day's Philadelphia Press says, that Cresson is "destined to become one of the most popular bealth institutes in the country. The water is pure, the atmoswhere is cool and invigorating; the natural attractions of the mountain, its magnificent seenery, its unrivalled hunting and fishing facilities, are unsurpassed by soy in the country, and are sufficient to inspire the soul with lofty aspirations."-We are informed that we were in error last week in announcing that Mr. Henry Foster, of the "Arcade," had leased the "Logan House." The hotel has not yet been leased .- A call for a mass meeting of the friends of Lincoln, Hamlin and Curtin at Johnstown, on Saturday evening, the 18th inst., is issued. Hon. S. S. Blair, Hon. Louis W. Hall, and others, will address the meeting .- The cellar of Mr. Wm. K. Piper, in the northern part of town, was burglariously entered one night last week by some evil-disposed or haugry individual, and relieved of all is contents in the shape of edibles .---The first exhibition of the "Highland Agcultural Society" is advertised to be eld at Johnstown, on Thursday, Friday and Saturday, the 27th, 28th and 29th of September next. - Last Saturday was "cooler" of a day. Fire was kept in almost every stove in town until noon, and viater clothing was found to be a decidedcomfortable institution. Think of that, who luxuriate in tropical climates !-man named Mathias Wissel had his s broken on Friday week, by the caving f one of the Company's ore banks at chustown. - Blackberries are now fulripened and we can safely say that hay were never before plentier in this section of the country .- The project one thousand, supports seven churches, my it ought to be a moral place. We we happy to inform our friend that it is a preverbially moral place-probably therein slightly differing from neighboring localities .-- It is stated that the Hon. Chas. Somner, of Massachusetts, was to spend several days at Altoona last week .--hapter XXIII of the History of Cambria County gives some interesting matter with regard to Chest township .- The Capitola," is the name for the jaunty, saley little hat and feather worn by the gris. It is quite a change from the unouth-looking sugar scoop contrivances which have been so popular with the femthes for a short time past .--- Judge an, of Bellefonte, tried a case at Holli-Judge Taylor being a relative of one the parties .-- A band of gipsies pased through town the other day .--odey's Lady's Book for September is retived. What we like about this publiper that our friend, A. A. Barker, Esq., this place, lately addressed a Repuban mass meeting in Portland, Maine. -We learn that Mr. Wm. M. Jones is ng dangerously ill at his residence, in trolltown .- The editor of the Mounmeer is "down" on Cresson as a watering lace, and is proportionably in favor of oretto. Those who have visited both Places say that one is as good as the other and a little better. --- Richard Morgan, 4q., (of astronomical phenomena notori-(y,) denies most positively ever having

he and far between this week.

FATAL MISTARE .- The Johnstown Echo says that a woman named Clarke, residing at the South Fork, in Croyle township, was bitten by a rattlesnake on Monday evening, 6th inst., and now lies in a critical condition. It seems that some one of the family discovered the snake in the immediate vicinity of the house, and upon making known the fact to Mrs. Clarke, she procured a hatchet for the kettle and bring to a boil, then to 1 the purpose of decapitating the reptile, of strained juice add 4 tablespoonsful of but being near-sighted, she mistook the salt, 4 of black pepper, 1 of cayenne, 2 of ory, Loss of Power, Dimness of Vision, Imtail for the head, and whacked it off. > SERIOUS ACCIDENT .- On Tuesday of last week, an accident of a very serious place, after having been tightly scaled nature occurred to Rev. Festus Tibbott, over. an old and highly respected citizen of "Cambria township, who resides about one and a half miles south of town. It appears that he was engaged at the time in repairing something about the grist-mill he was engaged in greasing some of the of his son, when a plank upon which he was standing broke and precipitated him a distance of about fifteen feet to the ground. He was taken up insensible, and on examination it was found that two of his ribs were broken, and that his entire gam ned oil caught it and wound it around spinal system was materially deranged .-Fears were for a time entertained that he would not recover, but we understand that the next he remembers was finding himhe is gradually improving.

> to notice the fact that Col. J. M. Lytle, formerly of Blair County, has been, with his family, sojourning a few weeks in Ebensburg. The Col. is now connected with the wholesale boot and shoe establishment of Messrs. Warren & Wilson in the city of New York, where he will be happy to fill all orders in his line. > Sugar in Diarriga. - As the season when this complaint is generally prevalent is about at hand, it may be of use to know that some eminent doctors recommend the medical use of sugar as of great value. In the case of a child of four years, half an ounce of powdered white sugar [au2 given every hoursoon induced a favorable turn to symptons which had long resisted all ordinary means of cure.

