Brotherhood. Watchmen on the walls of Time! Steadfast vigil keeping O'er the world, in grief and crime, Revelling or weeping-Lift your voices loud and high, With a firm endeavor; Sound abroad the mighty truth, "Men are brothers ever." Let it reach the home of wealth, Where no care has entered; Where all luxury and ense, Gorgeously are centered; When the lowly of the earth Of their want are telling. Let it pierce through every beart In the stately dwelling. Let it reach the hardened man, Who, God's law unheeding, Through the rice and cotton fields Drives the faint and bleeding-Where upon the sable back, In the streaming gashes, Whizzing through the morning air, Fall the stinging lashes. Let it mind the young and gay Of the sad and sighing, Sitting by the lonely bed Where the sick are lying : Where the feeble lamp of life Momently grows dimmer, Till in everlasting night, Dies its latest glimmer. Let it reach the battle field, Where the swords are flashing ; Where along the serried ranks, Cannon balls go crashing : Where, among the beaps of slain, Looking upward sadly, O'er the carnage-reeking plain Leaps the war-horse madly. Grieve not though ye see no fruits Of your patient toiling; Though your feeble voice seem lost In the world's turmoiling-For the God whose holy faith Ye so fondly cherish, Will not that the seed ye sow In his name, should perish. When you lie within your graves, Of the world unknowing, And above your coffined forms, Flowers and grass are growing-Men shall feel and own the power Of the truth you've spoken, And of love, unknown before, It shall be the token. Then shall gladness come again To the sorrow-laden ; Then shall kindness cheer the heart Of the fallen maiden : Then shall plenty bless the homes Want had made so lonely, And the slave, a slave no more, Serve his Maker only. Then shall she, the augel bright, White-winged Peace, descending, Tell of war and bloody fight, Strife and slaughter's ending-

ROMANCE.—The recent discovery of a girl disguised a soldier in the garrison at Fort Mann, has divulged quite an interesting piece of romance. The girl was taken to Fort Leavenworth as a servant by a lieutenant, and through the assistance of this lieutenant mustered into the United States service. Her name is Caroline Newcomb-but was called Bill Newcomb. The St. Louis Reveille publishes some of the correspondence between the girl and her martial lover. They are very impassioned-a paragraph will suffice :

Then-requital of your zeal

Folding up her pinions fair,

"Loved and adored one, doubt not my passion for thee-doubt not that I love thee; rather doubt the existence of the human family, and all the great works of His divine architecture. O ! would to God you were here, that I could feast my eyes upon you-it would be music to me ! Caroline, believe me I have never before in my life addressed a letter of this description to any guarl until I met with you. By your consent I will meet you at any appointed hour, or at the moonlight dreary hour.

The report of the officer of the day in this case is a specimen of military brevity. It is us follows :

"Bill Newcomb can't serve, because he is a girl."

A Moskey's TRUK - Lord Tyneum's French cook so trained a monkey as to make him useful in plucking his poultry and winged game for the spit. The monkey wat one day following his occupation at the open was. " of the back kitchen, and had just plucked one ... brace of patridges, when a hawk pounced upon it and carried it off. Poor Pug was in a sad fright, well knew the licking that awaited him. Nil desperandum however, was his motto. He plucked his courage up, and the remaining partridge, and laid the bird in the window. The hawk, pleased with the feast, returned for another tit-bit when Pug seized him, and in spite of his scratching, plucked him alive, and laid him and the patrige down before the cook, and with a gesture stronger than language, seemed to say, 'it's all right; there's your brace of birds

ABOUT THE WHALE - Although the whole is a tremendous animal, yet most people make light of him:

-a fair exchange is no robbery."

A Western orator recently declared from the 'stump' that he 'was born in a very carly period of life."

DR. SWEETSER'S AEDAGA THIS Medicine is warranted, on cath, not to contain a particle of Calomel, Corrosive Sub-limate, Arsenic, Chloride of Gold, of any delete-

rous minerale. by sesisting and harmoni-ing with name; it drives out all foul acrimonious humors from th blood and body, and by sesimilating with and strengthening the gastric juice of the stomach, it ry, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the hones and joints.

