The Contest.

The contest in Cambria county, between the two branches of the "Democracy," would seem to be waxing hotter and hotter every day. The friends of Stephen A. minds," have drawn the lines closely, and are actively preparing for a vigorous fight. On the other hand, the seceding delegates, applauded for the course they pursued in Convention, and aided and encouraged by tion, the Governor should immediately as-Breckenridge men in all parts of the county, seem determined to make a bold stand for the young Kentuckian. That full county ticket seems now quite probable; as in no other way can the relative strength of the two wings be so well tested-the contest being, of course, more for the purpose of maintaining the real organization, dom, and not reproaches, for shattering a than with a view to success.

What tends to make this family dispute the more interesting, is the fact that the Loco-Foco Press, like the party, is divided upon the subject. The editors of the Echo and the Mountaineer-all Douglas to the core-are pitching into the secoders and the Breckenridge men generally, in a manner which, of a truth, is "fierce for to behold;" whilst the editor of the Democrat sist through sheer weariness. & Sentinel comes to the rescue of the latter, and, single-handed, returns the digs of all his adversaries, with a heroism only found in a valiant knight of the quill.

It would be worse than idle for us to say that we look on all this with indiffernce; it would be untrue. Of course, we look on and enjoy it, and only hope that it may continue. But let us admenish our friends of the People's Party, that both these contending elements are the enemies of our principles and candidates Even the' Loce Program in fighting against itself, candidate for Governor.

still that is no reason why we should not fight against it. Let us be up and doing, active, watchful, vigilant; this is no time for us to stand with our hands in our pockets. Our Party is now well united, and while we should feel thankful for this, let us endeavor to keep it so. If the Loco-Focos will "fall out, and chide, and fight" among themselves, so be it-all the better -but let us prepare to meet them as a common enemy. Better for us to conquer on our own strength, than through their dissensions and divisions.

Loco-Foco Extravagance.

It has always been customary with Loco-Focoism, when out of power, to charge the Opposition with squandering the people's money, and with driving the general government to bankruptey. The administration of Millard Fillmore, it will be remembered, was especially charged with the most profligate expenditures, and some of its members with having a general disposition to plunder the public treasury. Sim- | Cunningham in that city. ilar charges, coming from the Opposition and made against the other side, would approximate much nearer to the truth, and certainly be much more appropriate.

The administration of old Mr. Buchanan will furnish a memorable example of Loco-Foco misrule and extravagance-to say nothing of that high degree of dishonesty and corruption for which it is already so distinguished. When that old gentleman shall come to surrender the executive chair to Abraham Lincoln, the public debt will have swelled to about \$80,000,000. Nor does this include the \$20,000,000 which was turned over to Buchanan, at the time of his inauguration. Adding the increase to the balance received from General Pierce, and "the old public functionary" has spent at the rate of nearly \$20,-000,000 per annum above and beyond the revenue from all sources. This is the promised by the President, who was so greatly shocked that Mr. Fillmore's expen- yours, ditures should have approached \$50,000,-000 a year, when he was paying off the debts incurred for the Mexican war. The expenses for the last three years have nearly doubled those of Mr. Polk, while the war in Mexico was going on. This is the best commentary on the system of profligate expenditures which has been pursued. We have been at peace with foreign nations, and except the wars in Utah and Paraguay, where no guns were fired, and which appear to have been contrived for the benefit of contractors and their confederates only, the country has been blessed with peace. Yet we have and demands a change. No wonder that the People have determined upon the election of Abraham Lincoln and Hannibal Hamlin. No wonder!

THE OLD TUNE.-The Hon. Lawrence M. Keitt, of South Carolina, since his return home from Washington, has written a letter in which he takes ground in favor of a secession on the part of the Southern States. His chief thunderbolts are aimed at the Republican party, whose success he fears is one of the certain events the Loco-Foco County Convention, and in event, and says that he is prepared to lead nominating a ticket "just suited to their off in any enterprise which will precipi- ble, tate a dissolution. Lawrence is a formidable fellow on paper, as the following paragraph shows:

"In my judgement, if the Black Republican party succeeds in the coming elecsemble the Legislature, and that body should provide for a State Convention. which should protect the State from the world and at the bar of history, we shall in the spirit of a people than in the forms of a government. We shall receive the plaudits of brave men for preserving freedespotism. We of the South have done everything to preserve the Union. We have yielded everything but our honors .-Let us yield that only as an enemy yields

his banner." All this would be terrifying if it were not so very stale. It lacks the charm of novelty, however, and therefore alarms nobody. South Carolina has been playing the dog barking at the moon for so many years that we wonder that she does not de-

Register and Recorder.

To the Editor of The Alleghanian :

In the last number of The Atleghanian I perceive that a young man, who has become rather highly clated, from the fact of being (unexpectedly of course) placed at the head of the People's Party of Cambria County, undertakes to write a history of a part of the proceedings of our late Convention. The Chairman of the County Committee has always been considered a modest young gentleman, | Carroll of Carrolltown. and many of his former friends were no little astopished to find his name appended to an original communication of a column and a No one doubts his ability to write his name and write it well, but everybody doubts the fact of his being able to compose even as poorly gotten up an article as the one which appeared in the last "Alleghanian." Be this as it may, it is not my business to find fault with the style of the communication, but it is with its gross misrepresentations that I take issue, and my only object shall be to correct them, and exhibit to the people of my native County, the studied effort of Mr. Roberts to place me in a false position.

He starts out by saying I am circulating the report that I was cheated out of the nomination y the Clerks. This is a slight mistake. I never made such a statement, and would soon- all well graded, and kept in good repair. er be defeated than be guilty of even intimating that an honorable and high-minded man, such as I know Wm. M. I know it was no act of his to be associated with Mr. Roberts, as Clerk Mr. Jones, would for a moment supprese that he would or could approve of the means used

by some men to defeat my nomination. Mr. Roberts acknowledges that he kept no tally on the first ballot for Register and Recorder, yet he asserts, of his own knowledge, there were fifty-five votes polled. Mr. Jones who kept the tally, several delegates, and many spectators who also kept it, made only fifty-three. Will Mr. R. please inform the public how he knows a thing about which he knows nothing at all? Will he also please to state why he informed the President that an would like for him to be candid. "An honest confession is good for the soul," and if he is as candid as he ought to be. I know he must noving to him, and rather spoiled some nice arrangements, previously made, by which a certain defeated aspirant for the empluments of the Prothonotary's office, expected to become a Compromise Candidate for Register and Recorder.

He admits that only fifty-four votes were polled on the first two ballots for Poor House Director, and it is well-known that only fortysix were polled for Auditor. On these ballots Mr. R. kept the tally himself, and yet he says nothing about informing the President of an and consequently Mr. Roberts' keen perception did not enable him to discover anything wrong in less than a full vote being polled for any fice except that of Register and
