

The Thriving Family.
BY MRS. SIGORNEY.

Our father lives in Washington,
And has a world of cares,
But gives his children each a farm,
Enough for them and theirs.
Full thirty well-grown sons has he,
A numerous race indeed,
Married and settled, all, d'ye see,
With boys and girls to feed.
And if we wisely till our lands,
We are sure to earn a living,
And have a penny, too, to spare,
For spending or for giving.
A thriving family are we,
No lording need deride us,
For we know how to use our hands,
And in our wits we pride us;
Hail, brothers, hail—
Let nought on earth divide us.
Some of us dare the sharp north east,
Some clover fields are mowing;
And others tend the cotton plants
That keep the looms agoing;
Some build and steer the big-winged ships,
And few in speed can mate them,
While others rear the corn and wheat,
Or grind the flour to freight them.
And if our neighbors o'er the sea
Have o'er an empty ladder,
To send a loaf their babes to cheer,
We'll work a little harder.
No old nobility have we,
No tyrant king to ride us;
Our sages in the Capitol
Enact the laws that guide us.
Hail, brothers, hail—
Let nought on earth divide us.
Some faults have we; we can't deny
A foible here and there;
But other households have the same,
And so we'll not despair.
'Twill do no good to fume and frown,
And call hard names, you see,
And 'twere a burning shame to part
So fine a family.
'Tis but a waste of time to fret,
Since Nature made us one,
For every quarrel ends a thread
That thoughtful love has spun.
So draw the cords of union fast,
Whatever may betide us,
And closer cling through every blast,
For many a storm has tried us.
Hail, brothers, hail—
Let nought on earth divide us.

WONDERS OF CULTIVATION—There is scarcely a vegetable which we now cultivate that can be found to grow naturally. Buffon said that Wheat is a fictitious production raised to its present condition by the art of Agriculture. Rye, Barley, Rice, or even Oats are not to be found, wild, i. e., growing naturally in any part of the earth; but have been altered by the industry of mankind from plants now resembling them, even to such a degree that we are now unable to recognize the relation. The acrid and disagreeable opium has been transferred into delicious celery; and the colewort, a plant of scanty leaves, now weighs many pounds; or into a cauliflower of considerable dimensions, being only the embryo of a few buds which in their natural state would not have weighed as many grains. The potato whose introduction has added to and sustains many millions of our population, derives its origin from a small bitter root which grows wild in China and Montevideo, South America.

THE YANKEE BLADE.—We have not received this excellent paper for several weeks. Mr. MATHEWS, we know, is not to blame for this—from the Blade, which we find in exchange: **A TOWN STORY.**—Our Uncle Ezra is in the habit sometimes of "attracting the truth," a vicious sort of propensity, from which the rest of the family are singularly free. We heard him tell Snooks a rather severe tale, day last week, which we have concluded to give to the world: "When I lived in Maine," said he, "I helped to break up a piece of ground; we got the wood off in the winter, and early in the spring we began to think of ploughing on't. It was so consensually rocky that we had to get forty yoke of oxen to one plough—we did, faith—and I held that plough for more than a week. I thought I should die. It e'en almost killed me, I van. Why, one day I was holdin' and the plough hit a stump, which measured just nine feet and a half through it—hard and sound white oak. The plough split it, and I was going through the stump, when I happened to think it might snap together again, so I just threw my feet out, and I had no sooner done this, than it snapped together, taking a smart hold of the seat of my pantaloons. Of course, I was tight, but I held on the plough handle, and though the teamsters did all they could, that team of eighty oxen couldn't tear my pantaloons, nor cause me to let go the grip. At last though, after letting the cattle breathe, they gave another strong pull altogether, and the old stump came out about the quickest; it had monstrous long roots, let me tell you. My wife made the cloth for them pantaloons, and I hadn't worn any other kind since."
The only reply Snooks made was—"I should have thought it would have come hard on your suspenders."
Somebody thinks that the Sons of Temperance should try and reform the money market, because it has such a habit of getting tight.

BANK NOTE LIST.

PENNSYLVANIA.
The following list shows the current value of all Pennsylvania Bank Notes. The most implicit reliance may be placed upon it, as it is every week carefully compared with and corrected from Bicknell's Reporter.

