Wingular Antelder TORACE WELLS, THE DISCOVERER OF ETHER, OR LOROFORM -A day or two ago we published aragraph stating that a young dentist, in New k, had been arrested for throwing vitriol r the clothes of females in the street; and terday we announced the melancholy fact t the person was Horace Wells, well known be discoverer of the application of ether in gival operations, and that he had committed ide in consequenes of the publicity that had n given to his arrest. The letters that he lished previous to his death, gives strong ons to doubt the sanity of the unfortunate i, and induces a belief that he was a victim re effects of his own discovery. He had been he constant habit of inhaling chloroform for exhilarating effect it produced, and on the ring of his arrest had taken a greater quantihan usual, which had produced a powerful t. It is evident, form his account, that in ing into the street, and perpetrating the outhe did, that he was not in his senses; and ect of self destsuction, which followed so ly upon his arrest, is another proof of the eable condition of his mind. This melply case should induce caution in the use of sowerful agent, until at least its mysterous angerous effects upon the buman system are understood,-Phila Ledger.

DR. SWAYNE IN THE SOUTH.

THE following letter just come to hand, and will be read with interest. The patient suffer Hook, of Philadelphia, died of hydro ed intelerably, and could find no relief until he used Dr. SWATNE'S COMPOUND STRUP OF WIED Carner. It is e-rainly the most wonderful cure on record !-- Read it.

Wilmington, N C., Jan. 12th, 1847. DR. SWATER-Dear Sir: Having been almost miraculously cured by your valuable medicine, I think it not more than common gratitude in me to make one addition to the long list of certificates which you have received of remarkable cures by your medicine. During the two years preceding last August. I was very much distressed by a very had cold and racking cough, and during the latter port of the time it continued to grow werse, and indeed, in July my friends gave me over, having tried all kinds of medicine, said to be good for such diseases, without the least good effect. I was reduced almost to a perfect corpse, and had scarcely any flesh upon my body, and for a long time never thought to rise from my bed again. A friend one day asked me if I had tried Dr. Swaysk's Compound Syrup of WILD CRERRY, and advised me to do so at once, as he heard that it had worked a great many wonderful cures. I took his advice, and after using up several bottles of it, I grew so much better that I was enabled to leave my bed, and afterwards to walk about the house, and out into the street. I was encouraged by this, and continued the use of your medicine, and now, by means of its wonderful curative powers, I am permedicine is founded on the princi- fictly well, and enjoy the use of all my faculties, human frame is subject to BUT just as much as if I had never been afflicted in the way I described to you. I have written this not thinking that it will at all interest you, but humble hoping that it will have its mite of influence in cauing your valuable medicine to be spread among mankind, and in assisting to raise you to that station which you richly deserve, for your persevering GEORGE C. WELKER efforts for the public good.

Respectfully your friend and admirer.

JAMES R. MAISLAND.

Comment on such evidence as the above is un-Depressity. A single trial will place Dr. Swatsk's Confound Strue of Will Chenky beyond the reach of competition in the estimation of every pa-tient.—But its healing virtue will be its best re-

Improved Hydraulic Pumps. For Wells, Rolling Mills, Furnaces, or other

Purposes. THE subscriber respectfully announces to the public that he is new prepared to supply or-Suction and Force Pumps. These pumps are made of cast iron, and the water is sucked or forced through lead pipe. For simplicity of construc-tion and durability of action, they are varily superior to any now in use. They have many advantages over the common pump, among which are the following :

They are as constructed that mischievous persons cannot spoil their action by introducing neils or spikes or any other substances among the valves, as is often done with other pumps, thereby rendering them us less till overhauled. They are warranged to be perfectly secure from frost. They are so arranged as to afford ample protection against. Fire about the premises on which they are erected. by simp'y attaching a piece of hose, thro' which they will force water to any part of, or over, a three story house. They are particularly adapted for very deep wells, as the leverage can be so regreatest ease draw water with them from the deepest wells. The objection so justly urged by many, that w ter is spoiled by standing in pump logs, is entirely obviated in this pump, and fresh water can always be as surely obtained as when drawn with a bucket. In situations where it is necessary to raise or force large quantities of water to great di-tances for supplying boilers in mils, furnaces, &c., these pumps are invaluable, as they can be at liberty to try any thing I thought would do me made of any size, and capable of throwing from good. 15 to 1000 gallons per minute.

