LOCAL ETCHINGS .- The particular peiod of time when the great and glorious id Fourth of July occurs is rapidly apreaching, and no arrangements that we have heard of are being made to give it a meet and fitting reception; and from present indications, it will only differ from other days in that a greater amount of vilainous saltpetre will be burnt, and several rallons more of villainous tanglefoot drank, than usual. Our patriotism is certainly on the wane-but it is not quite extinguished. All that is needed is somebody to stir up the dying embers, and they will burst into a flame. But-who is going to tir them up? Nobody, perhaps. In iew of this fact, let's have a "miscellaneus" celebration-let everybody resolve himself into a committee of one to look after the welfare of our common country, for one day-let's have a big dinner, some ig speeches, and a big time generallying the bells, call up the Brass Band, get was perpetrated on the person of a highly ut the drums and fifes, and if the editor f the Mountaineer is agreeable, procure four miles from this place, on Wednesday he services of the Calithumpians for the of week before last, by a ruffian named ceasion. OUR THANKS .- There is occasionally a bright spot in the dark and gloomy sky which o'erhangs the editor; there is now and then a sprig or a flower to be found along the rugged pathway which he travels. To instance : On Monday last, we received the following curt epistle :

DEAR SIR :- You will please accept at our hands the accompanying insignificant present. Yours, truly,

JOE PATTON THOMPSON. JAMES M. THOMPSON. LEWIS BUDDY, JR., R. M. JONES.

Ebensburg, June 11, 1860. The "insignificant present" referred to was neither more nor less than a "large and respectable" string of trout, which, with numerous other representatives of the finny tribe, had on that fatal day fallen victims to the merciless skill which our friends displayed in the art of ichthyology. We wish it to be distinctly understood that we like all such presents, and we like the men who make them. Our friends, Messrs. Thompsons, Buddy and Jones have our best wishes for a pleasant sojourn on the mountain, every summer cutor and defendant. June 9, 1860, sentenced

A N APERIENT and stomachic prepa-ration of Iron purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest medical authorities, both in Europe and the United States, and prescribed in their practice. The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz :

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhaa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, etc.

In cases of GENERAL DEBILITY, whether the result of acute diseases, or of the continued diminution of nervous and muscular energy from chronic complaints, on trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their carried on in all its branches. All work will own neighborhoods, have suddenly reappeared be done on short notice and on the most reain the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating ; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also MALINELO, INCLUD, appears to exert a distinct and specific action, BLEACHED MUSLINS, by dispersing the local tendency which forms them In Dyspepsia, innumerable as are its causes, a single box of these Chalvbeate Pills has often sufficed for the most habitual cases, inclading the attendant costiveness. In unchecked Diarrhaa, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally WALL PAPER of every style, decisive and astonishing. In the local pains, loss of flesh and strength. debilitating cough and remittent hectic which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances. In Scrofulous Tuberculosis this medicated Iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities. The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them. In Rheumatism, both chronic and inflamatov-in the latter, however, more decidedlyit has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles. In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness. No remedy has ever been discovered in the whole history of medicine which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise immediately follow its use, Put up in noat fist metal boxes, containing 50 pills, Price 50 cents per box; for sale by druggists and dealers. JCHN P. JONES,

RIOT IN BLAIRSVILLE .- On Tuesday night, 12th inst., two Virginians who had visited Blairsville in search of some runaway slaves, were mobbed and severely beaten by a gang of free negroes belonging to that place. It seems that the pursuers received a despatch from somebody in Ebensburg (!) to the effect that the slaves had gone to Blairsville; to which place they immediately proceeded. After making some exploration about town, they became satisfied that they had been sold, and were returning to their hotel, at about ten o'clock at night, with the result above stated. One of the Southern gentlemen was pretty severely handled, but the other was not injured. The slaves have not