DR. SWEETSER'S PANACEA.

THIS Medicine is warranted, on oath, not to contain a particle of Calomel, corrosive Sublimite, Arsenic, Chloride of Gold, or any deleterious mineral.
The principle upon which this Medicine acts, is by assisting and harmonizing with nature; it drives out all foul acrimonious humors from the blood and body, and by assimilating with and strengthening the gastric juice of the stomach, it assists digestion; in short there is not a vein, artery, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the bones and joints.

FOR ERUPTIONS OF THE SKIN.
Scarcely, Scorbatic Affections, Tumors, Scrofula or Kings' Eri., White Swellings, Erysipelas, Ulcers, Cancers, Running Sores, Scabs and Bites, time and a determined perseverance in D. SWEETSER'S PANACEA, will effect a cure.

FOR INDIGESTION.
Rejection of Food, Nausea, Vomiting, Nervous affections, Bilious complaints, Head ache, Paleness, or Female Irregularities, Dr. SWEETSER'S PANACEA will soon effect a cure; but if obstinate, or attended with griping, burning pains, the dose should be increased, and the cure will soon be effected. Let not the patient frighten themselves with the idea that they are too weak to take much medicine; but bear in mind that this mild operating medicine put not weakness into the frame, but most certainly draws weakness out, leaves strength in its place, and by giving composed sleep at night, and an appetite to relish any food, re-animates the whole frame with vigorous action, clearing the mind and improving the sight.

SCROFULA AND GLANDULAR AFFECTIONS.
Scrofula is said to be hereditary, the infant receiving from its parents the seeds of this disease, which increases with its years, if neglected and not submitted to a frequent purification with Dr. SWEETSER'S PANACEA. The glands are placed in the corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of opinion prevails; it suffices us to know that when in a diseased state, they are capable of being purified and cleaned by a long course of Dr. SWEETSER'S PANACEA, which restores them to sound and proper action. Scrofulous persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perseverance, they will ever cure hereditary disease.

IN CASES OF JAUNDICE, ASTHMA, LIVER COMPLAINTS, TIC DOLOREUX, RHEUMATISM OR RHEUMATIC GOUT, Dr. SWEETSER'S PANACEA cannot be too highly extolled; it reaches out the very root of the disease, and by removing it from the Blood makes a cure certain and permanent.
For diseases of the Bladder and Kidneys, Strictures, Gravel, Stone, Piles, Fistula, Urinary Obstructions and Extreme Costiveness, Dr. SWEETSER'S PANACEA is the best remedy ever tried; it removes all those acrimonious humors from the Blood which give rise to the above diseases, and by keeping the blood in a pure condition, insures health.

FOR DROPSY, FALLING OF THE BOWELS, Impurities of the Blood, Mercurial Taint, Weakness of the Spine, Pains of the Head, Giddiness, Stomach and Bowels, Noise in the Head and Ears, Dr. SWEETSER'S PANACEA will give certain relief; in all severe and chronic cases, the patients cannot be too often reminded that larger doses and perseverance will effect a cure.
In Chills and Fevers, Bilious Fevers, Affections of the Eyes and Ears, Spontaneous and Bleeding Gums, Bronchitis and recent Coughs and Colds, Dr. SWEETSER'S PANACEA will be found perfectly sure and certain in its effects.

GRAVEL AND URINARY COMPLAINTS.
These complaints are generally attended with the most fatal consequences, and are seldom or never cured by the present mode of treatment; they usually accompany the patient to the grave, after suffering the most excruciating pain and torture. The cause of these complaints are the same as all others, the drops of the blood become encrusted on the nerves, and passing out, become acids and morbid, through the medium of urine. You will find the most powerful diuretic of no use, as they only increase the quantity of urine and do not purify and strengthen the parts. By purifying the blood with Dr. SWEETSER'S PANACEA, you remove the cause of the disease, consequently it cannot exist any longer, after sufficient perseverance in its use has deprived the blood and body of all acrimonious humors and incrustation.

