New York, are duly authorized to solicit and

FOR GOVERNOR IN 1860,

HON. HIESTER CLYMER

OF BERKS COUNTY.

Democrats Organize.

We again urge our Democrats to organigo at once, for the Spring Elections and spare no pains to carry as many townships us possible. " Let it be remembered that the Spring Elections are very important. In the townships and boroughs is where the political organization begins. If you permit dishonest Republican politicians to be elected, you will lose many an honest vote. It cannot be denied; the record of our courts, not, only in this county but in many others, will show that Republican officers will reject loyal Democratic votes under a

wealth of Pennsylvania. They will beffle naturalized citizens by illegal tests and requirements, and resort to any measures however illegal and unjust in order to lessen the majorities, or decrease the vote of the Democratic party. Besides the many local advantages, there are other reasons why known in this Commonwealth. The Democracy as ever, with the Union and the Constitution for their watchwords; with President Johnson in their ranks, are determined to maintain the rights of while men. to restore the Union, and protect our Relonary Radicals who are attempting to overthrow it and erect upon its rains a mongrel despotism

In this great contest the Spring election is the starting point. Let us begin the contest against negro suffrage and negro equaling way. Let us rally our forces against them and suffer no township to be carried by the Republicans which can possibly be prevented. Where we carry the townships, we carry the County, when we carry the ing defeat next Fall.

## The Radicals Cave.

Great Virtue in Coolness.

The Republican (disunion) jourcals throughout the country are attempting to ride two horses, each running in an oppo site direction. Their legs, like their con science, may stretch to a great length, bu they must see that in this undertaking they will soon fail. It's time they bold their causes and counsel moderation. It's time they pause and look before they apply the tion of Congress, and shows the real obects they are seeking to accomplish .-Hence all the Republican Disguion organs, except Dead Duck Forney, who is past cure, are filled and blazing, with the following appeals, "In God's name let us use a'l the eaution possible to prevent a conflict with the President." The President tells us if his plan shoold fail he is willing to change or modify" and It is very evident that just now we cannot attain the radical ineasures which our friends desire" "Most improdent and hazardous would it be at this time to allegate from us the earnest man who stands at the head of government, "Perhaps he will aid as still as regards the basis of representation of southern votes." The above quotations are true and perfect samples of the tone of most of the dis-

union journals, they pray and hope, and hope and pray that the President's plan will fail, that he will still aid them in their work of centralization and smalgamation. But alus ! It's too late, he appeals to the people, to be party or section for support. but calls upon the whole people as they value their liberties to rally in defence of conatitutional government before it is everlastingly too late.
