CLEAN PIGS AND DIRTY PIGS .- Pigs enthe reputation of having a real liking for ; and, certainly, the way in which they are kept on some farms would show that their owners are determined to give them ample opportunities for carrying out this liking. than this, as none is certainly so productive STOCK OF DRY GOODS, both cases, and other general treatment, being the same; and the result will show him which of the two is better in the end. A great deal depends upon the mode in which they are housed.

How TO PRODUCE MUTTON .- "In the e most important point. The next thing and the public g-nerally. is to keep them growing, from the time they ter-house, pever allowing them to grow GREAT ATTRACTION poor at any season of the year. I have fed them all the hay, peas and oats they will eat. Peas are better than Indian Corn for making Oats furnish nitrogenous matter for the formation of necessary muscle. Peas produce more fat than the same number of pounds of cereal grain."-American

FEED LABORERS WELL. - Wealways found that it was infinitely better policy to set a good table and feed laborers well, than to give them a short meal, or try to ever get them to labor an unreasonable number of - hours in a day. A good farmer will not seek to get extra work out of his laborers by turning day into twilight or night. Laborersre- Grocery and Variety Store. gard this practice as an imposition, and will He is determined not to be undersold. All kinds of become morose and disconted at the exaction. Besides exhausted nature requires a suitable time to recruit its energies, and should have it.

MANAGEMENT OF BUTTER,-Great care is required in salting or seasoning, whether a distant or a home market. Over salted butter is not only less palatable to the taste but less healthful than fresh sweet but- Latest and Grandest opening of the season ter. The same care is needed as to the box in which it is to be packed, whether it be a firkin in which it is to remain till used, or on- Cheap and Ectensive Dry Goods Emporily in the box to take to market as fresh lump | um at butter. The best and richest flavored article will be spoiled by sending it to exhibition or to market in new and improper boxes .-Massachusetts Ploreman.

A HINT TO HOUSEKEEPERS. - Housekeeping is a business, and the best of business. provided one goes through with a liberal apprenticeship under pleasant supervision. Those who undertake to teach housekeeping should be gentle, good-natured forbearing and forgiving-should have a place for every thing and everything in its place-should have sufficient discernment to discover when the work is becoming burthensome to the the young limbs-should lighten labor with pleasant chat-and should be guided by a golden rule-"make the best of everything."

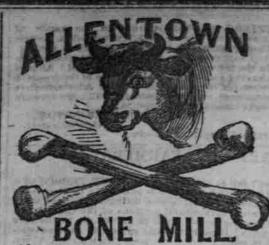

GOOD CULTURE. - In farming, like all other branches of business, success depends upon many points, none of which it is safe to neglect, but the chief of these is the careful preperation of the soil. In a wet time, the surface only needsstirring, for if we plow deep, the soil becomes sodden and its fertility locked up; on the other hand in a dry season we must plow deep and thoroughly pul-Baskets, &c. &c. verize the soil or we may not expect good

WOOL VS GRAIN .- A correspondent of the Prairie Farmer says "my wool has always been sold at home before delivering. For the last eleven years the price has averaged a faction less than 50 cents per lb. Better than any grain raising can show, I think. There has been no timeduring that Just received a new stock of period but what it paid. It is not so with TON YARNS, CORSETS, WOOLEN AND COTevery kind of grain. There has never been a failure, as with grain.

MOST PEOPLE, says the English Gardener's Chronicle, will be astonished at the effect upon plants of a liquid manure, made by adding to one gallon of stale human urine, at least a week old, two ounces of sulphuric acid. and soon afterwards two onnees of pulverized chalk. When wanted for use, stir the mixture, and to each pint add at least two gallons of water, and apply it to grass or plants.

An enterprising Californian has started for the East with a drove of horses, the native breed-some five hundred-intending to drive them into Missouri to supply the demand. These horses cost but little on the Pacific slope, are tough, and can live on a bunch of grass.

To DESTROY HOUSE FLIES. -- House flies may be effectually destroyed without the use of poison. Take half a spoonful of black pepper in powder, one teaspoonfull of brown sugar, and one teaspoonfull of cream; mix them well together and place them in the room on a plate, where the flies are troublesome, and they will soon disappear.

"PURE BONE DUST."

"Concentrated Bone Fertilizer," a reliable quick yielding manure.

Farmers can order direct or through any re-Partners can order direct or through any re-ponsible dealers. A liberal discount allowed Dealers. A J. BREINIG. August 1. 1866 - 2m.

IODIDE OF LIME.

ELIXIR PERUVIAN BARK Protoxide of Iren. Which has become so favorably known as a

TONIC AND RESTORATIVE.

ly Physicians and Invalids in all parts of the coun The new preparation, "Sarsaparilla in combina-ion with lodide of Lime," presents one of the most rompt alterative agents, in a form capable of exertng full action upon the system, and this in minute and pleasant doses. It is conceded that the altera-tive, resolvent, or tonce effects of lodine are exert-ed most decidedly when associated with other alter-atives, in combination; and the Sarsaparilla seems

o fulfill perfectly all the favorable requisitions. The first effect usually observed when "SARSAPARILLA WITH IODIDE OF LIME" staken, is an increase of appetite showing that it has tonic properties of a marked character. Its al-terative effects are manifest in its ready combina-tion with the blood and tissues. Pale, accordious women and children improve rapidly under its use, and the vital functions assume a healthy condition. It is admirably adapted to a large number of chron-c or acute affections peculiar to children. It is suit-a to them both by the mildness and efficiency of edicinal effort and the pleasant, attractive form o medicinal effort and the pleasant, attractive form of the remedy, it may be given for a long period where constitutional influences are desired, and no repug-nance, or distinctinat on to take the syrap, encoun-tered. In White-Swedings, flip-Joint Disease, and Distortions of the Spine, it should be given persist-ently, in moderate doses, until relief is obtained.

In the Spring of the Year, and during the Warm Weather, the accumulation of morbid matters in the system seems to become manifest and very troublesome Lassitude, Headache, Boits, Costiveness, Loss of Appetite, Paras in the Joints, Indigestion, etc., are very animon. Nothing ever devised is better adapted to atterminate or drive off these affections than this new embination of SARSACARILLA WITH TODIDE

Alterative, or Blood Parifier. has ever before been placed within the reach of invalids Indeed, it is an entirely saw and scantific combina on, in no respect resembling anything hitherto car lived. The opinion of medical men conserning it the deription of its chemical character, therapsutic val-, manner of use, etc., are given in a circular, hich can be had at the store of any and all first lass Draggists.