FOR ERUPTIONS OF THE SKIN. Scurvy, Scorbuic Affections, Tumors, Scrafula or Kings' Evi , White Swellings, Erysipelas, Ulcers, Cancers, Running Sores, Scale and Biles, time and a determined perseverance in D . SWEET SER'S PANACEA, will effect a cure.

FOR INDIGESTION. Rejection of food, Nauses, Vemirings, Nervous aftections, Billions complaints, Head ache, Paleness, or Pem de Irregularities, Dr. SWEETSER'S PA-NACEA will soon effect a cure ; but if obstinate, or attended with griping. flying pains, the dose should be increased, and the cure will soon be effected. Let not the patients frighten themselves with the idea that they are ton wesk to take much medicine; but hear in mind that this mi'dly operating med cine out not weakness into the frame, but most certainly draws weakness out, leaves strength in its place, and by giving composed sleep at night. and an appetite to relish any food, re-animates the whole frame with vigorous action, clearing the mind and improving the eight.

SCROFULA AND GLANDULAR AFFEC-TIONS.

Scrofuls is said to be heriditary, the infant receiving from its parents the seeds of this disease which increases with its years, if neglected and not submitted to frequent purification with Dr. SWEETSER'S PANACEA. The glands are placed in the corners of the body, and nut of the way of direct communication ; their real use is a subject on which much difference of opinion prevails; it suffices us to know that when in a deseased state they are capable of being purified and cleaned by a long course of Dr. SWEETSER'S PANA-CEA, which restores them to sound and proper action. Scroful us persons can never pay too much attention to their blood, its purification shou'd be their first thought, for after a long course of perseverance, they will ever cure hereditary disease.

In cases of JAUNDICE ASTHMA. LIVER COMPLAINTS, TIC DOLOREUX RHEU MATISM OR RHEUMATIC GOUT, De SWEETSER'S PANACEA cannot be too high ly extolled; it searches out the very cost of the disease, and by removing it from the Blood makes a core certain and permanent.

For diseases of the Bladder and Kidneys, Strietures, Gravel Stone, Piles, Pistula, Urinary Obstructions and Extreme Costiveness Dr. 8WEET. SER'S PANCEA is the best remody ever trel; it removes all those acrimonious humors from the Blood which give rise to the above diseases, and by keeping the blood in a pure condition, insures

For DROPSY, FALLING OF THE BOWELS. Impurities of the Blood, Mercurial Taint. Weak-ness of the Spine Flow of Blood to the Head Gid diness, Singing and Buzzing Noise in the Head and Ears, Dr. SWEETSER'S PANACEA will give certain relief; in all severe and chronic cases, the patients cannot be too often reminded that larger doses and perseverance will effect a cure.
In Chills and Fevers. Bilious Fevers, Affections.

of the Eyes and Ears. Spongy and Bleeding Gums Bronch tis and recent Coughs and Colds. Dr. SWEETSER'S PANACEA will be found perfectly sure and certain in its effect.

GRAVEL AND URINARY COMPLAINTS. Those complaints are generally attended with the most fatal consequences, and are seldom or ne ver cured by the present mode of treatment; they usually accompany the patient to the grave, after suffering the most excruciating pain and torture. The cause of these complaints are the same as all others, the dross of the blood becomes encrusted on the finest parrow passages, whence arme morbid secretions and stoppages of urine. You will find the most powerful diarrities of no use, as they only increase the quantity of urine and do not purify and strengthen the parts. By purifying the bloos with Dr. SWEETSER'S PANACEA, you re move the cause of the disease, consequently it can not exist any longer, after sufficient perseverance in its use has deprived the blood and body of all acrimonious humors and incrustation.

