The Juveniles of this place employ their leisure hours in playing Base Ball. The Clubs consist of boys from ten to fifteen years of age.

The pay of Congressmen, as increased by the abolition rumps, is \$5,000 a year. What do you think of that, farmers, mechanies and laboring men?

Hoop Skirts, Hopkin's "own make," 628 Arch Street, Philadelphia, advertised in this issue, give universal satisfaction. Ladies note the fact.

The County Superintendent, Charles G. Barkley, advertises, by hand-lill, his Fall examinations of Teachers for Columbia County. They are put up in the most conspicuous places.

Frank Leslie's Magazine for the month of September has been received, filled to over-flowing with choice reading and embelishments of the highest order. Its fashionplates are rich and racy, and can't help but please the ladies in the highest degree. Published at New York; price \$3.00 per annum.

It will be noticed that Charles G. Barkley, Esq., of Bloomsburg, has been appointed Chairman of the Democratic Standing Committee of this county, for the ensuing

Some Sportsmen of this place have been enjoying themselves, in shooting squirrels, during the past week. We understand that this kind of game is quite plenty in this, and adjoining counties.

The Democracy of Lycoming have nominated the following ticket: For Congress, Hon. James Gamble, of Lycoming County, (subject to the decision of the Congressional Conferees); for Assembly, Hon. Charles D. Eldred, of Williamsport.

The Pennsylvania State Agricultural Society will open its annual exhibition at Easten, on the 25th of September. The Society are busy completing the arrangements for a display which promises to be the greatest ever had in the State. The premiums offered are more liberal than those of any

A Camp Meeting, under the direction of the Pastors of the Methodist Congregation, was held near Lime Ridge, in this county. It continued its sessions about a week. Quite a number of persons from this place attended it during its continuance.

JOB PRINTING. - Having combined all the material belonging to the two printing offices, heretofore known as the Columbia Democrat and Star of the North, we are now prepared to do job-work, such as Posters, Hand-bills, Circulars, Cards, Letter-Heads, Bill-Heads, Labels, &c., in the best styles, and on short notice. Orders by mail promptly attended to.

To Our Patrons.-Every reader of the DEMOCRAT AND STAR has some influence, certainly enough to get one subscriber apiece. . Let every one feel that it is obligatory upon him to do so, and we will in a short time give you a paper worthy of your most cordial support. Go to work Democrats, in every lo- NEW ADVERTISEMENTS. cality, in every neighborhood, in every township and help us in the cause of right, jusfice, humanity and Democracy.

We notice that the foundation walls of the new Institute Building are nearly finished and the whole work is being forwarded as fast as possible, with the expectation of getting one story ready for occupancy for the Winter Term. The Fall Term, which commences next Monday, Sept. 3d, will hold its session in the old building, and the prospects are favorable for a full term.

The Old Guard, for September, is already on our table. It is well filled with choice literary and political matter. Its editorials are short but to the point. The September number contains a magnificent engraving of Gen. Sterling Price, late of the uthern Army. Every Democrat should take this popular Magazine. Price, \$3.00 gone radical changes in its internal arrangements, and its proprietor announces to his accommodations and the travelling public that his accommodations and the travelling public that his accommodations Co., No. 162 Nassan Street, New York.

Keep it before the people that Mercur, the Abolition Congressman in this Distriet, voted for the passage of a bill to extend the right of suffrage in the District of Columbia. All the Democrats voted against it. Keep this constantly before the people; don't allow the Abolitionists to dodge it. Porce it upon them; they can't deny it. Mercur's vote stands against him, in favor of giving the vote to the negro. He is one of the men that holds that this is not a white man's Government. We should see that he does not get the support of white men for re-election to Congress this fall. 1 August 22, 1966,-36.

The Democratic Convention was largely attended—much more so than any previous Convention ever held in this county. There was a great deal of interest felt in the nomination of State Senator; as the candidates had canvassed the county thoroughly and worked up the minds of the people pretty generally, during which time many false issues were raised, in which the editors of this paper were repeatedly dragged. The electioneering campaign had become entirely too warm, and we trust other campaigns. ket price in cash or trade for all kinds of false issues were raised, in which the editors too warm, and we trust other campaigns, previous to nominations, will be conducted with far better spirit.

