From the N. O. Delte, 19th ult] Gen. Cadwalder's Exprettion to Toines. TOLUCA, JANUARY, 1848.

My Dear Mustang-I promised to tell you hat kind of country, we traversed in reaching is place. Hearing that the diligence is robd every day, I have waited some other oppornity in writing, and now hear that the Draons leave for Mexico in a lew moments. hich gives me little time.

After quitting Tacubaya, our road began to cend, the country continuing sterile and volnic, like that around Contreas. Towards sunt we reached a bacienda, or inn, and encamp-1; the night closing on us bitterly cold. The fantry encamped mostly around the brow of a I adjacent, and few pleasant dreams, I ween, I the cold wind permit to them. Early on 17th, we started again, the earth white with st, and icicles hanging from the rocks ; the id, if possible, harder and more finished than sterday, and accending always. Arriving at : highest point of the mountain ridge, we saw umber of crosses together, and were told that y commemorated a desperate conflict that ne off here some thirty years ago between Spaniards and Mexicans. The first were scked in position by the latter, and gained day. One cross fastened in the solid rock rks the grave of the Mexican General.

At this point opened upon us one of the finest ws I ever saw-the velley of Toluca. Stretch out in front and on either side it lay, studed h villages and baciendas, and just enough tered to give variety, while far away rose snowy summit of Nevado de Toluca, with wide crater. I thought to myself, had Tom ore seen this, he had c. risinly written the reet Vale of' Toluca, in-tead of that other. e road now descended regularly and we ae upon Lerma, a small dirty village, every se filled with children, gaping women, and nounted by a white flag-the only clean ig about the premises, and that prepared no by bt, just for the occasion only.

elore getting to Lerms, however, we passed sall bridged stream the passage of which defended by a standing fort, and the hills cent were also crowned by works-all made ie we lay at Puchla and abandoned on the of the capital. It is said that the fort at the of Northumberland county, by the Register of said ge was carried by 'Dutch Mary ;' certainie was first there. Capt. Thompson took squadron on to Tolucs this afternoon, in sany with the alcalde, who had come out set the General. At sunrise on the next (9th) we started for Toluca, some ten distant, marching for some short distance e edge of a marsh, where we perceived lance of waterfowl, and primised our some good sport anon. The country on side became more and more fertile : a ior cultivation to any we had seen in Mexblained ; fine baciendas, with Americanig farm yards and granaries ; abundance ile, &c. &c., all proclaiming a decidedly iety. We reach s lew hours' march, and, as usual, werinded by a dense mass of wondering beand took our quarters-the soldiers in con &c., and many of the officers by billet. I never seen a more pacific looking people our progress, notwithstanding the preach-Father Jarauta, who was lately here. thousand troops, it is said, left here on proach, with the Monrelia. This town able of holding from 10 000 to 12,000 peoit at present has not so many. It is prettilt, is very clean, and is supplied with vater by an aqueduct. Nor have we felt. e their steps as far as Lerma, and occut place. Rumor says that the convent ich they were gnartered suffered a few way of gold vessels, and the General it it prudent to quarter the? regiment

Wilmington. N C., Jan, 12th, 1847. Da. Swayss-Dear Sir : Having been almost miraculously cured by your valuable medicine, I think it not more than common gratitude in me to make one addition to the long list of certificates which you have received of remarkah's cures by your medicine. During the two years preceding last August. I was very much distre-sed by a very bad cold and racking cough, and during the latter ree of cold for which it has a reputation indeed, in July my friends gave me over, having trieds, the 11th infantry were ordered to diseases, without the least good effect. I was re duced almost to a perfect corpse, and had scarcely any fiesh upon my body, and for a long time ne-ver thought to rise from my bed scain. A friend one day asked me if I had tried Dr. Swaraz's Compound Syrup of WILD CHERRY, and advised it it prudent to quarter the? regiment gold and silver are apparently unknown. me to do so at once, as he heard that it had worked a great many wonderful cures. I took his advice, and after using up several bottles of it, I grew so much better that I was enabled to leave my brd,

and afterwards to walk about the house, and co out into the street. I was encouraged by this, and continued the use of your medicine, and now, by means of its wonderful curative powers. I am perfectly well, and enjoy the use of all my faculties, just as much as if I had never been afflicted in the way I described to you. I have written this not thinking that it will at all interest you, but humbly hoping that it will have its mite of influence in cauing your valuable medicine to be spread am og mankind, and in sesisting to raise you to that station which you richly deserve, for your persevering

efforts for the public cood. Respectfully your friend and admirer.