And to crown all, they can be sold as cheap as The subscriber has spent the last year in axpe-

Indian Vegetable Panacea.

STILL ANOTHER CURE.

Tresna. Rowann & Watton.—Gentlemen,
—It is with pleasure that I give you the following history of my case, which, from its -rerity and long continuance under the best medical attendance I could procure, affer is a striking titues tration of the wonderful superiority of your Dr. CULLEN'S INDIAN VEGETABLE PANA-CE I over all the popular remedies of the day.

It was my misfortune to inherit Scrofula, which made its appearance (as my mother informed me) when I was but a few months old, but was not very troublesome until my 25th year, when it attacked my right eth ew, and stiffened the joint. A out eight years after this, it made its appearance on my arm again, almost covering it with ulcere. At the same time it attacked my throat also, filling it with ulcers. My tongue became frightfully swallen, and almost as hard as a piece of wood.

I applied to one of the most skilful physicians in Norristown, Pa., where I resided at the time, but the disease seemed beyond his reach. He advised me to come to Philadelphia and consult the Lite Dr. Parrish. I did so, and was under his care for a short time, when he advised me to return home. as my physician could do as much for me as he This was certainly not very encouraging I returned, and was for fout or five years most o the time under treatment, when the Doctor inform ed me that his resources were exhausted and I was

I then took Oakley's Sarsavarilla, which at first seemed to do me good, but soon lo-t its power, and was discentinued. I have taken Swann's Panacea. Marshall's, Houck's, Leidy's, and other preparations of Sarsaparilla, without effect. My throat was still ulcerated, my palace entirely carried away, my face and nose much swollen, and exceedingly pain-

Thus matters stood in January last, when I commenced with Dr. Celles's Indian Venerable PANACEA, and I frankly confess, if your medicine d required FAITS to ensure a core, it would have failed in my case; for I had tried so much trash that my confidence in medicine was gone; and it was only as a drowning man will grasp a straw. that I commenced with the Panacea.

But strange as it may appear, the inflammation and soreway were aimost entirely removed in 36 | can be obtained more perfectly than heretofore. hours, satisfying me that I had got hold of a med-He could refer to many others, who have tected | cine which I had not used before, and which would cure me. My anthopations have to all appearance en realized, for I am beautiful than I have been for seventeen years. My skin has assumed a healthy appearance. My bead, which had troubled me for so many years, is now free from all disagr eable sensations; my throat is sound; and so far as I can judge, the disease is completely eradicated from my system,

I shall be happy to give any further information o any who choose to call upon me at my resule ace in Poplar street, first house east of Eighth street. JOSEPH BARBOUR. Philadelphia, June 23, 1846,

SIX YEARS AGO THE children began to cry for Sherman's Lotime, but it has kept increasing ever since, and now has become so great that the mouths of the inches ones can scarce be stopped. Dr. Sherman sympsthises with the little sufferers, and very much a ere a that any of them should be disappointed Knowing the vast benefit which has been conferred upon the community by the introduction of

WORM LOZENGES,
he has entered into strangements for enlarging his
Manufactory, by means of which he thinks he will he able to supply the demand. And the same pains and care will be taken, that these celebrated Loszonges be made as they have always been, in order that those who depend upon them, may not be disappointed in their hopes. He knew when he commenced the manufacture of the Worm Lozenges, that they would supersede the use of every other vermifuge, as the Lozenge is very pleasant to the taste, speedy in its effects, as well as certain, mising young man, who might have been an orusment to society, has failed from the earth.

COUGH LOZENGES continue to cure Coughs, Golds, Consumption, Asthma, shortness and difficulty of Breathing and other disca es of the Lungs, with the same factory they did on their first introduction, and the people have now become persuaded by actual experience, that on the accession of a light cold, they have only to step to either the Dr's, office, or one of the Agents, and obtain a box of his Cough L zerges. which are very convenient to carry in the pecket, and to take a few through the day. By pursuing this course a cure is often effected in 24 hours, and the patient about his business. So great is the colebrity of the Lozenges, that thousands of persons who have used them, and become sequented with
