## rrom our Volunteers.

The following letter was intended for last week's issue, but came to hand too late for insertion. We hope our correspondents will mail their favors that we may receive them by Tuesday, as that is the last day of grace for such matters :]

CAMP TENNALLY, September 22, 1861. Correspondence of The Alleghenian.

Fort Pennsylvania, on which the 11th have been working for some time recently, has been completed, and fifteen guns mounted. The Fort is surrounded by a ditch twelve feet wide, and eight feet deep; large limbs and tree tops are placed around on the outside of the ditch, pinned to the ground, the small branches being eut off, which causes it to present a very formidable appearance. There are two other Forts being built, one about one and a half miles South-east of Fort Pennsylvania, and the other about three miles North, or North-east. They are built on elevated ground, commanding a large scope of country. The Reserve has the building of these Forts. The Second Brigade builds the one North of Fort Pennsylvania. The Reserve has been divided into Brigades, and Brig. Gen. Mead commands the Second, which is composed of the 3rd, 4th, 7th, and 11th Regiments, and Kaine's Rifles. The Rifles form the ter kuit one or more pairs. right and the 11th the left. I do not three Brigades.

On Saturday morning the different Brigades of the Reserve were reviewed by Gens. McClellan and McCall. They were followed by a number of other officers, and | contribute her share. also by Prince De Joinville, his son, and nephew. A very large crowd had assembled to witness the parade.

The health of the troops, as a general thing, is good. There are several cases of Typhoid fever in some of the Regiments; one in the 11th, and also a few cases of Aguo.

day: At sunrise, Reveille, at which time breakfast is to be ready; two Company and two Regimental drills per day ; suits; retreat at sunset; tattoo at 9 o'clock; chain sentinels without a written pass bearer. A soldier cannot go fifty rods, along any of the roads, from his quarters, unless he has a pass, without being arrested by the patrol.

HEAVY RAIN-STORM .- We were favored with a tremendous storm of wind and rain last week, commencing on Thursday evening and continuing without intermission until Saturday night. That ubiquitous individual, "the oldest inhabilant," recollects not the time when a greater amount of rain fell in the space of two days. The streets and highways were tendered almost impassible by reason of the vast bodies of water that covered them; little rivulets became metamorphosed into huge streams; and streams took the form of rushing, foaming rivers. Beand the sweeping away of an occasional ridge, we have heard of no great damage being done in this county by the freshet. We see by our exchanges that the storm was not confined to any one section, but extended over almost the entire country.

A Split.-As an illustration of the anner in which some things are done some people, we may cite the case of e Indiana Messenger. This paper is wned and edited by two gentlemen who te of different politics. In the present hvass they did not agree entirely as to he merits of the two tickets nominated 4 that county, one going in for the Union frestion a thorough ventilation.

TO THE LADIES OF CAMBRIA COUNTY : As winter is rapidly approaching, when our brave soldiers now in arms for the cause of Liberty and Justice will need to be provided with warm and comfortable clothing, it has been suggested that the patriotic ladies of the State be allowed to come forward and contribute a willing share to the Good Cause. Acting on this hint, the Quartermaster General of the stockings, and the ladies of many counties have already formed themselves into asof stockings could easily be furnished, and | half. the time consumed in their manufacture scarcely be missed. Will you not interest of the camp at which the 11th Penna. yourself, lady reader, in this behalf? Let those knit who never knit before, and those who knit-why, let them knit the more. And thus you can show your appreciation for the Government that fosters and protects you, and your solicitude and careful regard for the comfort of the volunteers that are doing battle for the perpetuity of that Government.

The following official notice from the Quartermaster General explains more fully the state of the case :

MESSES, EVANSAND WATSON: GENTLEMEN-The small size No. 1 Salamander safe which purchased from your agent, Mr. Adam R. Barr, in Lancaster City, on July 20th, 1858, has been subjected to a very severe test, which it withstood in a most satisfactory manner. This Safe, containing all my books together with valuable papers belonging to myself and some to my neighbors and friends, and represeting a value of over Twenty Thousand Dollars, (\$20,000) was in my Mill which was destroyed on the night of the 27th of Juy, .1860, and passed through the fiery ordeal unscathed. The Safe was on the second floor and fell to the basement of the Mill, and was subjected for six bours to an intense heat among the ruids, which was greatly increased by the combustion of a large quantity of grain confined within the brick walls. After the fire the safe was opened and the books and papers taken out in a state of perfect preservation, the paper not even being discolored. This fact was, however, to many bystanders a better recommendation of your Safes than could be expressed in any other words from Yours Respectfully,
