FOR GOVERNOR IN 1866, HON. HIESTER CLYMER, OF BERKS COUNTY.

Who are the real Friends of the Negro?

Upon this question we believe there is a great deal of quackery and hypocrisy among the blatant Radicals both in and out of Congress. The chief theme of the Disunion journals throughout the land is the abuse of every one who will not admit that the negro is in no respect inferior to the white man. For years they have been engaged in this work, but they have never yet produced a single fact, nor a sensible argument to sustain their theory, and yet they demand that they shall be called the special friends of the negro race because they talk a great deal to convince the people that white and black are precisely alike.

They denounce the President because he will not shut his eyes and say "amen" to every silly thing they utter. They stigmatize every individual as a "copperhead," "rebel" or "traitor," who takes exwe know that this cheap philanthropy, this doing the African race any good to ignore at no distant day. facts, to hunt out excuses for a condition of life which is plainly the result of the inferior intellect of the "poor African." Time will show that the worst enemies of the "poor Negro" are those who have taught him to demand perfect equality with those upon whom he depends for employment and protection.

The Late Elections.

At no time in all our political experience have the Spring Elections resulted so decidedly in favor of the Democracy. Districts that have heretolore given decided Republican majorities are now putdown as having gone Democratic; and in all the counties heard from, our vote has been largely increased. This is a strong indication how the State will go in the coming gubernatorial contest; it is the expressed sentiment of the great masses, brought out by their own 8. M. PETTENGILL & Co., 37 Park Row honest convictions. The people are heoften committed in supporting Republicans for office, men who have carried out Abolistionism and exercised tyrranny over the people to its farihest extent, men who plunged us into an unnatural war, burdened the people with taxation, and are to-day, save the President, using their atmost power to plunge the whole country into puter ing the present dominant party to the position they hold. In the eyes of many, our country is irretrievably lost.

It is plainly to be seen that the people are again returning to common sense and reason; that they are regretting the heavy loss of blood and treasure, through the misrule and reckless management of the Abolition party, and now are, though late the hour, endeavoring to bring the unsettled difficulties between the North and South to a peaceful and final adjustment, by the complete overthrow of the Abolition party.

### A Good Example.

Hon, Eli Thayer, of Massachusetts, has separated himself from the so-called Republican party, and takes a bold and decided stand in favor of the Democracy. He has taken the stomp in Connecticut against the Republican candidate for Governor, and ning, at New Haven, he said :

I say that the only Union party I know of now is the Democratic party. (Applance) I have asked no man's advice about the standard I was to take in this crisis of the cation; I desire no man's counsel; your State Committee nor any one else ever asked me to come to Connecticut to make a speech-I volunteered my services in the work. I sold the Chairman of your State Committee I would be here, and that I would speak every night until the election, and even oftener if it were desirable. Having entered into this fight, I intend to continue in it until this issue is fairly decided by the American people.

Turning from this subject, Mr. Thayer entered into a scathing exposition of the Bureau Bill. He alinded briefly to other

Like Mr. Thayer, we say that the only Union party," we know of is the Democratic party which to-day, more than ever, is flashed with victory. The Democracy never asked President Johnson more than any other man to come to their standard, or endorse their principles, or carry out their policy. But as an American, as a man having respect for the Constitution, for law, order, peace and a revival of national respect for legal government, and a national ove for liberty, is compelled to assume Democratic measures. Should he even desire it, he can never regain the confidence of the Radicals. All true and sincere conservatives will follow the course of Mr.
