We remember how we plead for ten minutes more how we turned conversation into lively and mirthful channels, endeavoring to divert the venerable minds of our progenitors so that they might not look at their inexorable watches-how, when the nurse maid was left alone with us, the vice progenitors gone out to a grown up ten, we serreptitiously turned back the hands of the clock precisely one hour, climbing up the muntle piece for that purpose to the eminent hazard of our cervical vertebrae-and also, how that clock attempting a base imitation of General George Washington, said "I cannot tell a lie!" and struck eight at at the customary dreadful hour, though the hands pointed at seven.

Mr. Benjamin Franklin! we call on you to do the generous thing, and confess minfully that the' you did say "early to bed" in your later years, you invariably kicked like a Trojan when that thing was tried on you in your earlier ones.

Anybody, therefore, who renders the dreadful emergency known as going to bed something to be met by youth with fortitude, if not with ectsacy, has conferred a blessing on the whole human family in general-on pucriferous families in particular, (A word not in the dictionarythough it ought to be.)

LITTLE AND BIG MOUTH .- A lady was told the other day, by a traveler that every one who had a small mouth was provided with a husband by the government. "Ith it possible" said the lady, making her mouth as small as possible. The gentleman added "that if she had a large mouth she was provided with two husbands."-"My gracious!" exclaimed the lady; at the same time throwing her mouth open to its full extent. The gentleman became alarmed, made his escape, and has not been heard of since.

Many beautiful women, while walking the streets, seem very angry if they are gazed at, and sadly disappointed if they are not.

D MOTT'S

A N APERIENT and stomachic preparation of Iron purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest medical authorities, both in Europe and the United States, and prescribed in their practice. The experience | 1 square, (12 lines,) of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation Dyspepsia, Constipution, Diarrhaa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruction, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Khen matiem, Intermittent Fevers, Pimples on the Face. etc.

In cases of General Debility, whether the esult of acute diseases, or of the continued liminution of nervous and muscular energy from chronic complaints, on trial of this retorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of emale sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to incdical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperiont, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreable sensation. It is this latter property, among others, which

makes it so remarkably effectual and permanent a remedy for Piles, upon which it also ppears to exert a distinct and specific action, by dispersing the local tendency which forms In Dyspepsia, innumerable as are its causes, single box of these Chalybeate Pills has of-

ten sufficed for the most habitual cases, including the attendant costiveness. In unchecked Diarrhaa, even when advanced rently malignan, the effects have been equally

decisive and astonishing. In the local pains, loss of flesh and strength. debilitating cough and remittent heetie which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances. In Scrofulous Tuberculosis this medicated

fron has had far more than the good effect of the most cautiously balanced preparations of odine, without any of their well known lia-

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them. In Rheumatism, both chronic and inflamatory-in the latter, however, more decidedlyit has been invariably well reported, both as

alleviating pain and reducing the swellings

and stiffness of the joints and muscles. In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West. will probably be one of high renown and uscfulness. No remedy has ever been discovered in the whole history of medicine which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise immediately follow its use.

Put up in neat flat metal boxes, containing 50 pills. Price 50 cents per box; for sale by druggists and dealers. Will be sent free to any address on the receipt of the price. All letters, orders, etc., should be addressed R. B. LOCKE & CO., General Agents. 20 Cedar street, N. Y.

May 31, 1860-ly
