

MISCELLANY.

TEARS.—There is a sacredness in tears. They are not a mark of weakness, but of power. They are messages of overwhelming grief, of deep contrition, of unspeakable love. If there were wanting any argument to prove that man was mortal, I would look for it in the strong convulsive emotion of the breast, when the soul has been agitated, when the fountains of feeling are arising, and when tears are gushing in crystal streams. O speak not harshly of the stricken one weeping in silence!—Break not the solemnity by rude laughter or intrusive footsteps. Despise not woman's tears; they are what make her an angel. Scoff not if the stern heart of manhood is sometimes melted into sympathetic tears; they are what help to elevate him above the brute. I love to see tears of affection. They are painful tokens, but still most holy. There is a pleasure in tears,—an awful pleasure. If there were none on earth to shed tears for me, I should be loth to live, and if one might not weep over my grave, I could never die in peace.

A SPLENDID SIGHT.—The Illinois Central Railroad, at a town called Matton, is crossed by the Terre Haute and Alton Railroad. Every day at about 2 P. M., is seen at this point one of the most splendid effects of the triumph of space over matter that can be witnessed anywhere. It is that of four trains coming from four different directions, arriving at this point at the same time to a second every day.—They can be seen as they approach ten miles in each direction, the prairie there being a smooth, broad expanse, stretching away to the horizon without any inequalities to obstruct the sight. As the arrive they approach their cowcatchers within twelve feet of each other as though exchanging salutations, when, gracefully backing, as though bowing an adieu, two of the trains go on switches, while the other two scream over the iron-bound prairie. The trains are then let go on the main track again, and they are off and away.

VERY COOL.—A gentleman on a visit to Washington, one day very coolly opened the Senate Chamber, and was about to pass in, when the door-keeper asked "Are you a privileged member?" "What do you mean by that?" asked the stranger. The reply was, "A governor, ex-member of Congress or a foreign minister." The stranger replied that he was a minister. "From what court or country?" asked the official.—Very gravely pointing up, the stranger replied, "From Heaven, sir." To this the door-keeper waggishly replied "this government at present holds no intercourse with foreign powers."

"I wish you had been Eve," said an urchin to an old maid who was proverbial for meanness. "Why so?" "Because," said he, "you would have eaten all the apple instead of dividing it with Adam."

USEFUL INVENTIONS. I AM manufacturing and selling, at the low rate of six dollars, O. C. GREEN'S PATENT FEED CUTTER, acknowledged by all who have tried it, the simplest, most durable and easiest operated machine ever gotten up. It will cut Corn Fodder, long Straw, sheaf Oats, tangled Straw, or Hay. I have the right of Cambria, Indiana, Armstrong, Clarion, Forest, Elk and Jefferson counties. I will dispose of the right in three or four of the last named counties on fair terms.

I have also the right for HAYDEN'S PATENT CARRIAGE WHEELS, in Cambria and Blair counties. This Wheel has stood the test of over four years in many of the Eastern and South-western States, and proves to be much stronger and more durable, although one-third lighter, than the ordinary Wheel. I do not desire to sell any of my territory on this, but will furnish Carriages, Buggies, Sulkeys, &c. I propose to accommodate Carriage-makers with Wheels (orbahs and axles) on reasonable terms. These Wheels are first superceding all others.
