PETERSBURG, Oct. 31, 1847. The back mails from the south have all been received this morning.

The steamer James L. Day arrived at New Orleans on the 23d, from Vera Cruz, bringing dates to the 17th. There has been no later arrival direct from the capital.

Santa Anna was at Puebla on the 25th September, and had addressed Col. Childs, stating that he had taken possession of the city with 8000 men, and requesting his immediate evacuation of that post, permitting him to form a janction with Gen. Scott or the American forces at Perote, but threatening in the case of a refusal that an immediate assault would be made upon all his positions. Col. Childs replied that with regard to the threatened attack upon all his positions under his command, he was fully satisfind that he should be able to defend them sucreasfully and having been honored with the duty of guarding them, was determined to defend them to the last.

The Arco Iris, of the 13th October, furnisher further important news

A letter from Puebla, dated at five o'clock on the evening of the 27th of September, says the points of San Juan de Dias. San Juan, Santa Rosa and Santa Monica, commenced a heavy cannonade upon the American works. The latter immediately began to throw cannon shots, bombs and grenades into the centre of the city, which suffered considerable injury.

About So'clock the cannonade ceased, but commenced again at dawn on the following day. By order of Santa Anna a breastwork of cotton bales had been erected, with four hundred cotton hales which he had commanded the commercial houses of Valesco to furnish for the defence of the city. To prevent the completion of these works, the Americans from the first had kept up continued fire from San Jose upon the workmen, which being strictly returned by the Mexicans, the discharge of bombs and grenades from the American lines greatly increased, but night super- ing summary of the amount of Railroad construcvening every thing became quiet.

September 30th-A partial tranquility reigns in the city, but General Rea having concluded the erection of a battery to open upon San Jose, the greatest enthusiasm against the Americans prevaried throughout the city.

On the 1st of October, Santa Anna, at the head of 2000 cavalry and infantry and three pieces of artillery, sallied out from Puebla, intending to attack the American train which left Jalapa on the 1st, and reached Perote on the 4th, but before arriving at Topeyahualco, his designs were wholly frustrated by all of his men with the exception of 130 hussars, composing his personal guard, having pronounced against him, attributing the unfortunate events of the war and their want of success against the invaders, to his incapacity and unsuccessfulness Some loudly declared him a traitor, and unworthy of holding any command in the Mexican army

Santa Anna baving reached Topeyahualco with his 130 hussars, received an order from the government at Quererito, ordering him at once with all his troops, but he did not think it convenient to comply with the demands of his government and broke up his line of march for Oajaca ; he having publicly declared his intention of proceeding to that place, where he designed to raise another army, with which to renew the combat with the enemies of the Republic.

All the letters from the interior coincide in the opinion that Santa Anna considered himself as impotent to effect any thing more, and state that he was making his way towards Guatemala, for the purpose of leaving Mexico forever, and that his march to Oajaca is only a pretext to aid in the quiet accomplishment of his designs.

Puebla, Oct 1. Since Santa Anna's departure. the cannonading has entirely slackened off. The cotton house of Valesco took fire and burned down. The inhabitants of Puebla hearing the ringing of the bells which announced this incendiarism were very much alarmed, believing the Americans had left their entrenchments and were storimng the city.

It is reported that Gen. Scott has granted a passport to Santa Anna Other Mexican papers deny that he is endeavoring to reach Guatemala, and insist that he will continue the war without

The Genius of Liberty says, that Pena y Pena was discharging the duty of President, at Queretera, but had refused to recognise his associates appointed by Santa Anna, and proposes that Con-

A report prevailed at Vera Cruz on the 18th, that a company of Texan Rangers being attacked by guerrillas, twelve miles distant, and all but two cut off. An express had arrived, stating that one man was killed and eighteen missing.

Some difficulty had occurred in the Massachusetts regiment, and Gen Cushing had disarmed and detached 65 from the regiment.

Capt. Wells had been honorably acquitted. Colonel Jack Hays had arrived at Vera Cruz. Gen, Lane was at Perote on the 4th of October, and no doubt entered Puebla a few days afterwards

The Arco frie of the 16th, speaks of extensive preparations making to despatch a train for the sterior, and says that more than 4000 troops, tre all armed and ready to start,

The editor conjectures that General Patterson has a new expedition in prospect against some state not hitherto invaded by the Americans, intead of joining Scott.

The same paper contains some speculations as at Queretaro, and among others, thinks that the | chivalrie Capwalanes. - Penn'n.

minds of the people of the interior, had undergone a change since the becupation of the Capi-

tal, and were disposed to favor a peace. The expedition against the Guerillas, planned by General Patterson, had returned after successfully encountering and dispersing several

American Battles.

