

Something Mysterious—A Woman Frozen to Death.

The Utica Herald gives the particulars of a strange affair which has just come to light in Oneida county, New York. About six weeks ago a German named Anthony Himes, residing in Constableville, Lewis county, married a young woman residing at Deerfield Corners, in Oneida county. He took her to his home at Constableville, and some days after the marriage was heard to declare that they would not live together six weeks. About one week ago Himes appeared, somewhat intoxicated, at the house of his wife's parents, in Deerfield, and reported that his wife had perished of cold, in the woods on the 16th, and had been buried. Himes's account of his wife's death was in substance as follows: He said they had been together at church on the afternoon of Sunday, the 10th ult. They were returning home in company with two men, and had reached within forty rods and in sight of their own house, when Himes and two men stopped to talk with some other men in relation to building a school house leaving Mrs. Himes walking towards home. He soon followed on, but could get no sight of his wife. On reaching home he prepared his own supper, and made inquiries of the neighbors, but none had seen his wife. She did not return during the night, and the next day a search was made for her, which was not successful till near midnight, when she was found in a dense piece of forest about six miles in direct line from the house—dead and frozen stiff. Though within so few miles of home, it appeared from her tracks in the snow that she had wandered about forty miles through the forest.

The body was buried without the knowledge of any of the woman's friends or parents, though in the neighborhood; and other circumstances seemed to render the whole affair suspicious. On disintering the corpse, appearances sustained the story of the husband. The case caused a good deal of excitement. The Liberty Press says: "A correspondent sends us a painful account—too long for our columns—of the death by freezing of a Mrs. Himes, of Leyden, Lewis county. Mr. and Mrs. H. went on Sunday, on foot, five miles to meeting. On their return home, Mr. H. stopped for a few moments at the house of an acquaintance, and Mrs. H. passed on, but the country being new and the wood-paths indistinct, she became bewildered, and wandered about until overcome with fatigue and cold, she sunk down and died." Our correspondent says: "On Friday the men who were in search, accidentally crossed her track, which they rapidly traced until they found her a corpse. It seems that the poor woman continued to travel about, never making, during all this instance of suffering, but one bed. This bed made with so much care, she no doubt, designed as for her death couch—and such it was. It is supposed that she was conscious that she was falling, as along the last part of her wearisome journey, she had employed herself in tearing her cravat in pieces, and occasionally suspending the fragments on the bushes, as she passed along, in order no doubt, that her body might be found. Her book was found but a short distance from where she made her final bed. It is presumed that she had walked until her limbs were either frozen or quite benumbed; and that trying to get over a log, or root, she had fallen, and finding herself unable to rise, had deliberately adjusted her clothing, and had laid down to die. It is probable that she was considerably frozen before she finally sank under her sufferings several pounds of ice were frozen to her clothing in such a manner as to render it certain that it must have accumulated while she was travelling. Of course, any opinion as to when the poor sufferer died, must be mere conjecture. Considering the weather, she probably could not have survived the sufferings of Tuesday night. She had travelled a good many miles, and crossed several dreadful swamps. She had a pair of new shoes, one of which had become entirely useless, having no outside, and the inside being turned back, and a hole being worn through a thick woollen stocking, leaving a portion of the foot bare.

DANGER ATTENDING PRECOXIOUS DEVELOPMENT.—There can be no doubt that many a child has been sacrificed in early youth to the pride of parents, who, delighted with the intellectual activity of their children, have striven to make them prodigies of learning. But in these cases of early and undue employment of the brain, inflammation of the hemispherical ganglion, or of the lining membrane of the ventricles, with serious effusion, has usually been the cause of either a fatal issue or of subsequent mental imbecility. The late Mr. Deville related to me an interesting case of this kind. An extremely intelligent boy, of about twelve years of age, was brought to him for phrenological examination by a parent who was very proud of the intellectual endowments of the child. Mr. Deville gave his opinion of the boy's character, at the same time cautioning the father of the dangerous course he was pursuing. But the father's reply was, "All that other boys considered labor and hard study are mere child's play to him; that his studies could not be hurting him, he enjoyed them so much." Again Mr. Deville endeavored to save the child, but the father would not attend to the warning.—Two years from that time the father again called on Mr. Deville, and in reply to his inquiries after his child, the father burst into tears: "My child was an idiot."—[Solly on the Brain.

"Overcome evil with good," as the gentleman said when he knocked a burglar down with the family bible.

BANK NOTE LIST.

Table with columns: BANK, PENNSYLVANIA, NOTES AT PAR, DISCOUNT, and DELAWARE. Lists various banks and their note statuses.

DR. SWEETSER'S PANACEA.

THIS Medicine is warranted, on oath, not to contain a particle of Calomel, Corrosive Sublimate, Arsenic, Chloride of Gold, or any deleterious mineral. The principle upon which this Medicine acts, is by assisting and harmonizing with nature, it drives out all foul acrimonious humors from the blood and body, and by assimilating with and strengthening the gastric juices of the stomach, it assists digestion; in short there is not a vein, artery, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the bones and joints.

DR. LE ROY'S Vegetable Universal Pills.

DR. LE ROY'S Pills are a new medicine which has just appeared, and is fast taking the place of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparilla and Wild Cherry, so united that they act together; the one, through its admixture with other substances, purifying and purging, while the other is strengthening the system. Thus these pills are at the same time tonic and opening; a desideratum long and eagerly sought for by medical men, but never before discovered. In other words they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no debilitation, and are followed by no reaction. Dr. Le Roy's pills have a wonderful influence on the blood; they not only purify without weakening it, but they remove all noxious particles from the chyle before it is converted into blood, and thus make impure blood an utter impossibility. As there is no debilitation, no there is no nausea or sickness attending the operations of this most excellent medicine, which never strains or tortures the digestive functions, but causes them to work in a perfectly natural manner; and hence persons taking them do not become pale and emaciated, but the contrary; for while it is the property of the Sarsaparilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united operations.

