DEMOCRATANDSTAR LOCAL DEPARTMENT. BLOOMSBURG : Wednesday, September 5, '66.

BT Ws will thank our renders for all local occur scenin their immediate localities. If they do not caire to write a communication for the public eye, ist them send us a brief statement of everything of interest in their respective communities. A list of marriages, deaths, accidents, fires, removals, busianges, &c. We will put them in form. The more facts of this kind we can get the better it will suit us and our readers. Who will do it ?

To ADVARTISERS .- Persons wishing advertisements inserted, must hand them in early on Tuesday moruing to insure their insertion for that week.

ANSWERS TO CORRESPONDENTS

H. J. C .- We will answer your questions next week.

J. M. B.-It is light alone that gives to ants and flowers their color.

DISUNIONIST, of Catawissa.-If you will send us your name we will publish your communication. It would certainly cause your Republican neighbors to vote for Hon. HIESTER CLYMER.

TEACHER .- The oft-quoted phrase, "The world is growing weaker and wiser," is er-roneous. It is held by our best, ablest and wisest men, that to-day, the world is stronger than ever before. Fowler & Wells, publish-ers of the Phrenological Journal, says that the phorism is derived from the following coupin the "Old Man's Wish," by Dr. Walter Pope.

"May I govern my passions with absolute sway. And grow better and wiser as my strength wears

SUCSCRIBER. — When you fail to receive your paper you may infer that it has been appropriated by some wicked rogue. We are very careful in making up our packages, to count the names and the papers in each package and have them agree, but having no control over the P. O. management, we cannot undertake to insure its receipt. We know that it is very provoking not to receive your paper regularly, and we hope the losses may be very few.

DAVID .- We cannot insert your communication. If you propose to follow literature, to become a reporter or writer for the press, we advise you to get a little more ed-ucation. Besides the bad grammer, spelling and writing, it is too personally degrad-ing for admission into a local newspaper. If you must write about your distinguished neighbors, suppose you give a personal de-scription of them, stating minutely all the details of their heighth, breadth, complexion, probable age, color of eyes, hair, mode of expression in talk, walk, &c. This will not harm them, but improve you, and be ing to readers.

Judge Rupert and Mrs. William Robison, of this place, had nearly all their peaches stolen, one evening last week. It is a scandal to the town, that such meanness should be perpetrated, and that too with impunity. Let our fruit growers keep guard, and the guilty parties can yet be brought to justice.

We met a young friend, from Monour County, the other day, who had in his buggy a crane which he had killed along the public road, near Jersevtown, measuring 7 fect 8 inches between the extremities of the wings, and 6 feet 5 inches the other way .-This was the largest of the wrial tribe we have ever known to have been killed in this neighborhood.

We are pleased to know that our young friend, John Hower, is fast bringing the BLOOMSBURG BRASS BAND to perfection. The citizens fally appreciate his labors; it is one of the institutions of the place which attracts considerable attention, and could not be well dispensed with.

IST TAKE NOTICE, all you housekeepers who wish to preserve fruit in its natural condition, SPEAR'S SOLUTION, kept at John R. Moyer's Drug Store, in Bloomsburg, is much the cheapest and most convenient way of saving fruit, and is warranted to preserve it in a perfectly fresh and wholesome condition for years. Sealing is not necessary. One ounce of the Solution will prevent fermentation or decomposition of eight pounds of fruit. The fruit retains its firmness and is equal to any sealed. Full directions accompany each bottle of the Solution. Try it. *

Ber We have been informed that a very dangerous accident occurred near Orangeville, on last Saturday night, after the adjournment of the Odd Fellows' meeting, between the old and new bridges above the

town. Jasper Kline, Mr. Pettibone and George Swaggart, on their way home from the Lodge, were unexpectedly, with horse and buggy, precipitated down a very steep bank, but fortunately, no serious injury was lone to any except the horse and buggy. It is said to be a very dangerous piece of road, and much complaint is being made of the authorities who still neglect to make the road perfectly safe for travelers.

IMPORTANT TO FARMERS. GREAT IMPROVENENT IN

HAND FANNING MILLS. THE patentee, Mr. GEORGE LEACH, after twelve years of experimenting in the construction of fans and grain cleaners, has at length perfected a very simple device by which farmers can arrive at any perfection in the selecting of all kinds of grain for

I claim for this machine that it does away with all unter currents, and gives an even uniform blast. esting the grain by weight and not by size. The conviction is now well grounded in the mind

of the best scientific men of the country, that the marked depreciation of the grain crops for years back, is owing to the degeneration of the seed sown, and not to the poverty of the soil, and it is also the pinion of many that the weavil and other destroy ng insects, so destructive to the crops, are produand matured within the kernels, thus rendered light ir than the others, so that they are by this machine

stirely removed. This improvement may be attached to any ordinary anning mill. It can chaff much faster and clear grain for market more perfectly than any machine extant It enables the farmer to select fro chant grain, the soundest and healthiest berries for

By this means also, all grass roods may be brought to the same perfection for sowing, as the less of grains. GEO2GE LEACH. grains.

Gwego, Tioga Co., N. I refer, by special permission, to the following let ter of the New York State Agricultural Society 1 APRIL, 1865.

HON. COMMISSIONER OF PATENTS : I have examined with great care Mr. Leach's Fan, of Owego, Tioga County, New York It seems to me, on careful examination, that it is an improve ment of vast importance to the farmers, millers, and all in fact who use grain. It is very simple, and will give to the farmer long needed means to separate the grain, it gives a uniform berry, and thus a uniform plant, all ripening at the same time, thus ad ding a large percentage to the crop. I hope, on care-ful examination, that you will think it worthy of a

lace among the approved inventions. I am very traiy yours. B, P. JOHNSON.

Sec'y of the N. Y State Agricultural Society. The undersigned, having used and tested Leach's Fan in separating and selecting our seed grain for the last year, are fully satisfied with the improvement, and gladly endorse the Secretary's letter, and recomhend to the farmers generally to make use of it before the next sowing :
