

Youth and Age.

I often think each tottering form That limps along in life's decline, ace bore a beart as young, as warm, As full of idle thoughts as mine ! And each has had its dream of joy, His own unequall'd pure romance Commencing when the blushing boy First thrills at lovely woman's glance. And each could tell bis tale of youth, Would think its scenes of love evince More passions, more unearthly truth, Than any tale before or since. Yes ! he could tell of tender lays At midnight penned in classic shades, Of days more bright than modern days-And maids more fair than modern maids. of whispers in a willing ear, Of kisses on a blushing cheek, Each kiss, each whisper, far too dear, Our modern lips to give or speak, f passions too untimely crossed ; Of passions slighted or betrayed-I kindred spirits early lost, And buds that blossom but to fade. beaming eyes and dresses gay, Elastic form and noble brow, nd forms that have all passed away, And left them what we see them now ! And is it thus-is human love So very light and frail a thing?... and must youth's brightest visions move Forever on Time's restless wing ? Must all the eyes that still are bright, And all the lips that talk of bliss, and all the forms so fair to sight, Hereafter only come to this ? "hen what are earth's best visions worth, If we at length must lose them thus ? fall we value most on earth Ere long must fade away from us?

These SCROFULA AND GLANDULAR AFFEC. TIONS Scrofula is said to be heriditary, the infaut redo no ceiving from its parents the seeds of this diseas which is creases with its years, if neglected and not solunited to frequent purific tion with Dr. SWEETSER'S PANACEA. The glands are pla-

end in the corners of the body, and out of the way of direct communication ; their real are is a subject on which much difference of opinion prevails; in suffices us to know that when in a d seased state they are capable of being purfied and ele-need by a long course of Dr. SWEEPSER'S PANA-UEA, which restores them to sound and proper action. Scroful us persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perstverance, they will ever cure heredit iry disease.

In cases of JAUNDICE ASTHMA, LIVER failed COMPLAINTS, TIC DOLOREUX RHEU MATISM OR RHEUMATIC GOUT, Dr. SWEETSER'S PANACEA cannot be too high ty extalled ; it searches out the very root of the lisease, and by removing it from the Blood makes a cure certain and perm nent.

RHEUMATISM, RHEUMATIC GOUT AND

MERCURIAL DISEASES Find a safe and speedy cure in Dr. SWEET SER'S PANACEA. It eners by aestching every blood vessel and artery, and driving out all impu rities and foul humors sccumu'ated therein, which is the cause of rh umatism, gour and swellings of the joints. The deleterous effects of calomel and other mineral poisons, readily yield to its sovereign influence ; indeed, when its valuable properties he come fully known, the use of all miner I prison will e consigned to the tomb of all the Capulets,' and only be thought of as a by-gone cu-tom of the dar. rages. Dr. Sweetser's Panaces is also a sure cure for dyspepsis, piles, costiveness, vertigo, brad-sche, pain in the breast and liver complaint.

FEVER AND AGCE.

Fever is always caused by a disorderly move-ment of the blood, struggling to f ee itself of something that encumbers it; in fact, every kind of fever is nothing more than a struggle between the blo d and corrupt humors, and as soon as the cor raut humors are expel ed, you have no more fever. When a patient with fever submits to be bled, or have his blo d poisoned with mercury, it weskens his frame to such a degree that if he survives the process, it always haves him subject to distrussing chills, when 9 times out of 10 he resort. to ague pills, powders, or tonic mixtures; this is going from had to worse, as these vegetable pills, powd rs, &c. are n thing but mercury and quinine in disguise, which may for a time drive the disease so far intethe body as not to be perceptible, but very soon it will bre k out again with fearful violence. To cure saue and fever, the cause of the disease must be re-moved out of the blood and body, which can be eff-rtually doue by using Dr. SWEETSER'S PA-NACEA, which purfies, cleanses and strengthens. It contains nothing that can possibly injure, and its use is always a safeguard against chills and fevers.