DISEASES OF THE LUNGS—CONSUMPTION.
This is a very prevalent and fatal disease; it results mostly from neglected coughs, colds and bronchitis, also from improper treatment in many other cases, such as measles, fevers, inflammations and small pox, and a host of other badly treated diseases; where the cause, instead of having been thoroughly removed from the blood and body, have only been palliated or removed from one part to break out in another. By directing your notice to all foul humors, through the medium of Dr. SWEETSER'S PANACEA, the cure is at once rendered certain and permanent. Recollect, while there is acrimonious humor floating in the circulation, it is as apt to settle on the lungs as any other part of the body; this is the reason that consumption is so prevalent.

BILES, SORES AND ULCERS.
Which you see on the exterior, come from and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and produce most violent inflammatory disorders. The humor which occasions these sores is of a highly acrimonious burning nature. We know it from the pain it gives in forming, and afterwards its rapidly ulcerating and corroding the flesh and skin of the part where it breaks out. This shows the necessity of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such malignant humors in subjection. Should you have a bile or ulcer, be thankful that nature has taken trouble to warn you of the danger your life and body is in, for it is a warning that the blood is foul. Had this same acrimony selected the lungs instead of the surface of your body for its seat, consumption of the lungs would have been the consequence. Delay not then, to purify and cleanse with Dr. Sweetser's Panacea.

SPINE DISEASE.
Spinal affections, enlargement of the bones and joints, white swellings, hip joint complaint, ruptures, falling of the bowels and womb, disease, will find a speedy cure in Dr. SWEETSER'S PANACEA. Where the disease has been of long standing, the time required to make a cure will be longer; but the patient may rest assured that a determined perseverance will effect it.

BRONCHITIS, ASTHMA AND DISEASE OF THE WINDPIPE.
These diseases proceed from the acrimony or corruption of the blood, having settled itself on the throat and lungs, and stopped them up, so that they cannot draw sufficient air in for respiration. Dr. SWEETSER'S PANACEA will give immediate relief, and to make the cure perfect and cer-

tain, it should be continued some time after, to free the system of all bad humors.

RHEUMATISM, RHEUMATIC GOUT AND MERCURIAL DISEASES.
Find a safe and speedy cure in Dr. SWEETSER'S PANACEA. It cures by searching every blood vessel and artery, and driving out all impurities and foul humors accumulated therein, which is the cause of rheumatism, gout and swellings of the joints. The deleterious effects of calomel and other mineral poisons, readily yield to its sovereign influence; indeed, when its valuable properties become fully known, the use of all mineral poisons will be consigned to the tomb of all the Capulets, and only be thought of as a by-gone custom of the dark ages. Dr. Sweetser's Panacea is also a sure cure for dyspepsia, piles, costiveness, vertigo, headache, pain in the breast and liver complaint.

FEVER AND AGUE.
Fever is always caused by a disorderly movement of the blood, struggling to free itself of something that encumbers it; in fact, every kind of fever is nothing more than a struggle between the blood and corrupt humors, and as soon as the corrupt humors are expelled, you have no more fever. When a patient with fever submits to be bled, or has his blood poisoned with mercury, it weakens his frame to such a degree that if he survives the bleed, when 9 times out of 10 he resorts to ague pills, powders, or tonic mixtures, this is going from bad to worse, as these vegetable pills, powders, &c. are nothing but mercury and quinine in disguise, which may for a time drive the disease so far into the body as not to be perceptible, but very soon it will break out again with fearful violence. To cure ague and fever, the cause of the disease must be removed out of the blood and body, which can be effectually done by using Dr. SWEETSER'S PANACEA, which purifies, cleanses and strengthens. It contains nothing that can possibly injure, and its use is always a safeguard against chills and fevers.

PILES.
In ALL CASES OF PILES, Dr. SWEETSER'S PANACEA will effect a very speedy cure. It removes from the blood, stomach and bowels, all those foul acrid burning humors, which are the cause of Piles and Costiveness, and by strengthening the digestive organs, improves every part of the entire body.

FIATULENCY AND WIND.
These diseases are caused by the stomach and bowels being choked up with viscid slimy matter, the air which enters them cannot escape until forced by some contraction of the stomach to expel it; hence the cause of pain. A few doses of Dr. SWEETSER'S PANACEA will convince the sufferer that relief is attained.