The Philadelphia Inquirer has the following letter, dated

The Rattrond System of the United States

The construction and Increase of Railroads in the United States, during the last fifteen years, where. exceeds, by far, anything heretofore known in the world, as to Public Works or Monuments -'Dogget:'s Railroad Guide" for September, 1847 has a table of Railroads now in operation, and by comparing those Tables, we arrive at the followtion in each year, and the amount of Capital in

rested:		
Year.	Miles completed.	Capital.
1830	155	\$2 510,000
1831	17	1,472 966
1832	29	500,000
1833	151	4,094 000
1934	861	2,818,638
1835	287	11.750 000
1836	3164	7.589,114
1837	237	6 682.578
1838	5711	14.508,693
1839	3401	12,736,000
1840	2794	4,350,000
1841	1834	5,100,000
1842	2771	6,613 65
1843	1802	11 090,000
1845	410	19 094 294
1846	484	9.186,000
1847	205	2,410,000
18	5710	\$122 435,93

The amounts are set down to the year in which the Railroad was opened for use. This does not show in what years the work was done. Thus in the year 1844 there is no new road set down; but in that year a great deal of Railroad work was done. The year 1847 is not yet com-

The grand result shows, that in seventeen years FIVE THOUSAND MILES of Railroad have been onstructed in the United States, at an expense Of ONE HUNDRED AND TWENTY MILLIONS OF DOL-LARS! This is unprecedented in the History of Civil Constructions. it demonstrates, beyond a ny other, the gigantic growth, the unceasing industry, and Cumulative Power of Capital, in this new and vigorous nation.

The present Annual Investment, in Railroad Constructions, is about fifteen millions of dollars! The actual saving, in the expenses of transportation, probably greatly exceeds this. In this way Railroads on good routes, (and in our new country nearly all are good) thus acts as savings banks. They cannot explode, and they thus both save and accumulate property, with little danger of waste or diminution - Cinemnati Chronicle.

But it was at Chapultepee, that he covered himself with glory; when the gallant Pillow fell with his shattered limb, on its bloody heights, after performing deeds of incredible valor, the command of the storming party devolved upon our gallant townsman, who completed the work which Pittow had begun. THE CANALS -The break on the Canal at Duncan's Island, we have been informed, will be finished in a day or two. The West Branch, to Lovalsock, probably in about a week A large quantity of merchandise has been shipped at Philadelphia to Northumberland, and as much further as the canal is navigable, from whence it will be hauled to Centre and the adjoining counties by wagons.

CF POST MASTER AT HARRISBURG -- Isane G. McKinley, editor of the Harrisburg Union, has been appointed Post Master at Harrisburg, in place of James Peacock, removed. We have seen it stated that Mr. Peacock was removed on account of his having participated in the late Taylor meeting at Harrisburg. We hope that Mississippi, Louisiana and Texas voted on Mon- | Morton, (Native.) for Cana! Comm'r,

DY NEW YORK AND NEW JERSEY ELEC TIONS .- The great State of New York has gone over entirely to the whigs. This result has been caused by the unfortunate slavery question, that will soon overturn all parties. We copy the following from the Philadelphia Ledger: "For the first time since 1841, the State Go-

vernment of New York is Whig in every department save the judicial. A whig Governor, Lieut. Governor, all the heads of Departments, Canal Board, Prison Inspectors, with a large majority in each House of the Legislature. Never before has the State Administration been so thoroughly Whig. In New York city, the whig majority on Lieut. Governor's ticket is 3546, on Comtroller's 4542. Eleven whigs and five democrats, one of whom is Mike Walsh, are elected to the Assembly. Last year only one whig. Whig Senators in each of the four districts in the city. The majority in the State will be immense. The Jour. of Commerce says :- Thousands of Democrats, who were dissatisfied with the Syracuse nominations, did not vote at all, and some went so far, in their hatred of Hunkerism, as to vote the Whig ticket. A bouse divided against itself, cannot stand."

The Democrats, on the other hand, have taken New Jersey from the Whigs, and elected their Governor by a majority of 2755.

In Fiorida the Whigs have succeeded, and will elect a whig U. S. Senator in place of Mr. Wol-

THE NATIVE VOTE .- The Native vote for Governor for this year is 11,207. Last year, for Canal Commissioner, it was 26,438,

PRETTY EQUALLY DIVIDED .- Shunk's official najority in Mercer county is one vote.

THE POPULAR VOTE IN OHIO -The Ohio States man publishes a table from official sources of the popular vote in that state at the recent election, taking the Senate and Representative ticket .-The aggregate is 105,385 Democratic, 103,822 Whig and 4,379 Abolition. Democratic plurality | counts. over Whig, 1,565.

THE WILMOT PROVISO .- The great principle involved in the Wilmot proviso, seems to be taking firm root in New York. The democratic counties of Herkimer, Delaware, Onondago, St. Lawrence, Suffolk, Cayuga, Wayne, Tompkins, Chemung and West Chester, have endorsed it fully in their county meetings. These counties gave majorities for Polk over Clay of 6754.

There are in Pennsylvania 205 divisions of the Sons of Temperance, having in the aggregate ring the present year.

