The Tight Boots-or Wow a Young Han went into a Ball Room.

About five years ago I happened at a wed. ding in one of the back woods counties of Georgia, at the house of Major S. Being the wealthiest man in those parts, he was desirous of giving a great flare up, and for this purpose had invited a large number of guests to witness the nuptials of the eldest of three blooming, cherrylipped, strong limbed, clean footed daughtars. Among the invited guests I observed the free of Bits. P., a representative of the county at the 'University,' whom I had known as the butt of his class while there, but who was destined to act a conspicuous part on the present memorial occasion. Bill was an original-sui quiens. He was peculiarly attached to his head, which was ungine in shape, and clothed with curls which resembled less Hyperion's than the setting sun in view. He was six feet two in his stockings, with legs meeting a long way up, and more resembling a pair of compasses. than anything I can at preset imagine. Added to this, he was twenty years of age, and reeking with verdancy and bashfulness, and you have his deguerreotype. The ceremony had been performed, the hour was waxing late, and all seemed to be enjoying the flow of soul. I had exhausted the tun from various groups, and was looking about for a subject of interest, when I perceived Bill, sitting like Napoleon, solitary and alone, I shall never forget. Approaching him, I kindly inquired the cause of his distress, and proffered my assistance.

'Give me your arm,' said he, 'I am deathly Office sick : let us find a room and go to bed.

He grasped my arm convulsively, and limped along, we went into a private room which Ma jor S. had assigned me as my quarters for the night. I soon discovered the cause of Bill's malady, which was a pair of small boots on his large feet, worn with a view of curtailing the fair proportions of those members. He endeavored in vain to release his feet, and as it was impossible to get the assistance of a servant, 1 volunteered to fur at them myself, when he had completely exhausted his strength. We succeeded at length in pulling of one-but the other resisted our efforts. Bill was in agony-his foot was badly swollen and yet he would not cut the boot. At last he arose, his even in a fine phrenzy rolling,' and dripping with perspiration, and pronouncing anathemas not loud, but deep, upon all 'gathering' in general, and country weddings in particular, he divested himself of every garment-and stood up unincum bered, save with that one terrible boot. The merriment in the adjoining chamber contrasted strangely with the coruish in mine. The gueste had now all gone into the ball room, which was separated from the room assigned me by a thin wall. I could hear every note of preparation made by the fiddler, approaching Phi nearer the wall, I discovered a door which opened into the room were they were about commencing the dance. By this time Bill had recovered his strength, and commenced the tug | l'owanda Bank with his boot. In vain he casayed every posi-

DR. LOR ROTOR Vegetable Universal Pills,

The only known Medicine that at the same time purges pur fies and strengthens the system. Lesuos, July 7, 1945.

R LE ROY'S Pills are a new medicine DR LE ROY'S Pills are a new medicine which has just appeared, and is first taking he places of all others of the saire class. These pills are composed of many ingredients, but the two principal ones are Sarasparilla and Wild Cherry, so united that they act together; the one, through its admixture with other sub-tavces, purifying and purging, while the other is strengthen-ing the system. Thus those pills are at the same time tonic and opening ; a draideratum long and eagerly sought for by medical men, but never before discovered. In other words they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities ; so that while they purge they strengthen; and hence they cause no debilitation, and are followed by no re-action. Dr. Le R y's pills bave a wonderfut influence on the blood ; they not only purify without weskening it. but they remove all portious particles from the chyle before it is converied into fluyl, and thus make impure blond an utter impos ibility. As there is no debilitation, so there is no nauses or sickness sttending the operations of this most excellent of medicines, which never strains or tortures the digestree functions, but causes them to work in a perfectly natural manner : and hence person : taking them do not become pale and era ciated, but the contrary ; for while it is the property of the Saraa. parilla, united as it is with other ingredients to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and bence a robust state of health is the certain result of their united opera-

tions Trice 25 cents per BOX. Agents for Le Roy's Pills, J. W. FRILING, Sunbury, JOHN YOUNG, Sunbury.

SOMETHING NEW!

THE Subscribers have the exclusive right of vending J. M. THATCHER'S Hot Blast Hot Air Cooking

in the counties of Northumberland, Columbia and Schuylkill; and from the encouragement met with already, they expect to do a large business. This stove is constructed on an entirely new principle, and on the only principle that can make both a good wood and gost stove. The inventor has over-come all the difficulties that so frequently belong to other stoves. He has by his arrangement, constructed a broiling CTOven in front, where in broiling, rossting, frying or baking may be done, and all the smell that stiers therefore must pass into the combustible chamber, and is not at all thrown out into the nom .CD Besides this, there is an oven only two inches less than the whole size of the stove, wherein baking or roasting may be done as well as it can he in the common brick oven. This over is slwave fit for u-e when the stove is heated, as the whole drought of hot air passes around it constantly.

