Facts about Digestion.

Many popular notions about different articles of food (and there are few subjects upon which people indulge more notions,) are totally dis proved by scientific facts. We propose to write fown a few well established truthe, respecting the relative quantity of cutriment in different kinds of food, and the relative time occupied in their digestion.

In the first pince, however, we would remind our readers, that it is by no means the article containing the greatest proportion of nutritious substance, which takes soonest the form of blood and other necessary elements of animal life -Neither is the most physical strength supplied by the articles containing the most nutriment. Nuts are almost entirely composed of nutritions material, oil; potatoes contain eighty-eight parts of wasted matter to twelve of nutriment. Yet the latter impart far more strength to the body than the former. Bread is more nutritious than meat; but meat is stipulating as well as nutritive, and is supposed to strongthen the bodily functions more than bread.

Another important fact to be remembered in this connexion is, that all stomache are not alike, and that the calculations given below are applicable to a healthy stomach. What proportion of healthy stomache is in the world, we do not know; but the probability is, that in the majority of cases, food is not digested as rapidly as here stated. In some stomache, food of a particular kind ferments, which interferes with complete digestion. This happens most frequently with regard to vegetables-saw-dust doctors to the contrary notwithstanding.

In general, however, the most nutritious and most easily digested are the best for health and strength.

Wheat is the most nutritious of all substances except oil; containing ninety-five parts of nutriment to five waste matter. Dry zeas, nuts. and barley, are nearly nutritions as wheat, Garden vegetables stand lowest on the list, inasmuch as they contain, when fresh, a large proportion of water. The quantity of warte matter is more than eight tenths of the whole. Only one-fortieth of cucumber is capable of being converted into nutriment. The nutritious part of different ment varies from one-fifth to oneeighth of the whole. Veal is the most nutritious; mutton next, then chicken; then beef; last pork. Fruits vary between two and three tenths of nutritious matter, and their order is as follows, the most nutritious being placed first : plums, grapes, apricots, cherties ; peaches, gooseberries, apples, strawberries, mellons. Milk contains less than one-tenth of nutritious matter, as it is mainly composed of water.

Of all articles of food, boiled rice is digested in the shortest time-an hour. As it also contains eight tenths of nutritious matter, it is a valuable substance of diet. Tripe and pigs feet (strange to tell) are digested almost as rapidly. Apples, if sweet and ripe are pext in order .-Venison is digested almost as soon as apples .--Roasted potatoes are digested in half the time required by the same vegetable boiled, which

DR. SWEETSER'S ABBARADA

THIS Medicine is warranted, on oath, not to contain a particle of Calomel, Corrosiva Sub limste, Arsenic, Chloride of Gold, or any delete

The principle upon which this Medicine acts, is by amisting and harmonising with nature; it drives out all foul acrimonious humors from the blood and hody, and by animilating with and strengthening the gustric juice of the stomach, it assists digestion; in short there is not a voin, artery, muscle or nerve in the human budy, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the hones and joints.

par FOR ERUPTIONS OF THE SKIN. Scurvy, Scothasic Affections, Tumora, Scrifala or Kings' Evi, White Swellings, Ery-spelas, Ulcera, Cancera, Running Sores, Scats and Biles, time and a determined perseverance in D. SWEET SER'S PANACEA, will effect a cure.

FOR IN DIGESTION.

Rejection of food, Nauses, Vomitings, Nervous of tetions, Billious complaints, Head ache, Palences,

r Female Irregularities, Dr. SWEETSER'S PA-NACEA will soon effect a cure ; but if obstinate, or attended with griping. flying pains, the dose should be increased, and the cure will soon be ef fected. Let not the patients frighten themselves with the idea that they are too wesk to take much medicine; but bear in mind that this mildly operating med cine put not weakoess into the frame, but most certainly draws weakness out, leaves strength in its place, and by giving composed sleep at night. and an appetite to relish any food, re-animates the whole frame wi h vigorous action, clearing the mind and improving the sight. pu

Scrofula is said to be heriditary, the infant.re-ISSUE D ceiving from its papepts the seeds of this disease. which increases with its years, if material, and not submitted to frequent purification, with Dr. SWEETSER'S PANACEA. The glands are pla-ced in the corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of opinion prevails ; it suffices us to know that when in a diseased state. they are capable of being purified and cleansed by a long course of Dr. SWEETSER'S PANA-CEA, which restores them to sound and proper sction. Scroful us persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perseverance, they will ever cure hereditary disease.

In cases of JAUNDICE, ASTHMA. LIVER failed COMPLAINTS, TIC DOLOREUX RHEU MATISM OR RHEUMATIC GOUT, Dr. SWEETSER'S PANACEA cannot be too high ly estalled ; it searches out the very root of the disease, and by removing it from the Blood makes a cure certain and perminent. For diseases of the Bladder and Kidneys, Spic-

tures, Gravel Stone, Piles, Fistula, Ucinary Ob-structions and Extreme Costiveness Dr. 8 W EET-SER'S PANCEA is the best remody ever trel; it removes all those actimonious humors from the Blood which give rise to the above diseases, and by keeping the blood in a pure condition, insur-

For DROPSY, FALLING OF THE BOWELS, Impurities of the Blood, Mercurial Taint, Weakness of the Spine Flow of Blood to the Head Gid-diness, Singing and Buzzing Noise in the Head and Ears, D. SWEETSER'S PANACEA will give certain relief; in all severe and chronic cases the patients cannot be too often reminded that larger doses and perseverance will effect a cure. In Chills and Pevers. Bilious Ferers, Affections of the Eyes and Eurs, Spongy and Bleeding Gums Branchits and recent Coughs and Colds,

Dr. SWEETSER'S PANACEA will be found

tain, it should be continued some time after, to free the system of all bad buinters.

