THE CENSUS .- The Census-takers will enter upon the discharge of their duties on the first day of June, and close on the first of August. As it very desirable that the progress of our country in population, as well as in agriculture, manufacture, commerce, arts, &c., should be known, correct answers to all questions should be returned. A mistaken notion has heretofore prevailed among many that if correct answers were given, it would lead to an increase of taxation. This is not so. A fine of \$30, moreover, can be levied upon a person who, through whim or caprice, refuses to answer the questions propounded to him by the Marshal. If all were made to understand the importance of this subject, and would give true statements of their various affairs, our increase in population and wealth would astonish the

THE GLORIOUS FOURTH.-Although our great national holiday is rapidly approaching, we have heard of no move be ing taken for the purpose of having a suitable celebration on the occasion. We are in favor of all holidays, but more especially are we in favor of the proper observance sized in Williamsburg, Blair county, of this anniversary of the day when our forefathers placed their names to the Declaration of Independence, and pledged their lives, their fortunes, and their sacred honor to the resisting of tyranny and aggression; thereby securing to us the invaluable blessings of liberty. Let somebody show his patriotism by interesting himself in the matter.

A N APERIENT and stomachic preparation of Iron purified of Oxygen and arbon by combustion in Hydrogen. Sanctioned by the highest medical authorities, ooth in Europe and the United States, and prescribed in their practice. The experience of thousands daily proves that no preparation I Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its ecessity in almost every conceivable case. nnoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, yspepsia, Constipation, Diarrhwa, Dysentery, ent Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruction, Whites, Chlorosis, Liver Comptaints, Chronic Headaches, Rheunatism, Intermittent Fevers, Pimples on the

In cases of General Debility, whether the esuft of acute diseases, or of the continued iminution of nervous and muscular energy rom chronic complaints, on trial of this reorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just returned from protracted travel in a distant land. Some very gnal instances of this kind are attested of male sufferers, emaciated victims of appaent marasmus, sanguineous exhaustion, crital changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for casons familiar to medical men, the operation of this preparation of iron must necessarily b alutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness. vithout ever being a gastric purgative, or inlicting a disagreable sensation.

It is this latter property, among others, which nakes it so remarkably effectual and permanent a remedy for Piles, upon which it also ppears to exert a distinct and specific action y dispersing the local tendency which forms
