LOCAL ETCHINGS .- The various assisant census marshals entered upon the discharge of their duties on the 1st instant. The pay they receive is as follows: two cents per head for the population reported; the same trick, and "that mud-puddle" a smaller compass, High street would pre- inhabitant." sent a more passable appearance.—A ittle six-year old son of Mr. Frederick Kittell had his right arm fractured in close proximity to the wrist on Friday last. The accident was occasioned by the little unfortunate falling down the steps attached to the Union School-house, while he was ngaged in play. - During the thundertorm of Wednesday of last week, a current of electricity entered the rolling-mill at Johnstown, and dividing into three separate bodies, played some strange freaks. A number of operatives who were handling ren implements were sensibly affected by he shock; some let go their instruments, thers were staggered, while some were steed upon their knees-but none were ajured, though all were badly scared. So savs the Tribune. Our enterprising and we believe completed, the ponrous undertaking of digging a drain rom the intended site for a foundation on which he engages to erect during the resent summer, a magnificent Tinware epot. The drain runs directly across ligh street, and down an alley-a distance about seventy-five feet-before it reachs an outlet .-- Tom Buckley successfully erformed his feat of walking one hundred asecutive hours without rest or sleep, at ohnstown. He would make an admirable ax-collector. Our town was unusually risk on Saturday eve, and a larger amount crinoline was visible than has been dung any one day since fine weather has set in. This is shrewdly supposed to have een so from the fact that, agreeably to e provisions of an ordinance made and nacted by our borough fathers, the varius piles of store-boxes, fire-wood, and her impediments, were recently removed rom the streets, thereby giving the fair redestriennes more room to spread themelves. - Johnstown is at present flooded with spurious and base imitations of Amercan currency, from the denomination known as gold dollar down to that of half ime - The new medical office of Dr. J. M. Jones, one door below the Presbyterito church, is rapidly approaching compleion. - The inauguration of the monument crected to the memory of Rev. J. McCullough, at Summittville, will take place on the 20th inst. The ceremonies will doubtless be interesting.--Last week's chapter concluded the introductory pertion of the History of Cambria county. This week Mr. Oldbuck (than whom no man is more competent) enters upon the ocal history of the different boroughs and townships. Everybody should read these papers, as they give historical incidents and items of general importance regarding our mountain home that cannot be found any other history or publication .---Jur quondam mountaineers, Joe and Jim Thompson, have vacated the city of brotherly love for a season, and have pitched

ADMITTED .- On Monday last, on motion of M. D. Magehan, Esq., Robert A. M'Coy, John E. Scanlan, Francis A. Shoemaker and George W. Oatman, Esquires, were admitted to practice in the several courts of Cambria county. These young gentlemen are all Ebensburghers, either by birth or adoption, and, we understand, passed a highly creditable examination. Messrs. M'Coy, Shoemaker and Oatman studied in the office of R. L. Johnston, Esq., and Mr. Scanlan was made acquainted with the mysteries of Coke and Blackstone by Col. Hasson. Knowing these candidates for public favor to be men of talent and energy, notwithstanding the crowded state of the legal fraternity, we bespeak for them a bright and glowing friend, Mr. George Huntley, has entered future, and hope they will be amply rewarded for their efforts by crowds of clients from among those who deal in the tortuous windings of the law."

> - A complimentary supper to the Bar was given by these newly-elected limbs of the law, on Monday night. It was gotten up in recherche style, by Foster and lady, of the "Arcade." All who had the pleasure of participating on the occasion, state that it was in reality a "feast of reaon and a flow of soul."

VARIETY HALL.-This extensive mercantile establishment has recently had several new additions put on it by way of adornment by its enterprising proprietors. These additions are in main in the shape of a new and complete coat of paint to the building, the erection of two bulk windows of elegant design and finish, and a thorsugh renovation and overhauling of all the fixtures appertaining to the store .--The building will now compete with any in town. Besides this, it is a notorious fact that the goods kept therein are, in quantity, quality and price, second to none in the market. If you wish to save money, by procuring a superior article at an inferior price, patronize Davis & Jones.

JUNE .- "Merry May" -- the month of birds, buds and flowers-has fallen a victim to the scythe of the remorseless tyrant, Time. May is always a welcome month, for in it we see nature burst the icy fetters that so long enthrall her, and come forth in the habiliments of joy. We are indeed loathe to part with her, but merely proposing "a tear to May, and a cheer to June," we hasten to state that the present is emphatically the month to purchase anything after the order of ready-made clothing, boots and shoes, hats and caps, &c., as C. R. Jones has made arrangements by which he is enabled to sell these articles cheaper than ever before.