Public attention is particularly called to this stove. It can be seen at our Store and Tin Establishment in North Danville, at the sign of the Cojumbis Tin shop, and at the Foundry of Robrinch & Clement in Sunbury, where its particular qualitics will be fully shown and exp'ained to any person wishing to ex mine it.

The subscribers continue to have on hand all kinds of parlot stoves, such as radiators, cylenders, fancy and plain, suitable for all who may favor us with a call; also common sheet and Russis Iron. which can be made in any desirable shape; together with a general assortment of tin and japanned ware, wholesale and retail. Country merchants are invited to call and exemine our stock. as our work cannot be surpassed, and prices modoerate.

N. B. We can safely recommend the above men-tioned stove to persons who wish to emhask in a good business The patentes will sell either county or state rights, to suit purchasers, and on resnalde terms. He or his agents may be found in Danville, Pa. J. & J. ARTER. Danville, Pa.

The undersigned, Laving seen in operation the hot hisst hot sir cooking store, invented and pa-tented by J. M. Thaicher, certify that we believe, from the manner of its construction and operation. that it is the best one ever offered to the public. The arrangement is so complete and the construction so judicious, that there is a saving of one half the fuel and time, in doing any given amount of a rvice, over other celebrated stoves. In short we recomment it in preference to all others, for the simple reason that it embraces every branch of economy Samuel Garrett, John W Garrett, David Chatfield, W F Kitchen, John M Grav, E Thompson, Smith Thompson, J D Hahn, John Oakes, Heatki-

V. Early Intelligence of all important move ments in the Legislatures of Great Britain and France will be communicated by every steamer from Europe, through reporters in London and Paris, who possess peculiar facilities for obtaining information

VI. The General News of the Day will be given a condensed form, with industry and attention VII. Reports of Arguments before the Supreme

Gourt of the U.S. This department will be so conducted as to make the "Reporter" indispensa ble to every lawyer in the country.

Such is a brief view of what the "United States Reporter" is designed to be. All the plans and arrangements have been well matured, and the hope s confidently cherished, that the "United States Reporter" will prove itself an energetic, industrious,

dignified and perfectly independent journal. It will have no party views-no political bias. The proprietor, by the terms of his contract wi h the Senate of the U. S., is bound to the condition that "the paper shall contain no political discussions except the debates." It will be the vihicle of news -not the organ of any set of opinions. The grand aim of the subscriber is to establish at the seat of Government a faithful and promy t reporter of all sorts of intelligence-s responsible sgent, on whom the politician, the business man, the manufacturer the mechanic, and every one interested in the affairs of Congress and the Government, may rely at all times with implicit confidence.

It is telieved that the establishment of such a reliable i winal of intelligence on terms which place it within the reach of the great masses of the people, at the commencement of what promises to be a most interesting and eventful period in the history of Congressional proceedings, will be regard with favor by all classes of the community ; and having thus stated his objects, the subscriber respectfully olicits a liberal and genercus support from the enlightened public of the United States. SHAVING CREAM. Small quantities given without Charge.

At 114 Chenut St., PHILADELPHI.I.

THIS new and splendid article, a. its name de-A notes, is professed to be superior to any Sha-ving Cream in the United States or Europe. It is unsurpass d for beauty, purity and fragrance, the comewhat analagous to Guerlain's Ambrosial Gream and other similar compounds. It far sur-

passes them all by the emclient pasty consistency of its lather, which so softens the heard as to render shaving pleasant and casy. It further possesses the advantage over the imported article, in being freshly propared, no skill being wanting in its man ufacture. E. Roussel having had many years' experience in the celebrated Laboratory of Laugur,

Pere et Fils, now Renaud & co., of Paris, Besides being the best, it is the cheapest article for shaving ; it is elegantly put up in boxes, with splendid steel engraved labels.

Price \$3 per dozen, or 374 cents for a single box, to shave one year. It is also sold at \$1 50 per lb. or 124 cents per oz., so that gentlemen can have their boses filled at EUGENE ROLSSEL'S, Wholesale and Retail Perfumery and Mineral Water Establishment, 114 Chesnut Street.
