From the North American. Review of the Weather. FOR DECEMBER. 1847

The month just closed produced not only s great variety, but some uncommenty mild weather for a winter month. Yes some of her days April and May would not blush to own, particularly the 10th, 13th, 13th and 14th. During the 14th, from 11 to 3 o'clock, the mercury in a perfeet shade was 68, and being placed facing the rtreet, where the sun shone on the opposite buildings, it rose to 70, which circumstance has not occurred before, in the month of December, since 1528; the medium temperature of that month being 38, which is six degrees above the freezing point. December, 1823, '26, '27, and 1828, were the mildest months of December that we have on our record : their medium temperature being 36. 37 and 38. The past month was 39.

The last morning in November, 1847, at sunrise, the mercury was only 12 above zero in this city, which is 20 below the freezing point. At the same hour on the 1st December, the mercury was 21, but during the day the wind southed. and at sucrise on the 2d December the mercury had run up to 50, making a difference of 26 degrees in 24 hours, and 38 degrees in 48 hours. With the exceptiion of a very few days, the weather continued mild until the 15th, which was a clear, cold, bracing day, and almost every one hailed it as the barbinger of more seasonable weather. The 16th, however, brought with it rain. hail, snow and a chilly easterly wind. The 17th was overcast, damp, and drizzly, with the wind IRW east.

The 18th commenced cloudy, but the atmosphere soon became clear and cool, with the wind N. W. The 19th was alternately cloudy and clear. The 20th was clear and mild. The 21st and 22d were overcast, chilly and damp. The 23d was clear A. M. but cloudy P. M., and about a half inch of snow fell in the evening. The 24th was a clear and splendid day. The 25th (Christmas) it snowed moderately all day, and 2 to 3 inches fell. The 26th and 27th were clear and cold. At sunrise on the 26th, the mercury was 16 above zero, and it did not rise above 23 during the day. At sunrise on the 27th, the mercury was only 11 above zero, and it did not rise above 21 during the day. On the morning of the 28th, the mercury was 25, and at mid day 30-On the 29th, it was 28 at sunrise and 42 at midday. On the 30th it was 32 at sunrise and 46 at mid-day; and-there was dense fog during the whole day. On the 31st at sunrise, the mercury was 46, and at mid day 53.

There were, during the month, but seven clear days. Five that were alternately cloudy and clear. Twelve in which some rain fell. Four in which some snow fell, making in all about four inches. And seven that were either hazy or foggy, or both.

The medium temperature of the month was The quantity of rain that fell was three and

three quarters inches. A Remarkable Fact .- November, 1847, pro-

duced the coldest day in Philadelphia for a November month, for 58 years, viz: the mercury was only 12 degrees above zero. And December, 1817, the warmest day for a December month for the same period, viz : 70 degrees.

COSTLEY UNIFORM -Gen. Valencia, who was so bidly whipped by Gen. Smith at Contrens, possesses one requisite, and the chief requisite, of a great Mexican General: he has a most splendid and costly uniform. It is said that when in full dress he bore upon his distinguished person at least \$20,000 worth of gold, diamonds, and precious metals. What a salendid capture he would have been to some of our ragged boys ! No wonder he ran so fast when Riley charged his batteries. He had something to run for though how he made such good time under such a heavy load, was a wonder to everybody. We understand, however, that the General was in very bad spirits-we mean nothing against the quality of the spirits with which he quenched the valor of his soul, and kept the cold off his stomach-on the memorable night of the 19th August last; but he was disheartened by the absence of a magnificent jewelled sword which cost \$10,000, and which, under a moneyed pressure, he had left "in sonk," at the Monte Pio. This sword is now to be seen in Mexico and was pawned for \$1500. Its absence at Contress has been assigned by Valencia's triends as one of the causes of his defeat at Contreras.

It would be an interesting contrast to estimate the comparative value of the respective uniforms of Gen. Valencia, the conquered, and Gen. Smith, the victor, at Contreras. The result will throw much light upon the great leading distinctive traits of American and Mexican character. Without meaning to impugn the richness and extent of Gen. Smith's wardrobe, we do not think it extravagant to estimate the value of the old dark blue coat and lightish blue pants, sixbit glazed cap, cork soled boots, and service sabre, worn by the Hero of Contreras on that memorable day, as of the value of \$15. We doubt whether any of our little Jew tailors would not think that amount enormous.

But the "inward man" of these Generals is not less striking in contrast than their "outward | State Bank" man." The showy and costly exterior of the one covers a vain, faithless, cowardly heartwhilst the plain, simple, and unpretending appearance of the other gives token of the dauntless beart and indomitable character, which made him the Conqueror and the Hero.

