Wilmington, N. C., Jan. 12th, 1847.

Dn. Swayne—Deer Sir: Having been almost mireculously cured by your valuable medicine, I think it not more than common gratitude in me to make one addition to the long list of certificates which you have received of remarkable cures by your medicine. During the two years proceeding last August, I was very much distressed by a very bad cold and racking cough, and during the latter part of the time it continued to grow worse, and indeed, in July my friends gave me over, having tried all kinds of medicine, said to be good for such diseases, without the least good effect. I was reduced almost to a perfect corpse, and had scarcely any flesh upon my body, and for a long time never thou bt to rise from my bed again. A friend one day asked me if I had tried Dr. Swares's Compound Syrup of WILD CHERRY, and advised me to do so at once, as be heard that it had worked a great many wonderful cures. I took his advice, and offer using up several bottles of it, I grew so much better that I was enabled to leave my bed, and afterwards to walk about the house, and go out into the street. I was encouraged by this, and continued the use of your medicine, and now, by means of its wonderful curative powers, I am perfectly well, and enjoy the use of all my faculties, just as much asif I had never been office d in the way I described to you. I have written this not thinking that it will at all interest you, but humbly hoping that it will have its mite of influence in causing your valuable medicine to be spread among mankind, and in assisting to take you to that station which you richly deserve, for your persevering eff its for the public good.

Respectfully your friend and admirer.

DR CULLEN'S

STILL ANOTHER CURE. Tassas. Rowarn & Watter.—Gentlemen,
—It is with pleasure that I give you the
following history of my case, which, from its severity and long continuance under the best medical stiendance I could procure, affirits a striking illustration of the wonderful superiority of your Dr. CUT-LEN'S INDIAN VEGETABLE PANA-

CEA over all the popular remedies of the day.
It was my misfortune to inherit Scrofula, which made its appearance (as my mother informed me) when I was but a few months old, but was not very troublesome until my 25th year, when it attacked my right ellow, and stiffened the joint. About eight years after this, it made its appearance on my arm again, almost covering it with ulcers. At the same time it attacked my throat also, filling with ulcers. My tongue became frightfully swol-

I applied to one of the most skilful physicians in Norristown, Pa., where I resided at the time, but the disease seemed beyond his reach. He advised me to come to Philadelphia and consult the late Dr. Parrish. I did so, and was under his care for a short time, when he advised me to return home. as my physicism could do as much for me as he could. This was certainly not very encouraging. I returned, and was for four or five years most of the time under trestment, when the Doctor inform ed me that his resources were exhausted, and I was at liberty to try any thing I thought would do me

I then took Oakley's Sarsaparilla, which at fire seemed to do me good, but soon lost its power, and was discontinued. I have taken Swaim's Panacea. Marshall's, Houck's, Leidy's and other preparations of Saramarilla, without effect. My throat was still ulcorated, my palare entirely carried away, my face and nose much swollen, and exceedingly pain-

Thus matters stool in January last, when I commenced with Dr. Cullen's Indian VEGRTABLE PANACEA, and I frankly confess, if your medicine had required FATTR to ensure a cure, it would have failed in my case; for I had tried so much trash that my confidence in medicine was gone; and it was only as a drowning man will grasp a straw, that I commenced with the Panaces.

But strange us it may appear, the inflammation and soreness were almost entirely removed in 36 hours, satisfying me that I had got hold of a medcine which I had not used before, and which would cure me. My anticipations have to all appearance been realized, for I am healthier than I have been for seventeen years. My skin has a sume I a healthy appearance. My head, which had troubled me for so many years, is now free from all disagreeable sensations; my throat is sound; and so far as I can judge, the disease is completely eradicated

I shall be happy to give any further information to any who choose to call upon me at my residence in Poplar street, first house east of Eighth street. JOSEPH BARBOUR. north side. Philadelphia, June 23, 1846,

This Medicine is offered to the public under the assurance that there is no article in existence having stronger claims to their consideration. Being compounded by a regular Graduate of Jeffer-son College, Philadelph a, and a practising physi-cian of twenty years' standing in Philadelphia, his long experience has confirmed him in the opinion that a compound medicine was required to prevent and remedy the debilitation pr duced by residing in low, mis-matic climates, and to counteract the pro trating influences of many nervous disorders with which the human family are afflicted.