H. B. MASSER, ATTORNEY AT LAW.

Business attended to in the Counties of Northumberland, Union, Lycoming and Columbia. Refer to: P. A. RAYBURN, LOWE & BARRETT, SORENS & SPOONER, REYNOLDS, McFARLAND & Co. SPRING, GOOD & Co.

The Grand Purgative FOR THE CURE OF

Headache, Giddiness, Measles, Salt Rheum, Rheumatism, Piles, Heart Burn, Worms, Dyspepsia, Nausea, Cholera Morbus, Small Pox, Jaundice, Goughs, Quinsy, Pains in the Back, Whooping Cough, Inward Worms, Consumption, Fits, Palpitation of the Heart, Liver Complaint, Ring in the Ears, Erysipelas, Deafness, Dropsy, Asthma, Itchings of the Skin, Fetors of all kinds, Cuts, Gout, Gravel, Female Complaints, Nervous Complaints, AND A VARIETY OF OTHER DISEASES ARISING FROM IMPURITIES OF THE BLOOD, AND OBSTRUCTIONS IN THE ORGANS OF DIGESTION.

Experience has proved that nearly every Disease originates from Impurities of the Blood or derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the Blood to its natural state. The aversion to taking medicine is most effectually removed by CLICKEN'S VEGETABLE PURGATIVE PILLS, being completely enveloped with a coating of pure white Sugar, (which is as distinct from the internal ingredients as a nut shell from the kernel) AND HAVE NO TASTE OF MEDICINE. But are as easily swallowed as bits of candy. Moreover they neither nauseate or gripe in the slightest degree, but operate equally on all the diseased parts of the system, instead of confining themselves to, and racking any particular region. Thus, if the Liver be affected, one ingredient will operate on that particular organ, and, by cleaning it, of an Excess of Bile restore it to its natural state. Another will operate on the Blood, and remove all impurities in its circulation; while a third will effectually expel whatever impurities may have been discharged into the stomach, and hence they strike at the root of disease, remove all Impure Humors from the body; open the pores externally and internally; separate all foreign and obnoxious particles from the chyle, so that the blood may be thoroughly pure—thus securing a free and healthy action to the Heart, Lungs and Liver; and thereby they RESTORE HEALTHY VIGOR WHEN ALL OTHER MEANS HAVE FAILED.

PHILADELPHIA Watches, Jewellery and Silver Ware, Guaranteed better for the price than of any other Store in Philadelphia, may be had Wholesale and Retail at (Late NICHOLAS LEHRMAN'S) No. 72 North 2d street, above Arch, PHILADELPHIA.

Watches, all kinds, fair, low and medium qualities, among which are, Gold Levers, full jeweled, \$10 to \$100. Silver Levers, do 25 to 40. Silver Levers, do 20 to 26. Quartzes, fine, do 9 to 10. Jewellery.—Diamonds, Gold Chains, Gold Pens with Gold and Silver holders, Pencils, Breast Pins, Finger and Ear Rings, Bracelets, Cameos of shell, coral and lava, with every other article of Jewellery of the richest and most fashionable patterns. SILVER WARE—Plates, Forks, Spoons, Cups, &c., of Standard Silver. PLATED WARE—Custards, Cake Baskets, Fans, Vases, Card Cases, and other Rich Fancy Goods in great variety.

DICKSON & CO. No. 50 Market Street, five doors below Third, South side, PHILADELPHIA, Importers and Wholesale Dealers in Watches, Watch Glasses and Materials, Jewellery of all descriptions, qualities and styles, comprising all the articles connected with the Trade.

ROVER'S First Premium Writing Ink. No. 87 North Third Street, PHILADELPHIA.

FROM Dr. Hare, the celebrated Professor of Chemistry in the University of Pennsylvania. "Philadelphia, Oct. 11, 1843. Dear Sir—Having tried your Ink, I will thank you to send me another bottle, as I find it to be excellent. I am yours, truly, ROSE HARE."

FROM Dr. Locke, of Cincinnati, distinguished for his numerous scientific researches. "Medical College of Ohio, Cincinnati, January 17, 1844. Having used Mr. Hove's Writing Ink, I am satisfied that it is the best which has ever come to my knowledge, and especially it is excellent for the use of Steel Pens, and will not corrode them, even in long use. JOSEPH E. HOVER, Prof. of Chemistry, HOVER'S ADAMANTINE CEMENT. From a well known scientific gentleman. "Philadelphia, Feb. 27, 1846. Mr. Joseph E. Hove—Sir: A use of your Cement, and some practical tests of its superiority, has induced me to recommend it to others as an invaluable article for mending China, Glass, or Cabinet Ware. CLEVELAND, MO. Analytic Chemist."

FOR sale at the Manufactory, Wholesale and Retail, No. 87 NORTH THIRD STREET, opposite Cherry street, Philadelphia, by JOSEPH E. HOVER, Manufacturer. May 22, 1847.—300 ly

MOUNT VERNON HOUSE, 95 North 2d st., bet. Arch & Race sts., Philadelphia. BRADY & PARKER respectfully inform their friends and the public that they have taken the above named house, recently kept by J. S. Adams, and are prepared to accommodate customers in the most satisfactory manner and at reasonable rates. Their table will be supplied with the best variety the market affords; their parlors and sleeping apartments will be in the best order. The house has been thoroughly repaired and furnished with a view to the comfort of travellers and strangers. Having had several years experience in the business, they hope to give general satisfaction, and respectfully invite travellers and strangers to give them a call. BRADY & PARKER. Philadelphia, January 19, 1847
