

MISCELLANY.

MAJOR ANDERSON.—Major Robert Anderson, U. S. A., the commander of Fort Sumpter, was born in September, 1810, and graduated with high honor at West Point July 1, 1835, the date of his commission as Second Lieutenant in the Third Regiment. He served in the Black Hawk war, and in 1838 was assistant instructor and inspector at West Point. In 1838 he became Aid-de-camp to Major General Scott, and in the following year published "Instructions for Field Artillery, Horse and Foot, arranged for the service of the United States." "For gallantry and successful conduct in the war against the Florida Indians," he received the brevet of captain, bearing date April 7, 1838—July 7, 1838, he became Assistant Adjutant General with the rank of Captain, which he relinquished subsequently to being promoted to a captaincy in his regiment, 1841. In March, 1847, he was with the Third regiment of artillery, in the army of General Scott, and took part in the siege of Vera Cruz—being one of the officers to whom was entrusted, by General Bankhead, the command of the batteries. This duty he performed with signal skill and gallantry, and he continued with the army until its triumphant entry into the city of Mexico, in September following. During the operations in the valley of Mexico he was attached to the brigade of General Garland, which formed a part of General Worth's division. In the attack on Molino del Rey, on the 8th of September, where he was wounded very severely, his conduct was the theme of especial praise, and for gallant and meritorious conduct in this battle he was promoted to the brevet rank of Major, dating September 8, 1847. October 5, 1857, he was promoted to the position of Major of the First Artillery, which he now holds. He is a man of clear, gritty and high toned honor, and a devoted lover of the Union.

WELSH RABBITS.—Some Lampeter students went out shooting rabbits, and one of them, an Aberdaron man, being rather green, was told by the others not to speak Welsh if he saw any game. After watching some time he espied some bunnies playing close by him, and hawled to his companions, "Ib sawt cunicid!" (there are the conies.) Instantly the white scents disappeared into their holes. "Diawl!" quoth Aberdaron, "who would have tho't of Welsh rabbits twiggling Latin!"

Adversity is the filter which separates true and false friends.

D. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON

AN APERIENT and stomachic preparation of Iron purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest medical authorities, both in Europe and the United States, and prescribed in their practice. The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz: In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Ischemic Consumption, Scrophulous Tuberculosis, Salt Rheum, Menstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In Cases of GENERAL DEBILITY, whether the result of acute diseases, or of the continued diminution of nervous and muscular energy from chronic complaints, on trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and, regularly applied, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effective and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable are its cures; a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant costiveness. In unchecked Diarrhoea, even when advanced to Dysentery, confirmed, emaciating, and apparently desperate, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough and remittent fevers, which generally indicate Ischemic Consumption, this remedy has allayed the alarms of friends and physicians, in several very gratifying and interesting instances.

In Scrophulous Tuberculosis this medicated Iron has had for more than the good effect of the most carefully balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them. In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well received, both as alleviating pain and removing the swellings and stiffness of the joints, and necessarily a great remedy and energetic restorative; and its progress in the new settlements of the West, will probably be one of high renown and usefulness. No remedy has ever been discovered in the whole history of medicine which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unimpeded disposition for active and cheerful exercise immediately follow its use.

Put up in neat flat metal boxes, containing 50 pills. Price 50 cents per box for sale by druggists and dealers. Will be sent free to any address on the receipt of the price. All letters, orders, &c., should be addressed to R. B. LOCKE & CO., General Agents, 29 Cedar street, N. Y. May 31, 1860.-ly
