

For the Sunbury American, To Alier. The dearest friends meet but to part, To read the tendrils of the heart, That hind them to each other. Obey we must fate's storn decree, His mandate forth we need not flee, We must our feelings smother.

But though we part, in memory's cell Those ever Shalt in fondness dwell, And there, shall live forever. And though I in the busy whirl Of worldly traffic mix, sweet girl, I can forget thee never. "D. OF THE ISLE."

Sunbury, Oct. 18th, 1847.

The Pashionable Lady's Praver. EY W. FELCH. "Give us this day our daily bread," And pies and cakes besides, To load the stomach, pain the head, And choke the vital tides ; \* And if too soon a friend decays, Or dies in agony-We'll talk of "God's mysterious ways," And lay it all to thee. Givens, to please a morbid taste. In spite of pain and death. Consumption strings around the waist. Almost to stop the breath ; Then, if infirmity attenda Our stinted progeny, In visitation to our sins. We'll lay it all to thee, Give us big hustles in the rear, (We ask it not in fun.) A thing for corn field crows to fear. And bens to roost upon. And if we heat the hips and spine, What matter should it be?

When sickness follows we can whine, And lay it all to thee, Give us good houses, large and tall, To look the cabins down,

And servants dodging at our call, And shaking at our frown. The poor, however worthy they, We'll treat right scornfully-The six pence pay communion day, And settle up with thee.

We do disdain to toil and sweat. Like girls of vulgar brood ; Of labor give us not a bit, For physic, not for food. And if for want of exercise, We lack the stamina Of those we trample and despise, We'll lay it all to thee.

If any curse we have forgot, Fashion lets fall withhold it not, But send it grievously. And if too hard to mill-stone light For frail humanity .--We'll never blame ourselves a mite, But lay it all to thee.

## BANK NOTE LIST. IDTR. IDTR. IDTR Vegetable Universal Pills. The only known Medicine that at the same time

purges purifics and strengthens the system. LONDON, July 7, 1846.

DR. LE ROY'S Pills are a new medicine which has just appeared, and is fust taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarasparills and Wild Cherry, so united that they act together; the one, through its admixture with other sub-tarces, purifying and purging, while the other is strengthen-ing the system. Thus those pills are at the same par time tonic and opening; a desideratum long and engerly sought for by medical men, but never before discovered. In other words they do the work of two medicines. and do it much better than any par two we know of; for they remove nothing from DAT the system but the impurities; so that while they 1101 purge they strengthen ; and hence they cause no debilitation, and are followed by no re-action. Dr. Le Roy's pills have a wonderful influence on the blood ; they not only purify without weakening it. but they remove all toxious particles from the chyle before it is converted into fluid, and thus make impar pure blood an utter impossibility. As there is no

debilitation, so there is no nauses or sickness attending the operations of this most excellent of medicines, which never strains or tornares the dig-stive functions, but cau-es them to work in a perfeetly natural manner; and hence persons taking them do not become pale and em-ciated, but the contrary ; for while it is the property of the Sarsaparilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united operapar par. tions g 7 Price 25 cents per BOX. ### OPINIONS OF THE PRESS. BELATIVE TO WRIGHT'S INDIAN VEGETABLE PILLS,

From the Camden Democrat. WRIGHT'S INNIAN VERSTARLE PILLS.-These

W celebrated Pills, so universally used and ad-mired, have become to be considered almost as nereseary in families as water or fuel. In fact, the principle upon which this medicine has established its reputation-purgation - is now pretty generally acknowledged to be the only true ope, by which health may be preserved, or restored when impaired. Wright's Pills are now a universal favorite.

From the Philadelphia Saturday Evening Post. WRIGHT'S INDIAN VEGETABLE PILLS, Bre attaining great sclebilty in New England, as well as other parts of the United States. The attempt of persons to defraud the public by the sile of spurious articles meets with general reproduction. Dr. Wright is an ind. Grigable business man, and shows an array of cures by the medecine which warrant confidence in the victues of his Indian Vegetable Pills.

From the Philadelphia Spirit of the Times. WRIGHT'S INDIAN VIOLTABLE PILLS,-Peo ple are pretty well savi fied by this time that calo mel, and the other thousand and one mineral preparatians of the shops, are better adapted, as a gen-eral rule, to kill rather than cure the patient; as a mat er of course, vegetable medicines are therefore in great request. There are many humburs however, among the latter, and we would advice all who have the least regard for their bealth, to uy Wright's Indian Vegetable Pills of the North. American College of Health, as they are the preparation of one in imately acquainted with the bealing art.