GREAT MEDICINE FOR CHILDREN.
Parents will find the PANACEA a valuable medicine for their children, keeping their bodies in a healthy condition, thereby assisting their growth; children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the entire system in a strengthened state; it drives out all kinds of weakness from the body and leaves all healthy within.

MARRIED LADIES.
Will find Dr. SWEETSER'S PANACEA a medicine purely adapted to their use. Most ladies during the period of pregnancy are afflicted with piles. Dr. Sweetser's Panacea, by regulating the bowels, will entirely obviate this, and its purifying properties on the blood and fluids, insures to them healthy offspring. No one who is a mother should be without it, and those who are nursing will find it of great benefit to the health of their infants.

For barrenness and all diseases of the womb, it is without a rival in the entire history and catalogue of medicines; by its extraordinary strengthening power, it stimulates and strengthens the womb, a weakness of which is the cause of failure to have offspring.

NERVOUS DISEASES.
Under this head may be classed Palpitation of the Heart, Tic Doloreux or Patches, Neuralgia, Indigestion, Toothache, Melancholy, Hysterics, and in fact, every disease caused by the superfluous acrimonious humors irritating the nerves; the nerves receive the morbid impression from the stomach, or rather from the blood through the agency of the stomach and digestive organs, and although other parts of the body are apparently the seat of the disease, still it is caused by the morbid impression conveyed from the blood by the nerves to that part. A few doses of Dr. SWEETSER'S PANACEA will soon assure the patient that he has the cure in his possession.

ERYSIPELAS, OR ST. ANTHONY'S FIRE.
This is an inflammatory disorder, always attended with more or less pain. It proceeds from the foul, acrimonious humors lodged in the blood and fluids, settling on the limbs and face, causing extreme pain and fever; all applications on the surface are worse than useless, as they only tend to throw the disease in some other part, and perhaps cause death. Bleeding is likewise improper. To cure the disease you must get rid of the cause; only manage to get the foul humors out of your blood, and you will be well in a day. Dr. SWEETSER'S PANACEA, a thorough purifier of the blood, will search out every impurity in the more remote parts of the body and expel it through the medium of the bowels. There is not a vein, artery, muscle or organ of the entire framework of man, that Dr. Sweetser's Panacea does not improve. To take it when you are well is to keep well; and when sick to become well.

DR. SWEETSER'S PANACEA, being composed of a vegetable matter, or medicinal herbs, and warranted, on oath, as containing not one particle of mercurial, mineral, or chemical substance, is found to be perfectly harmless to the most tender age, or the weakest frame, under any stage of human suffering; the most pleasant and benign in its operation that was ever offered to the world; and at the same time the most certain in searching out the root of any complaint, however deep, and of performing a cure.

Price \$1 per bottle, or six bottles for \$5. For sale, wholesale and retail, at the corner of CHARLES and PRATT Streets, Baltimore, and also by GEORGE BRIGHT, Nov. 6, 1847.—ly

MOUNT VERNON
95 North 2d st., bet. Arch & Race sts., Philadelphia.
BRADY & PARKER respectfully inform their friends and the public that they have taken the above named house, recently kept by J. S. Adams, and are prepared to accommodate customers in the most satisfactory manner and at reasonable prices.

Their table will be supplied with the best variety the market affords—their parlors and sleeping apartments will be in the best order. The house has been thoroughly repaired and furnished with a view to the comfort of travellers and strangers. Having had several years experience in the business, they hope to give general satisfaction, and respectfully invite travellers and strangers to give them a call. BRADY & PARKER. Philadelphia, January 16, 1847.

DR. LE ROY'S Vegetable Universal Pills,

The only known Medicine that at the same time purges, purifies and strengthens the system.

London, July 7, 1846.
DR. LE ROY'S Pills are a new medicine which has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparilla and Wild Cherry, so united that they act together, the one through its admixture with other substances, purifying and purging, while the other is strengthening the system. Thus these pills are at the same time tonic and opening; a desideratum long and eagerly sought for by medical men, but never before discovered. In other words they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no debilitation, and are followed by no reaction. Dr. Le Roy's pills have a wonderful influence on the blood; they not only purify without weakening it, but they remove all noxious particles from the chyle before it is converted into fluid, and thus make impure blood an utter impossibility. As there is no debilitation, so there is no nausea or sickness attending the operations of this most excellent of medicines, which never strains or tortures the digestive functions, but causes them to work in a perfectly natural manner; and hence persons taking them do not become pale and emaciated, but the contrary; for while it is the property of the Sarsaparilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united operations. Price 25 cents per box.