DISEASES OF THE LUNGS-CONSUMPTION. This is a very prevalent and fatal disease; it reults mostly from neglected coughs, colds and bronchitis, also from improper treatment in many of ie cases, such as measies, fevers inflammations and small pox, and a host of other hadly treated discusses where the cause, instead of having been thoroughly temoved from the blood and body, have only been palliated or removed from one part to break out in another. By divesting your bodies of all foul humore, through the medium of Dr. SWEETSER'S PANACEA, the core is at once rendered certain and permanent. Recollect, while there is acrimonious humors floating in the circulation, it is as apt to settle on the lungs as any other part of the body this is the reason that consumption is so prevalent

BILES, SORES AND ULCERS, Which you see on the exterior, come from and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and produce most violent inflammatory disorders. The humor which occasions these series is of a highly actimonions burning nature. We know it from the pain it gives in forming, and afterwards its rapidly ofcers ing and correding the flesh and skin of the part where it breaks out. This shows the necessity of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such mulignant humors in subjection. Should you have a bile or ulcer, be thankful that nature has taken trouble to warn you of the danger your life and be dy is in, for it is a warning that the blood is foul. Had this same acrimony selected the lungs in-tend of the surface of your body for its seat, consumption of the lungs would have been the consequence Delay not then, to purify and cleaned with De Swerteer's Panacea.

SFINE DISEASE Spinal affections, enlargement of the bones anjoints, white swellings, hip joint complaint, rupuies, falling of the bowels and wom's disease, will find a speedy oure in Dr. SWEETNER'S PA-NACEA. Where the disease has been of long standing, the time required to make a cure will be longer; but the patient may rest assured that a determined perseverance will effect it.

BRONCHITIS, ASTHMA AND DISEASE OF

THE WINDPIPE.
These diseases proceed from the seriosity or corruptiumors of the blood, having settled itself on the throat and lungs, and stopped them up, so that Dr. SWEETSER'S PANACEA will give immediate relief, and to make the cure perfect and cer-

tain, it should be continued some time after, to free the system of all had humors.

RHEUMATISM, RHEUMATIC GOUT AND MERCURIAL DISEASES Find a safe and speedy cure in Dr. SWEET. SER'S PANACEA. It cures by searching every blood resset and artery, and driving out all impu-rities and foul humors accumulated therein, which is the cause of the umatism, gout and swellings of the joints. The deleterous effects of calomel and other mineral poisons, readily yield to its sovereign influence; indeed, when its valuable properties become fully known, the use of all miner I poison will be consigned to "be tomb of all the Capulets," and only be thought of as a by-gone custom of the darker ages. Dr. Sweetser's Panacea is also a sur cure for dyspepsis, piles, costiveness, vettigo, head-sche, psin in the breset and liver complaint.

FEVER AND AGUE.

Fever is always caused by a disorderly movement of the blood, struggling to free iteelf of something that encumbers it; in fact, every kind of fever is nothing more than a struggle between the blood and corrupt humors, and as soon as the corrupt humors are expel ed, you have no more fever, When a patient with fever submits to be bled, or have his blood poisoned with mercury, it weakens his frame to such a degree that if he survives the process, it always haves him subject to distressing chills, when 9 times out of 10 he resorts to ague pills, powders, or tonic mixtures; this is going from had to worse, as these vegetable pills, powders, &c, are nothing but mercury and quinine in disgular which may for a time drive the disease so far inte the body as not to be percentible, but very soon it will bre k out again with fearful violence. To cure ague and fever, the cause of the disease must be removed out of the blood and body, which can be effectually done by using Dr. SWEETSER'S PA-NACEA, which purifies, cleanses and strengthens. It contains nothing that can possibly injure, and its use is always a safeguard against chills and fevers.