RHEUMATISM, RHEUMATIC GOUT AND MERCURIAL DISEASES

Find a safe and speeily cure in Dr. SWEET. SER'S PANACEA. It cures by searching every blood ves-of and artery, and driving out all impu rities and foul humors secumulated therein, which is the cause of th umstism, gout and swellings of the joints. The deleterous effects of calomel and ther mineral poisous, readily yield to its sovereign affuence ; indeed, when its valuable properties beome fully known, the use of all miner I poison will e consigned to the tomb of all the Capit only be thought of as a by-gone custom of the dar-ker ages. Dr. Sweet-er's Panacea is also a sure cure for dyspepsis, piles, contivepess, vertigo, head-sobe, pain in the breast and liver complaint.

FEVER AND AGUE.

Fever is always caused by a disorderly movenent of the blood, struggling to free itself of something that encumbers it ; in fart, every kind of fever is nothing more than a struggle between the blo-d and corrupt humors, and as soon as the corrupt humors are expel ed. you have no more fever When a patient with fever submits to be bled, o have his blo-d poisoned with mercury, it weakens his frame to such a degree that if he survives the process, it always leaves him subject to distreasing chills, when 9 times out of 10 he resorts to ague pills, powders, or tonic mixtures; this is going from had to worse, as these regetable pills, powders, &c., are nothing but mercury and quinine in disgular, which may for a time drive the disease so far int the body as not to be perceptible, but very soon it will bre k out again with fearful violence. To cure ague and fever, the cause of the dises-e must be removed out of the blood and body, which can be effectually done by using Dr. SWEETSER'S PA-NACEA, which purifies, circums and strengthens, It coulsing nothing that can possibly injure, and its use is always a safeguard against chills and fevers.

PILES. In ALL CASES OF PILES, Dr. SWEETSER'S

PANACEA will effect a very speedy cure. It re-moves from the blood, storach and bowels, all those foul acrid burning humors, which are the cause of Piles and Costiveness, and by strengthen-

ing the digestive organs, improves every part of the FLATULENCY AND WIND. These diseases are cau ed by the stomach and sowels being choked up with viscid alimy matter, the air which enters them cannot e cape until forced by some contraction of the somach to expel it

hence the cause of pain. A few doses of Dr SWEETSER'S PANAUEA will convince the sufferer that relief is attained GREAT METICINE FOR CHILDREN.

DISEASES OF THE LUNGS_CONSUMPTION.

This is a very prevalent and fatal disease ; it reults mostly from neglected coughs, colds and bronchitis, also from improper treatment in many other cases, such as measles, fevers, inflammations and -mall pog , and a host of other badly treated diseases; where the cause, instead of having been thoroughly removed from the blood and body, have only bren pulliated or removed from one part to break out in another. By divesting your bodies of all foul hunors, through the medium of Dr. SWEETSER'S PANACEA, the cure is at once rendered cortain and permanent. R-collect, while there is acrimnious humars fosting in the circu's tion, it is as and to settle on the lungs as any other part of the body this is the reason that consumption is so prevalent

BILES, SORES AND ULCERS,

Which you see on the exterior, come from and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and pto duce most violent inflammatory disorders. This humor which occasions these sores is of a highly acrimonions burning noture. We know it from the pain it gives in forming, and afterwards its rapidly sicersing and corr ding the flesh and skin of the part where it brisks out. This shows the necessarily of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such maliguant humora in sur jection. Hhould you have a bile or ulcer, be thinkful that nature has taken muble to wars you of the danger your life and bo dy is in, for it is a warning thet the blond is foul, Had this same advisions a beded the lungs in trad of the surface of your body for its seat, consumption of the lungs wou'd have been the consequence. Under this head may be closed Palpitation of the Heart, Tic Doloreaux or Faceache, Neuralgia, Indigention, Toothache, Melancholy, Hysterics, and in fact, every disease caused by the sharp, biting acrimonious humors irritating the nerves; the nerves receive the morbid impression from the sto-mach, or rather from the blood through the agency of the stomach and dige-tive organs, and although other parts of the body are apparently the sent of the disease, still it is caused by the morbid impres-sion conveyed from the blood by the nerves, to that part. A few doses of Dr. SWEETSER'S PA-NACEA will soon assure the patient that he has he cure in his possession.

ERVSIPELAS, on ST. ANTHONY'S FIRE This is no inflammatory disorder, plways strend ed with more or less pain. It proceeds from the foul, scrimonious humors lodged in the blood and fluids, settling on the lim's and face, causing ex-treme pain and fevers ; all applications on the surface are worse than useless, as they only tend to throw the disease in some other part, and perhaps rause death. Blending is likewise improper. To cure the disease you must get rid of the cause ; on-ly manage to get the foul humors out of your blood. and you will be well in a day. Dr. SWEET-SER'S PANACEA, a thorough purifier of the blood, will search out every impurity in the more remote pirts of the body and expel it through the medium of the bowels. There is not a vein, artery, muscle or organ of the entire framework of man, that Dr. Sweetser's Panaces does not im prove.