From the Baston Daily Times.

WRIGHT'S INDIAN VEGETABLE PIELS .- Of all the public advertised medicines of the day, we know of none that we can more sifely recom for the wills that flesh is heir to," than the Pills that are sold at the depot of the North American Colege of Health, No 198 Tremont street, Boston. Several instances we know of where they are used in families with the highest s tisfiction; and no I nger ago than yesterday, we heard an eminent physician of this city recommend them in high terms.

The foll wing highly respectable storekeepers have been duly apcointed agents for the sale of Wright's Indian Vegelable Pills, in Northumbernd county :

The safest course is to purchase of the regular agents only, who are gentlemen that may be rehed on.

Hot Blast Hot Air Cooking CONTRACTOR

the counties of Northumberlah I, Columbia and Schuylkill; and from the encouragement met with already, they expect to do a large business. This stove is constructed on an entirely new principle and on the only principle that can make both a good wood and coal stove. The inventor has overcome all the difficult es that so frequently belong to other sloves. He has, by his arrangement, con-structed a broiling TOVen in front, where in brailing, rossting, frying or baking may be done, and all the smell that arises therefrom must pass into the combustible chamber, and is not at all thrown out into the toom CD Besides this, there is an oven only two laches less than the whole size of the stove, wherein baking or rousting may be lone as well as it can be in the common brick oven. This oven is always fit for use when the stove is heated, as the whole draught of hot air passes aound it constantly.

Public attention is particularly called to this tove. It can be seen at our Store and Tin Estab. lishment in North Danville, at the sign of the Columbia Tin shop, and at the Foundry of Rohrbach & Clement in Sunbury, where its particular qualis ties will be fully shown and exp'ained to any person wishing to exomine it.

The subscribers continue to have on hand all cinds of parlor stoves, such as radiators, cylenders, fancy and plain, suitable for all who may favor us with a call; also common sheet and Russia fron. which can be made in any desirable shape; together with a general assortment of tin and japanned ware, wholesale and retail. Country merchanis are invited to call and examine our stock, as our work cannot be surpassed, and prices modoerate. N. B. We can safely recommend the above mentioned stove to persons who wish to embark in a good business. The parentee will sell either county or state rights, to suit purchasers, and on reaonable terms. He or his agents may be found in Danville, Pa. J. & J. ARTER,

The undersigned, having seen in operation the bot least hot air cooking stove, invented and pa-tented by J. M. Thaicher, certify that we believe, from the manner of its construction and operation, that it is the best one ever offered to the public. The arrangement is so complete and the construction so judicious, that there is a saving of one half the fuel and time, in doing any given amount of a rvice, over other celebrated stoves. In short we recomment it in preference to all others, for the simple reason that it embraces every branch of economy. PATRIOTISM AND PRODUCTARITIES OF PRINTERS. -No less than four of the five printers employed in the office of the New Orleans Daily Namonal, have served their country on sea and land. The National says:

One was an actor in the glorious battles of Palo Aito, Resaca de la Palma, Monterey, (where he lost an eye,) Vera Cruz and Cerro Gordo ; another was with Blanchard at the storming of Monterey's heights, and afterwards shared in the glory of Scott's victories before reathing Jalapa ; another served a year in Mexico. or Uncle Sam, but a few fights among the robber bands were all that the fortunes of war gave him; and the fourth was a Midshipman in our own Navy, and a sailing master and Lieut, in that of Texas. One has resided in France, tireat Britain and the German States-another lived some years in Mexico-another has seen the walls of Canton, towering pagodas, and hunted the sea-otter on the coast of Oregon-and another has been upon the cloud capped Cordifferas of South America, among the ruins of earthquarkes of Caraceas, and touched the tasselof banner which Pizarro first marched into Peon with ; and among them, the French, German and Spanish languages are spoken; but the cream of the whole is, they are all Taylor men to a T. Who won't say that the printers 'are ome.' As a body, they are talented but not teminimus ; wild without, of course, being wise; and being very ciratic in their dispositions, are dways, of necessity, poor.