Agents for Le Roy's Pills, J. W. FRILING, Sunbury. JOHN YOUNG, M. A. McCAY, Northumberland. August 21st, 1847.—ly

PHILADELPHIA Watches, Jewellery and Silver Ware.

Every attention will be paid to the Packing of Goods, and in the execution of Orders, the qualities and prices will be fully guaranteed against all competition. Philadelphia, June 19th, 1847.—ly

HOVER'S First Premium Writing Ink.
No. 87 North Third Street, PHILADELPHIA.

FROM Dr. Hare, the celebrated Professor of Chemistry in the University of Penna., Philadelphia, Oct. 11, 1843.
"Dear Sir—Having tried your Ink, I will thank you to send me another bottle, as I find it to be excellent. I am yours, truly, Robt. HARR."

From Dr. Locke, of Cincinnati, distinguished for his numerous scientific researches.
"Medical College of Ohio, Cincinnati, January 17, 1844.
Having used Mr. Hover's Writing Ink, I am satisfied that it is the best which has ever come to my knowledge, and especially is excellent for the use of Steel Pens, and will not corrode them, even in long use."

JOHN LOCKE, Prof. of Chemistry, HOVER'S ADAMANTINE CEMENT. From a well known scientific gentleman. "Philadelphia, Feb. 27, 1846.
Mr. Joseph E. Hover—Sir: A use of your Cement, and some practical tests of its superiority, has induced me to recommend it to others as an invaluable article for mending China, Glass, or Cabinet Ware. CAMPBELL MORRIS, Analytic Chemist."

For sale at the Manufactory, Wholesale and Retail, No. 87 NORTH THIRD STREET, opposite Cherry street, Philadelphia, by JOSEPH E. HOVER, May 22, 1847.—30 ly

GRAND LINE TO POTTSVILLE AND PHILADELPHIA.
Persons travelling this route are hereby informed that they can procure "through tickets," by making application at the Hotel of Charles Weaver, Sunbury. A. E. KAPP, Northumberland, July 31st, 1847.—if

The Grand Purgative

FOR THE CURE OF Headache, Giddiness, Measles, Salt Rheum, Rheumatism, Piles, Heart Burn, Worms, Dyspepsia, Scoury, Cholera Morbus, Small Pox, Jaundice, Coughs, Quinsy, Pains in the Back, Inward Weakness, Whooping Cough, Forward Weakness, Consumption, Fits, Palpitation of the Heart, Liver Complaint, Ringing in the Ears, Erysipelas, Deafness, Dropsy, Asthma, Itching of the Skin, Fevers of all kinds, Colds, Croup, Gravel, Female Complaints, Nervous Complaints, AND A VARIETY OF OTHER DISEASES ARISING FROM IMPURITIES OF THE BLOOD, AND OBSTRUCTIONS IN THE ORGANS OF DIGESTION.

Experience has proved that nearly every Disease originates from impurities of the Blood, and arrangements of the Digestive Organs; and to cure Health, we must remove those obstructions or store the Blood to its natural state.

The aversion to taking medicine is most effectually removed by CLICKENER'S VEGEVANTIA PILLS, being completely enveloped with a coating of pure white Sugar, (which is as distinct from the internal ingredients as a nut shell is from the kernel) AND HAVE NO TASTE OF MEDICINE.

But as are easily swallowed as bits of candy. Moreover they neither nauseate or grip in slightest degree, but operate equally on all the essed parts of the system, instead of confining themselves to, and racking any particular region. Thus, if the Liver be affected, one ingredient operates on that particular organ, and, by cleaning it of an Excess of Bile restores it to its natural state. Another will operate on the Blood, remove all impurities in its circulation; while third will effectually expel whatever impurities may have been discharged into the stomach, hence they operate on the whole of the system, more all impure Humors from the body; or the pores externally and internally; separate foreign and obnoxious particles from the chyle that