PILES. In ALL CASES OF PILES, Dr. SWEETSER'S PANACEA will effect a very speedy cure. It re-moves from the blood, stomach and bowels, all those foul serid burning humors, which are the cause of Piles and Costiveness, and by strengthening the dig-seive organe, improves every part of the

PLATULENCY AND WIND. There diseases are cauled by the stomach and lowels being choked up with viscid alimy matter. he air which enters them cannot e cape until forced by some contraction of the somach to expel it: hence the cause of pain. A few doses of Dr. SWEETSER'S PANACEA will convince the sufferer that relief is attained

GREAT MEDICINE FOR CHILDREN. Parents will find the PANACEA a valuable medicine for their children, keeping their bodies in healthy condition, thereby assisting their growth; children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the optice system in a strengthened state; it drives out al kinds of weskness from the body and leaves .Il beal hy within.

MARRIED LADIES Will find Dr. SWE ISER'S PANACEA a medione purely adapted to their use. Most ladies duthe period of pregnancy are afflicted with piles. Dr. Sweetser's Panaces, by regulating the bowels, will entirely obvious this, and its purifying properties on the blood and fluids, insures to them healthy off-pring. No one who is a mother should be without it, and those who are nursing will find great benefit to the bealth of their infants.

For barrenness and all diseases of the womb, it is without a rival in the entire history and catalogue of medicines; by its extraordinary strengthening power, it stimulates and strengthens the womb, weakness of which is the cause of failure to have offspring.

NERVOUS DISEASES. the Heart, Tie Doloresux or Faceache, Neuralgia, Indigestion, Toothache, Melancholy, Hysterics, and in fact, every disease caused by the sharp, biting acrimonious humors irritating the nerves; the nerves receive the morbid impression from the sto-mach, or rather from the blood through the agency of the stomach and dige tive organs, and although other parts of the body are apparently the seat of the disease, still it is caused by the morbid impresion conveyed from the blood by the nerves, to that part. A few doses of Dr. SWEETSER'S PA-NACEA will soon assure the patient that he has he cure in his possession

ERYSIPELAS, on ST. ANTHONY'S FIRE. This is an inflammatory di-order, alw ys attend ed with more or less pain. It proceeds from the fluids, settling on the limbs and face, causing extreme pain and fevers; all applications on the surface are worse than useless, as they only tend to throw the disease in some other part, and perhaps cute the di-ease you mu-t get rid of the cause ; ony manage to get the foul humors out of your blood. and you will be well in a day. Dr. SWEET-SER'S PANACEA, a thorough purifier of the blood, will search out every impurity in the more remote parts of the body and expel it through the medium of the bowels. There is not a vein, artery, muscle or organ of the entire framework of man, that Dr. Sweetser's Panacea does not im prove. To take it when you are well is to keep

DR SWEETSER'S PANACEA, beingcom posed only of a vegetable matter, or medical nerbs, and warranted, on oath, as containing not one par-ticle of mercurial, mineral, or chimical substances is found to be perfectly harmiess to the most tender age, or the weakest frame, under any stage of human suffering; the most pleasant and benign in its oferation that was ever offered to the world; and the same time the most certain in searching out he root of any complaint, however deep, and

DIR. ILE IROT & The Grand Purgative Vegetable Universal Pills, The only known Medicine that at the same time purges purifies and strengthens the system.

Lonnow, July 7, 1846. R LE ROY'S Pills are a new medicine which has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparilla and Wild Cherry, so united that they act together; the one, through its admixture with other sub-traces, purifying and purging, while the other is strengthening the system. Thus those pills are at the same time tonic and opening; a desideratum long and eagerly sought for by medical men, but never before discovered. In other words they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities ; so that while they purge they strengthen; and hence they cause no debilitation, and are followed by no re-action. Dr Le Ray's pills have a wonderful influence on the blood; they not only purify without weakening it, but they remove all toxious particles from the chyle before it is converted into fluid, and thus make impure blood an utter impossibility. As there is no ilitation, so there is no nauses or sickness attending the operations of this most excellent of medicines, which never strains or tortures the digestive functions, but cau-es them to work in a perfectly natural manner; and hence persons taking them do not become pale and emiciated, but the contrary; for while it is the property of the Saraa-parilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united operations. Price 25 cents per BOX.
