Sencfound by the highest medical authorities, both in Luroje and the United States, and prescribed in their practice. The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise such a complexions, indirecte its consity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Delihity, Nervous Affections, Emociation, Dyspeptie, Construction, Distribute, Lysentery, Incipient Consumption, Screpulous Jubirculons, Salt Icheum, Musmanstruction, Whites, Chloresis, Liver Complaints, Chrome Headaches, Rheumotion, Intermittent Tevers, L'apples on the Face, etc.

In coses of GENERAL DEBILITY, whether the result of scate discuses, or of the continued diminution of nervous and muscular energy from chronic complaints, on trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden is to have become forgotten in their own neighborhoods, have suddenly respicated in the busy would as it just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, enuclated victims of apparent mation has, surguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.