PROF. J. C. SMITH, A. M .- Dear Sir: After a thorough practical test in the counting-room of the knowledge acquired at your hands, I am perfectly convinced that there is no similar institution in the United States, that combines so many and such superior advantages as the Iron City College; and I do most heartily commend it as an institution justly entitled to all the credit it has so universally secured .-S. M. Hebron, of the firm of James Hebron & Son, Millersburg, May 12, 1860.

ACKNOWLEDGMENT .- The editor returns his thanks to Mr. Henry Ely for the present of a string of beautiful trout-being a liberal allowance of a ten-dozen-and-"getation by it .- Talking of storms, we a-half batch he succeeded in enticing from the reminded that George W. Storm, the their native element on Saturday last.

We commend the following lines, from the pen of a valued occasional contributor to our columns, to the consideration of the lovers of the beautiful-for whose especial use and behoof they are designed :-

To a Sincere Friend of the Past. In other days-in schoolboy days-

I met a lassie fair and wild: While mutual love our hearts conjoined,

On me she smiled, ah! sweetly smiled. When scornful eyes on me were turned,

And angry tongues my name reviled, Then one defended-one sustained-And on me smiled, ah! sweetly smiled.

But false to her my bosom proved,

And traitor-like her peace I spoiled; In other scenes I soon forgot The one who smiled, ah! sweetly smiled.

Since then, as years have gently flown, I met her once at evening mild, And though a smile her cheek adorned,

'Twas not on me she sweetly smiled. And in the gay enchanting dance-Its giddy maze and joys so wild-Although her eye spoke sweet content,

'Twas not on me she sweetly smiled. Now oft I'll think in days to come, Of her I cruelly reviled;

And oft my dreams shall be of one Who on me smiled, too sweetly smiled. BALTIMORE, June 4, 1860.

MARRIED-At the residence of the bride's parents, on Thursday, 31st ultimo, by the Rev. David Harbison, Mr. J. ALEX. Moore to Miss Amelia G. Thompson, both of this place.

So it has been, and so it always will be until the end of time. One more couple is linked together in indissoluble bonds, and two loving hearts are thereby made supremely happy. Accept our gratulations: young, joyous and happy, may they forever be all in all to each other, and their love never grow dim; may theirs be lives of "peace and joyous bliss;" and may it be truly said of them

"Nor private jars, nor spite of enemies,

Could shake the safe assurance of their state." For the delicious remembrancer in the shape of a pound-cake, which was discussed thanks is tendered.

TURNED UP .- Daniel T. Jones, the man who has for some considerable time been missing from his home in Cambria township, has been heard from. A private letter from him to a friend states that he is at present in Lycoming county, en- flicting a disagreable sensation. gaged in arduous efforts to make a fortune turning. So, the mystery concerning this | them. affair is happily dispersed.

FUGITIVE SLAVES .- It is said that four fugitive slaves passed through this place eu route for Canada, on Saturday last .-Two pursuers also made their arrival here on Sunday eve, but-the birds had flown, and it is to be hoped that the poor refugees made connection with some of the numerous branches of the underground railroad, and are now beyond the reach of successful pursuit.

DMOTHS

N APERIENT and stomachic prepa-A ration of Iron purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest medical authorities, both in Europe and the United States, and prescribed in their practice. The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation. Dyspepsia, Constipation, Diarrhoa, Dysentery, ipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruction, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the

Face, etc. In cases of General Debility, whether the result of acute diseases, or of the continued diminution of nervous and muscular energy from chronic complaints, on trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critby numerous friends, a unanimous vote of | ical changes, and that complication of nervous and dyspeptic aversion to air and exercise for

which the physician has no name. In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or in-

o Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing. In the local pains, loss of flesh and strength, ebilitating cough and remittent hectic which generally indicate Incipient Consumption, this emedy has allayed the alarm of friends and

hysicians, in several very gratifying and ineresting instances. In Scrofulous Tuberculosis this medicated ron has had far more than the good effect of the most cautiously balanced preparations of odine, without any of their well known lia-

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and ts progress in the new settlements of the West, rill probably be one of high renown and usefulness. No remedy has ever been discovered in the whole history of medicine which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise immediately follow its use.

DR. HAMPTON'S ANTI-RHEUMATIC MIATURE, Cures Acute, Subacute, Chronic, and Nervous

This preparation is presented to the public with the utmost confidence in its efficacy. It has been the result of many years of study, observation, and experience. By its use I have restored to health and vigor, many who have for years been afflicted with this excruciatingly painful disease. When taken according to the directions, it never fails.

Dr. H. lately returned from a professional visit and residence of six months in Cuba, during which time becured more than one thousand (1,000) cases of this disease-some of which baffled the skill of the most celebrated European physicians.

Certificates of some of the greatest cures on record can be seen by application at his office. PREPARED ONLY BY