SURPRISING AGILITY .- A story teller in a Boston paper says :- "I felt considerable frieky one day, and I went up the lightning rod, hand over hand, as high as the vane. I had a prospoct there-but that ain't all. A thunder cloud came over, and I saw it was going to strike the steeple, and thinks I to myself, if it hits me I'm done up. So I got ready, and when the crack came, I gave a lesp up, let the lightning strike and run down, and then I caught again !"

Those complaints are generally attended with the most fatal consequences, and are seldom or ne. ver cured by the present mode of treatment; they usually accompany the patient to the grave, after suffering the most excruciating pain and torture. The cause of these complain s are the same as all thers the dross of the blood becomes encrusted on the finest narrow passages, whence are morbid failed secretions and stoppages of urine. You will find closed the most powerful dureties of no use, as they only increase the quantity of urine and do not putify no sale closed and strengthen the parts. By purifying the blood with Dr. SWEETSER'S PANACEA, you re failed move the cause of the disease, consequently it cannot exist any longer, after sufficient perseverance in its use has deprived the blood and body of all failed

acrimonious humors and incrustation. DISEASES OF THE LUNGS-CONSUMPTION

This is a very prevalent and fatal disease; it results mostly from neglected coughs, colds and bronchitis, also from improper treatment in many other cases, such as measles, fevers inflammations and ental pox, and a host of other ladly treated diseases; where the cause, instead of having been thoroughly removed from the blood and body, have only been palliated or removed from one part to break out in another. By divesting your bodies of all foul humore, through the medium of Dr. SWEETSER's PANACEA, the cure is at once rendered cortain and permanent. Recollect, while there is acrime nious humors floating in the circu'ation, it is as apt to settle on the lungs as any other part of the body this is the reason that consumption is so prevalent.

BILES, SORES AND ULCERS, Which you see on the exterior, come from and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and produce most violent inflammatory disorders. The humor which occasions these sores is of a highly acrimonions burning nature. We know it from the pain it gives in forming, and afterwards its rapidly ulcerating and corriding the flesh and skin of the part where it breaks out. This shows the necessity of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such malignant humors in subjection. Should you have a bile or ulcer, be thankful that nature has taken trouble to warn you of the danger your life and bo dy is in, for it is a warning that the blood is foul, Had this same acrimony selected the lungs in tend of the surface of your body for its seat, consumption of the lungs wou'd hav been the consequent Delay not then, to purify and cleanse with Dr. Sweetser's Panaces.

SPINE DISEASE Spinal affections, enlargement of the bones and joints, white swellings, bip joint complaint, ruptures, falling of the bowels and wom's disease, will find a speedy oure in Dr. SWEETSEK'S PA-NACEA. Where the disease has been of long standing, the time required to make a cure will be longer; but the patient may rest assured that a determined perseverance will effect it.

BRONCHITIS, ASTHMA AND DISEASE OF THE WINDPIPE.

These diseases proceed from the seriosity or corrupt humors of the blood, having settled itself on the throat and lungs, and stopped them up, so that they cannot draw sufficient air in for respiration. Dr. SWEETSER'S PANACEA will give immediste relief, and to make the cure perfect and cer-

tain, it should be continued some time after, to free the system of all bad humors.

Vegetable Universal Pills. The only known Medicine that at the same time purges purifies and strengthens the system.

Loxnox, July 7, 1846. PR. LE ROY'S Pills are a new medicine which has just appeared, and is fast taking he places of all others of the same class. These pills are composed of many ingredients, but the wa principal ones are Sarasparilla and Wild Cherry, so united that they act together; the one, dirough its admixture with other sub-treces, purifying and purging, while the other is strengthening the system. Thus those pills are at the same time unic and opening; a desideratum long and eagerly sought for by medical men, but never be-fore discovered. In other words they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no debilitation, and are followed by no re-action. Dr. Le Roy's pills have a wonderful influence on the blood; they not only purify without weakening it, but they remove all prixious particles from the chyle before it is converted into fluid, and thus make impure blood an utter impos-ibility. As there is no debilitation, so there is no nauses or sickness attending the operations of this most excellent of me-dicines, which never strains or tortures the digestive functions, but cau-es them to work in a perfeetly natural manner; and hence persons taking them do not become pale and emocisted, but the contrary; for while it is the property of the Sarsaparilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united operations. The aversion to taking medicine is most effect tually removed by CLICKNER'S VEGETABLE PUR CATIVE PILLS, being completely enveloped with conting of pure white Sugar. (which is as distinct from the internal ingredients as a nut shell from the kernel) AND HAVE NO TASTE OF MEDICINE,