PILES. In ALL CASES OF PILES, Dr. SWEETSER'S PANACEA will off et a very speedy cure. It removes from the blood, stomach and bowels, all those foul acrid burning humors, which are the cause of Piles and Costiveness, and by strengthening the dig silve organs, improves every part of the

FLATULENCY AND WIND. These dise ses are cau ed by the stomach and howels being choked up with viscid al my matter, he air which enters them connot e cope until forced by some contraction of the somach to expel it herce the cause of pain. A few doses of Dr. SWEETSER'S PANAUEA will convince the

aufferer that relief is attained GREAT MEDICINE FOR CHILDREN.

Parents will find the PANACEA a volumble medicine for their children, keeping their bodies in a healthy e ndition, thereby assisting their g o will; children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the online system in a strengthened state ; it drives out al kinds of weakness from the body and leaves

Il heal by within. MARRIED LADIES Will find Dr. SWE ["ER'S PANACEA + medi the purely adapted to their use. Most ladies duing the peri d of pregnancy are afflicted with piles. Dr. Sweetser's Panaces, by regulating the bowels.

will entirely obviate this, and its purifying properties on the blood and fluids, insures to them thy off pring. No one who is a mother should be without it, and those who are pursing will find it of great b n. fit to the health of their infants.

For battermess and all diseases of the womb. is without a rival in the entire history and catalogue of medicines; by its extraordinary strengthening power, it stimulates and strengthens the womb, a weakness of which is the cau-e of failure to have offspring.

NERVOUS DISEASES. may be classed P the Heart, The Doloresux or Faceache, Neuralgia. Ind geniton, Toothache, Melancholy, Hysterics, and in fact, every disease caused by the shorp, biting actimonious humors irritating the nerves; th perves receive the morbid impression from the stomach, or rather from the blood through the agency of the stomach and dige tive organs, and although other parts of the body are apparently the seat of the disease, still it is caused by the morbid imp esi in conveyed from the blood by the nerves to that part. A low doses of Dr. SWEETSER'S PA-NACEA will soon assure the patient that he has the cure in his possession. ERYSIPELAS, on ST. ANTHONY'S FIRE. This is an inflammatory diso der, always attend ed with more or less pain. It proceeds from the foul, acrimonious humors lodged in the blood and Buids, settling on the bin's and face, causing ex-treme pain and favers ; all applications on the surface are worse than useless, as they only tond to throw the disease in some other part, and perhaps cause doth. Bleeding is likewise improper. To cure the di-ease you mu-t get rid of the cause ; only manage to get the foul humors out of your blood. and you will be well in a day. Dr. SWEET. SER'S PANACEA, a thorough purifier of the blood, will warch out every impurity in the more remote ports of the body and expel it through the medium of the bowels. There is not a vein, arte ry, muscle or organ of the entire framework of man, that Dr. Sweetser's Panaces does not im prove. To take it when you are well is to keep well: and when sick to become wall. DR. SWEETSER'S PANACEA, being composed only of a vegetable matter, or medical nerbs, and warranted, on oath, as containing not one particle of mercurial, mineral, or chimical substances, a found to be perfectly harmtess to the most tende age, or the weakest frame, under any stage of hunan suffering ; the most pleasant and benign in its geration that was ever off red to the world; and at the same time the most certain in searching out the root of any complaint, however drep, and of performing a core. A CARD. HAVING had the pleasure of trying the excel-tent Pinuo Fortes manfactured by Mr. Meyer, and exhibited at the last exhibition of the Franklin Institute, I feel it due to the true merit of the maker to declare that these instruments are quite equal and in some respects even superior, to all the Pisano Fortes, I saw at the capitals of Europe, and during a sojourn of two years at Paris.

Thes Pisnos will be sold at the manufacturer's west Philadelphia prices, if not something lower. Persons are requested to call and examine for themselves, at the residence of the subscriber. Sunbary, May 17, 1845. H. B. MASSER.