New Yor The Herkimer Convention. The following is an extract of the address read before this envention of the Young Democracy It dwells wib a special emphasis on the ques-

tion of the 7ilmot Proviso :-

"The cred of democracy, which had taught the fathers of the Republic that human bondage was a social moral and political evil imposed on a section of he Union by the peremptory force of circumstaces, has received of late years a new interpretation. The doctrine of Jefferson, Washington, Ptrick Henry and the Randolphs, that | Be slavery is agreat social evil, which should be gradually but certainly eradicated, that it is a Br relation fata to industry, false to economy, in- Be jurious to morals and dangerous to liberty, and in its indiret and pernicious influences upon the Co masters retaining the wrongs it imposes upon its more impediate victims, has been discarded | C by a school of modern politicians of the South. | C

It is maintained in sections of the Union, and | C by prominent statesmen, that slavery, instead of C being an inevitable evil, is a desirable good, C which presents not only the sole means for the C continued associated existence of the black and C white races, but the safest and best relation be- C tween capital and labor, and one in which the subordination of the latter to the former can alone | I be permanently maintained. This doctrine has been asserted from the federal cabinet, and pa- I pers issuing therefrom have impeached the free institutions of the North as the sources of physical cal and moral degration to emancipated laborers

This ominous and repugnant theory is now sought to be carried out in practice by the conquest of free territory and the establishment of slavery thereon. Against such a usurpation of powers, for such an object, the Democracy of New York firmly and solemnly protest. In behalf of the free white laborers of the North and South, in behalf of the emigrant from abroad, and in behalf of posterity, and in the name of freedom, we protest against it. We protest against the extension, by the arms or the influence of the Republic, of an institution whose inevitable concomitant is the social and political degradation of the white laborer; which, wherever it prevails, denies to the masses that equality of suffrage which is an inherent element in the Demo-

cratic system. We protest against the aggressions of an institution which gives to the owner of four slaves a representation equal to that of three of our own free electors; a preponderance of political power which, so far as it is one of the compromises of the constitution, we shall faithfully observe. but which the freemen of New York will not ex tend to conquered provinces. We protest against the extension of an institution which is a source of insecurity and poverty in peace, and of held at New Berlin, on Saturday last, for the pur- embarrassment and danger in war. We protest Venango against degrading the character of the existing Washington war, alienating the sympathy of the producing convention. A resolution was passed confirming masses of the North, upon whose labor and in- Wayne dustry the heaviest of its burdens must ultimately fall, and damping the arder of our brave soldiery, and staining the laurels they have so gallantly won, by presenting as the aim and consummation of their sacrifices and valor the subjugation of free soil to slavery."

> STATE ELECTIONS .- The Massachusetts State election takes place on Monday next. Michigan, Lemoyne, (Liberty.) do. bers of Congress are to be elected.

THE NO LICENSE LAW OF THIS STATE -The Supreme Court of this state, now in session at Pittsburg, the Harrisburg Tribune says, have decided the "No License Law" of Pennsylvania to be unconstitutional. The opinion has not yet been published. If this be the case, then the decision amounts to this, that anybody and everybody has the right to sell rum without the sanction of the county. The decision will be looked for with

THE TRIENNIAL EPISCOPAL CONVENTION, after session of some days, adjourned sine die on Thursday evening last. The memorial of Bishop Onderdonk to his brethern, for his restoration, has been returned to him with an elaborate reply, in which leave is granted him to withdraw his memorial. This does not look like restoration. The reply is said to have been written by Bishop Hopkinson of Vermont.

The Cameron Guards.

We find the following letter from Lieut. Murray, late a member of the Cameron Guards, in the Harrisburg Union, of yesterday morning :

PHILADELPHIA, Oct. 22, 1847. Sin:-I take the liberty of addressing you these few lines on account of news having been received here of the 2d Pennsylvania Regiment being engaged in the last actions before the city of Mexico. In the list of killed and wounded recognize several names of my old companions in arms in the "Cameron Guards." The very fact of so many of them being wounded, proves conclusively that they were where the iron hail fell thick, and I think that neither the honorable gentleman whose name they bear, nor the citizens of Harrisburg, need blush at the conduct of this company, before the gates of the city of Mexico. Below I give you the names of the wounded with their residence; some of their names are spelled incorrectly in the printed ac-

THE following letters are presented with a viof more fully showing the opinions of ply cians in relation to the medical value of SWATER'S COMPOUND STRUP OF WILL CHERR Dn. Swayse-Dear Sir: Having used yo Compound Syrup of Wild Cherry, extensively my practice, I was requested by your agent. I properties as a remedial agent. I most cheerfu comp'y as I feel by so doing, I will discharge debt I owe the community at large, and physicis in par icular. As much as I derest quack ren dies and patent nostrums. I was induced from failure of the most potent expectoran s, recomme ded in our materia medicas in some cases of D essed lungs, to try your preparation of Prun Virginia or Wild Cherry. It is sufficient to s that I was so much pleased with the result that and subsequent trials that I now preser be it preference to all other remedies where an expec rant is indicated. In the much dreaded Poeun nis or Disease of the Lungs, in the ala-ming for in which it appears in Kentucky, I regard it as invaluable remedy in the treatment of that disea To all who know me I have said enough, but this may be seen by persons out of the sicinity Frankfort, I will briefly add, that I have been gaged in an active practice of my profession for years, and am a regular graduate of Transvivar and this is the first parent medicine I ever thou,

enough of to express an opinion in writing.