But are as easily swallowed as bits of candy Moreover they neither nauseate or gripe in the slightest degree, but operate requally on all the diseased parts of the system, instead of confining themselves to, and racking any particular region Thus, if the Liver be affected, one ingredient wil operate on that particular organ, and, by cleansing of an Excess of Bile restore it to its natural state. Another will operate on the B'ood, and remove all impurities in its circulation; while a third will effectually expel whatever impuritiemay have been discharged into the stomach, and hence they strike AT THE BOOT OF DISEASE, remove all Impure Humors from the body; op n the pores externally and internally; separate all fore gn and ob oxious particles fron the chyle, so that the blood may be thorough'y pure—thus secu-ring a free and bealthy action to the Heart, Lungs and Liver; and thereby they RESTORE HEALTH E-VEN WHEN ALL OTHER MEANS HAVE PAILED.

The entire truth of the above can be ascertained by the trial of a single box; and their virtues are so positive and certain in restoring Health, that the proprietor binds himself to return the money paid for them in all cases where they do not give universal satis action.

Remember Dr. C. V. Clickener is the inenter of the Sugar Coated Pi ls, and that nothing of the sert was ever neard of until he introduced them in June, 1843. Purchasers should, therefore, always ask for Clickener's Sugar Coated Pills, and take no others, or they will be made the victims of Sept. 18th, 1847 -1v cow a fraud.

### SOMETHING NEW! THE Subscribers have the exclusive right of

vending J. M. THATCHER'S Hot Blast Hot Air Cooking

STOVE, in the counties of Northumberland, Columbia and Schovlkill; and from the encouragement met with

already, they expect to do a large business. This stove is constructed on an entirely new principle. and on the only principle that can make both a good wood and cost stove. The inventor has overcome all the difficult es that so frequently belong to other stoves. He has by his arrangement, constructed a broiling Oven in front, where in broiling, roasting, frying or baking may be done, and all the smell that arises therefrom must pass into the combustible chamber, and is not at all thrown out into the room ID Besides this, there is an oven only two inches less than the whole size of the stove, wherein bakis of resisting may be done as well as it can be in the common brick oven. This even is always fit for nee when the stove is heated, as the whole draught of hot air passes around it constantly.

Public attention is particularly called to this stove. It can be seen at our Store and Tin Estabtishment in North Danville, at the sign of the Cotumbia Ten shop, and at the Foundry of Robrbach & Clement in Sunbury, where its particular qualis ties will be fully shown and exp ained to any person wishing to examine it. The subscribers continue to have on hand all

kinds of parlor stoves, such as radiators, cylenders, fancy and plain, suitable for all who may favor us with a call; also common sheet and Russia Iron, which can be made in any desirable shape; together with a general assortment of tin and japraned ware, wholesale and retail. Country merchants are invited to call and examine our stock, as our work cannot be surpassed, and prices modocrate.

N. B. We can safely recommend the above mentioned stove to persons who wish to embark in a good business. The patentee will sell either county or state rights, to suit purchasers, and on reasonable terms. He or his agents may be found in Danville, Ps.

The undersigned, baving seen in operation the bot biast hat air cooking stove, invented and patented by J. M. Thaicher, certify that we believe, from the manner of its construction and operation that it is the best one ever offered to the public. The arrangement is so complete and the construction so judicious, that there is a saving of one half the fuel and time. in doing any given amount of service, over other celebrated stoves. In short we recomment it in preference to all others, for the simple reason that it embraces every branch of economy.

### Ery Moussel's Aniversal SHAVING CREAM. Small quantities given without Charge.

At 114 Chemut St., PHILADELPHIA.

HIS new and splendid article, as its name denotes, is professed to be superior to any Shaving Cream in the United States or Europe. It is unsurpass d for beauty, purity and fragrance, tho somewhat analogous to Gu-rlain's Ambrosial Cream and other similar compounds. It far surpasses them all by the emplicit pasty consistency of its lather, which so softens the heard as to render shaving pleasant and easy. It further possesses the advantage over the imported article, in being freshly prepared, no skill being wanting in its manufacture. E. Roussel having had many years' experience in the celebrated Laboratory of Laugur, Pere et Pils, now Renaud & co., of Paris.

Besides being the best, it is the cheapest article for shaving; it is elegantly put up in boxes, with splendid steel engraved labels.

Price \$3 per dozen, or 374 cents for a single box, to shave one year. It is also sold at \$1 50 per lb.

or 124 cents per oz., so that gentlemen can have their boxes filled at EUGENE ROLSSEL'S Wholesale and Retail Perfumery and Mineral Water Establishment, 114 Ches