The salaried servants of President Johnson, in this town, have ceased all opposition to the Radicals, and have opened the columns of their organ to malign the motives and misrepresent the character of the DEM-OCRAT AND STAR. They are bitter and unscrupulous in their opposition to us, and, while drawing their support from the public chest, they are actively intriguing in support of the Radical faction. Their greed for, and disappointment in obtaining, Democratic subscribers has made them angry. Their patriotism is closely and sympathetically related to their pockets. Democrats are too wise to be fooled by their shallow pretentions in opposing Abolition-Disunion-Radicalism.

WHO WOULDN'T BE AN EDITOR ?-If an editor omits anything, he is lazy. If he speaks of things as they are, people get angry. If he glosses over or smoothes down the rough points, he is bribed. If he calls things by their proper names he is unfit for the position he occupies. If he does not furnish his readers with jokes, he is a mulet. If he does, he is a rattlehead. If he condemns the wrongs, he lacks discretion. If he lets wrongs and injuries go unmentioned, he is a coward. If he exposes a public man, he does it to gratify spite. In short, about the only thing he can do to please everybody is to tell people of the large, fine and cheap stock of Fall Goods now on hand at David Lowenberg's and A. J. Evans' Great Clothing Stores.

Another Valuable Remedy.—Some six years since, Messrs. J. R. Nichols & Co., manufacturing chemists, of Boston, called attention to a new combination of Peruvian Bark with the Protoxide of Iron, which has proved a remedy of great service as a restorative and tonic. Recently the same house have been led to prepare an alterative, or a remedy designed to break up diseased action and improve the quality of the blood. This is a combination of Sarsaparilla, an extract of the root, and Iodide of Lime, a new remedy of high repute among physicians. The name of the combination is Sarsaparilla with Iodide of Lime. This will be a welcome accession to the list of remedics of a town cotemporary to the errors in his pa- high and reliable character, which are placed within the reach of the public. It is for sale by the druggists.

It will be seen, by hand-bills, that there is another Circus coming to Bloomsburg. We have the evidence, in all our We understand that Jacob Deihl, of exchanges where it has exhibited, that it is this place, had \$1540,00 taken from his Bu- a one-horse concern. It can neither gratify your curiosity, nor edify your mind, but is a poor, broken-down "cuss" of a circus.

THE LADY'S FRIEND FOR SEPTEMBER.-A charming Steel Engraving of a Mother bending over her sleeping Child, adorns the September number of this favorite monthly. The large sized colored Fashion Plate is as choice and refined as ever. MPORTANT TO FARMERS.

HAND FANNING MILL. THE patentec, Mr. GEORGE LEACH, after twelve

GREAT IMPROVENENT IN

ears of experimenting in the construction of fanand grain cleaners, has at length perfected a very simple device by which farmers can arrive at any perfection in the selecting of all kinds of grain for

I claim for this machine that it does away with all counter currents, and gives an even uniform blast esting the grain by weight and not by size.
The conviction is now well grounded in the minds of the best scientific men of the country, that the marked depreciation of the grain crops for years back, is owing to the degeneration of the seed sown and not to the poverty of the soil, and it is also the minion of many that the weavil and other destroy ing insects, so destructive to the crops, are produce and matured within the kernels, thus rendered lighter than the others, so that they are by this machine ntirely removed. This improvement may be attached to any ordinary

fanning mill. It can chaff much faster and clean grain for market more perfectly than any machine extant It enables the farmer to select from his merchant grain, the soundest and healthiest berries for

By this means also, all grass seeds may be brought to the same perfection for sowing, as the best of grains. GEORGE LEACH. grains. Owego, Tioga Co., N. Y.

1 refer, by special permission, to the following letter of the New York State Agricultural Society:

HON. COMMISSIONER OF PATENTS: I have examined with great care Mr. Leach' Fun. of Owego, Tioga County, New York It seems to me, on careful examination, that it is an improvement of vast importance to the farmers, millers, and all in fact who use grain. It is very simple, and will give to the farmer long needed means to separate the grain, it gives a uniform berry, and thus uniform plant, all ripening at the same time, thus adding a large percentage to the crop, I hope, on care ful examination, that you will think it worthy of a place among the approved inventions.

I am very truly yours, 8, P. JOHNSON, Sec'y of the N. Y State Agricultural Society. The undersigned, having used and tested Leach' Fan in separating and selecting our seed grain for the last year, are fully satisfied with the improvement and gladly endorse the Secretary's letter, and recomnend to the farmers generally to make use of it be

fore the next sowing :