Dr. G. also witnessed its wonderful off ets in curing Asthms, which it never fulls of doing. Spitting Bloo I, nlar-ming as it fluy be, is effectually cured by this Balsam. It heals the ruptured or wounded blood

vessels, and makes the lungs sound again. Rev. HENRY JONES, 108 Eighth avenus, was cured of cough and catarrhal affections at 50 years standing. The first dose gave him more relief than all the other medicine he had ever taken. Dr. L. J. Beals, 19 Delaney street, gave it to a sister-in-law who was laboring under consumption, and to another sorely affected with the Asthma. In both cases, its effects V ore immediate, soon re-

Sherman's Balsam relieved her at once, and she is comparatively well, being enabled to subdue every attack by a timely use of this medicine. This indeed is the great remedy for Coughs, Colds, Spitting Blood, Liver Complaints, and all the aff ctions of the throat, and even Asthma and Consumption.

M. A. McCAY, Northumberland.

THE children began to cry for Sherman's Lozenges. The noise was not so loud at that time, but it has kept increasing ever since, and now has become so great that the mouths of the hule ones can scarce be stopped. Dr. Shermon sympathises with the little sufferers, and v.rv much regrees that any of them should be disappointed. Knowing the vast benefit which has been conferred upon the community by the introduction of his infallible

WORM LOZENGES,
he has entered into arrangements for enlarging his
Manufactory, by means of which he thinks he will he able to supply the demand. And the same paint and care will be taken, that these colebrated Lozenges he made so they have always been, in order that those who depend upon them, may not be disappointed in their hopes. He knew when he commenced the manufacture of the Worm Lozenges, that they would supersede the use of every other vermifuge, as the Lozenge is very pleason to the taste, speedy in its effects, as well as certain, and the quantity required to effect a perfect cure, is very small. These properties in connexion with the f ct that they are sold for 25 cents per box, thus pl cing them in the reach of the poorest man in the land, has not only caused them to take the place of every other vermifuge ever offered, but al so rendered them popular to the community.

Or. Sherman's
COUGH LOZENGES
continue to cure Coug's, G. Ida, Consumption,
Asthma, shortness and difficulty of Breathing, and other disea es of the Lungs, with the same ficility they did on their first introduction, and the people have now become persuaded by actual experience, that on the accession of a slight cold, they have only to step to either the Dr's office, or one of the Agents, and obtain a box of his Cough Legengre. which are very convenient to carry in the pocket. and to take a few through the day. By pursuing this course a cure is often effected in 24 hours, and the patient about his busin as. So great is the colebrity of the Loz-nges, that thousands of persons who have used them, and become sequenced with their effects, will never be without them.

POOR MAN'S PLASTER
has cured more cases of Rheumatum, Pata in the
Back, Side and Chest, Lumbago and Weakness, than any application that has ever been made. As the celebrity of the Plaster has increased, hundreds of unprincipled rascals have attempted to counterfeit it, and palm it off upon the community as the genuine. D Beware of Deception. D Remoin ber that the true and genuine Plaster is aprend upon reddish paper made expressly for the purpose, and in every case the signature of Dr. Sherman is p int dupon the back of the Plester, and the whole secured by Copy Right. None others are genuine. Therefore when you want a real good Sherman's Poor Man's Plaster, call at the office, 106 Nassau street, and you will not be disappointed.

DIR. LIE HOTE Vegetable Universal Pills. The only known Medicine that at the same sime purges purifies and strengthens the system

LORDON, July 7, 1846.

R. LE ROY'S Pills are a new medicine which has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparilla and Wild Cherry, so united that they act together; the one, through its admixture with other sub-tinces, purifying and purging, while the other is errengthening the system. Thus those pills are at the same time tonic and opening; a desideratum long and eagerly sought for by medical men, but never before discovered. In other words they do the work of two medicines, and do it much better than eny two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no ilitation, and are followed by no re-action. Pr. Le Roy's pills have a wonderful influence on the blood; they not only purify without weakening it, but they remove all pratious particles from the chile before it is converted into fluid, and thus make inpure blood an utter impossibility. As there is no debilitation, so there is no nausea or sickness attending the operations of this most excellent of medicines, which never strains or toringes the digestive functions, but causes them to work in a perfectly natural manner; and hence persons taking them do not become pale and emociated, but the contrary; for while it is the property of the Sursa-parilla, united as it is with other ingredients to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united opera-Agents for Le Roy's Pills,
