LINCOLN AND HAMLIN CLUB. - According to previous notice, a meeting was held at the Court-House on Monday evening, for the purpose of organizing a Lincoln, Hamlin and Curtin Club. On motion, the meeting was called to order by the election of John Williams, Esq, as President; John Thompson, Jr., Thomas M. Jones, M. S. Harr, and Isaac Evans, Esquires, as Vice Presidents; and Edward D. Evans, Esq., Dr. J. M. Jones, and Dr. Goo. R. Lewis, as Secretaries. The President in a brief and pointed speech stated the object of the meeting. He was followed by A. C. Mullin, J. H. Campbell, and A. A. Barker, Esquires, in pointed and happy speeches.

A Constitution and By-Laws were then presented, and, on motion, adopted. A ou a charge of rape, preferred by a young general invitation was extended to those woman from Sylvania. ## To the People of Cambria.

The time is fast approaching for the People's Party of this County to assemble for the parpose of nominating a ticket to be supported at the ensuing general election. One of the duties of that Convention will be to select a candidate for the Legislature, as the late popular and efficient Representative of this county, R. J. Proudfoot, Esq., is not a candidate for the nomination; we therefore present the name of Dr. G. W. STROHECERE in connection with that important office. He is well qualified for the position and is a man who has been tried and not been found wanting. Ever true and always at his post, his fidelity to the important principles for which the People's Party is now contending has never been doubted. We feel if he is elected that he will acquit himself with credit to his constituents, and honor to himself. We claim him from the fact that he is well and favorably known, and would have many friends and supporters among the honest Democrats in the North of this MANY VOTERS.

DR MOTT'S CHALY BEATE RATIVE

A N APERIENT and stomachic preparation of Iron purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest medical authorities, both in Europe and the United States, and prescribed in their practice. The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhaa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruction, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the

In cases of GENERAL DEBILITY, whether the result of acute diseases, or of the continued diminution of nervous and muscular energy from chronic complaints, on trial of this rewhich no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or in-

flicting a disagreable sensation. It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant costiveness. In unchecked Diarrhaa, even when advanced

to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing. In the local pains, loss of flesh and strength, debilitating cough and remittent bectic which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and

physicians, in several very gratifying and interesting instances. In Scrofulous Tuberculosis this medicated fron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known lia-

In Rheumatism, both chronic and inflamatoy-in the latter, however, more decidedlyit has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles. In Intermittent Fevers it must necessarily be

No remedy has ever been discovered in the whole history of medicine which exerts such prompt, happy and fully restorative effects.
