IMPORTANT TO FOOT SOLDIERS .- How to Clothe the Feet and Keep them Comfortable.-Blistering, burning, sureness and tenderness of the Feet may also invariably be prevented, even when marching for days together and over a heated road, by ford's Hotel. soaping the sole of the stocking-that is, covering it with a thin coating of the cheapest brown soap. This, at the same time, keeps the skin of the sole cool hardens it, and prevents inflamation. Coarse cotton socks are the best for walking .--Don't wear woolen socks when marching -not even thin ones-no matter in what climate.

The boot or shoe should have a thick sole: it is not sufficient that they should be simply "double soles;" the soles should be at least half an inch thick, if threefourths of an inch, or an inch all the better; they are more expensive, but if well made they will last a long time, and even in the warmest weather will be found easy to walk in -the feet easily becoming accustomed to their weight.

DYING IN INDIAN FILE .- The captain elect of a military company at Vicksburg, Mississippi, in returning his thanks for the honor conferred upon him, pledged himself to rush into the thickest of the fight, and either achieve glory for the company, or die in the attempt. The first lieutenant pleged himself to be immediately behind the captain, and if he fell, to endeavor to worthily fill his place. The second lieutenant followed in a similar strain, and declared that when the first lieutenant should fall, he would lead them to glory or to death. The third lieutenant was then called out. He said that when the captain, first lieutenant and second lieutenant should be killed, under such circumstances, he didn't think it would be prudent to lead the soldiers further, and he should then order a retreat!

EXACTLY THE WOMAN .- A waggish fellow was riding with one of the fair sex, "all of a summer day," and accidentally -men's arms, awkard things, are always in the way-dropped around her waist. No objection being made, the arm gradually relieved the side of the earriage of the pressure upon it. But of a sudden --whether of a late recognition of the impropriety of the thing, or the sight of auother beau coming, never was clearly evident-the lady started with volcanic energy, and with flashing eye exclaimed, "Mr. ---, I can support myself " "Capital!" was the instant reply, "you are just the girl I've been looking for these five years-will you marry me?"

"Do you know what the people in Pittsburg do when it rains?" asked one man of another recently. "No, I don't-do you?"

"Why, yes-they let it rain!"

Agents wanted to sell the Eric Sewing Machine. We will give a commission or pay wages at from \$25 to \$60 per month, and expenses paid. The Ears is a new machine and very simple in its construction. A diploma was awarded our Machine by the Industrial Association of Farmers and Mechanics, held at Chambersburg, Pa., at its exhibition in 1860, over the Grover & Baker, and Bocdoir Machines. It is equal to any machine in use, and the price is but fifteen dollars. Address R. JAMES, General Agent E. S. M. Co., Milan, [mar. 1.4]
