united as it is with other ingredients, to emove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all the is natural and sound; and bence a robust state of health is the certain result of their united opera-