CURIOUS DISCOVERY .- The other day, while a citizen of this place was digging in his garden, he came across a curiously engraved stone. After bringing it to the light and washing the dirt from its surface, the following characters were plainly discernible: "Go to C. R. Jones' and hysburg week before last in consequence buy your boots and shoes, hats and caps, ready-made clothing, &c." Good advice, to say the least of it.

IMPORTANT .- We are authorized to announce that J. A. Wissel, of the High ation is its punctual habits -- being al- street bakery, is now prepared to accom-*ays up to, and occasionally ahead of, modate the public with pound, cup, sweet, The place where you can get ginger, and other cakes, candies of all Jour money back is at Griffith Owens' kinds, together with a prime article of e, in the eastern end of town. Give sle, small beer or lemonade. All articles wishing to purchase will make application to chasers are invited to roll in.

> LIVERY STABLE .- Mr. James A. Moore, we understand, has established in this place a livery stable, where persons who so desire can procure horses, buggies, &c.

LYCEUM.-The following is the question for general debate by the Ebensburg Literary Association on next Friday even-

Resolved, That death was introduced into igned the call which recently appeared the system of organization by the apostacy of a a Johnstown paper, in favor of Maj.

TOMATO CATSUP .- As the time has arrived for enjoying this favorite sauce we give the following recipe for making it :- Wash the tomatoes and slice them; put them into a kettle with as much water as will cover them, boil until soft and strain them through a cullender; put the juice again into the kettle and boil three hours, then measure it; put it again into time, and put into crocks or tin buckets, and let stand over night. In the morning bottle it and set away in a dry, cool

MIRACULOUS ESCAPE .-- One day last week, Mr. Parks, miller at Baker's Crystal Spring Mills, near this place, made a most miraculous escape. It appears that machinery, and in doing so, came in contact with a perpendicular revolving iron shaft, about three inches in diameter, which was covered with gummed oil, and having no vest on, and his shirt having worked up loosely above his pants, the the shaft, drawing Mr. P. with it. He says he remembers going around once, but now many more times he can not tell, as self lying on the floor along side of the shaft, with both his over and under shirt PERSONAL .- We have hitherto omitted | torn off. It was fortunate that he fell, or was thrown, on that side of the shaft, for had he been thrown to the other side, he would have fallen upon the straps and wheels of the mill-gearing and been ground almost to powder. Other than a few slight bruises, he received no injury. How he escaped with sound limbs, even falling where he did, is a mystery. - Altoona Trib.

A N APERIENT and stomschie prepa-ration of Irea purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest medical authorities, both in Europe and the United States, and prescribed in their practice. The experience of thousands daily proves that no preparation of Iron can be compared with it. Insturities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Imacialica Dyspepsio, Constipution, Liberthan, Lyacutery, Incipient Consumption, Servindens Tuterculosis. Salt Pheum, Mismensisuation, Whites, Chlerosis, Liver Complaints, Chrenic Erocarkes, Kheu matism, Intermittent Levers, I'mples on the

In cases of GENERAL DEBILITY, whether the result of acute diseases, or of the continued diminution of nervous and muscular energy from chronic complaints, on trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invelids so long bedridden as to have become torgotten in their own neighborhoods, have suddenly respected in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of temple sufferers, enacheted victims of apparent manusmus, surpuince us exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for

which the physician has no mme. In Nerveus I fections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron nost necessarily be salutary, for, unlike the old exides, it is vigorously tonic, without being exciting and overheating; and gently, regularly operiout, even in the most obstinute cases of costiveness, without ever being a gestric jurgative, or inflicting a discurreble sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Pales, upon which it also ppears to exert a distinct and specific retien, by dispersing the local tendency which forms

In Pyspersia, innumerable as are its couses. a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant costiveness.

In unchecked Larriag, even when advenced to Lysentery, confirmed, emacisting, and apparently malignan, the effects have been equally decisive and astonishing. In the local pains, loss of flesh and strength,

debilitating cough and remittent heetic which generally indicate Incipient Communition, this emedy has allayed the slerm of friends end physicians, in several very gratifying and interesting instances.

In Serofuleus Tuberculesis this mediented fron has had far more than the good effect of the most centicusly balanced preparations of iodine, without any of their well known lia-
