CHIT-CHAT WITH OUR READERS .-The snow hereabouts at the present time is upwards of a foot in depth. Per sequence, the sleighing, or "sledding" as it any quantity is scarcely ever to be met case now-it didn't use to be so. We recollect when the snow invariably commenced falling the first of December, and continued falling until good sleighing was the result-not many years agone, either. Now, however, although we have the biting blasts and the blue noses and tingling finger-ends peculiar to the season, yet the snow fails to come to time on or in any wise near that particular date. Why this is-why we of these latter days are obliged to wait a month longer than our fathers did before being allowed to engage in the first sleighride of the season-is a question we will not attempt to determine. Perhaps it is owing to the nearer approach of the sun to the earth ; perhaps to an atmospherical change induced by the deforests until quite recently surrounding us, or to some other chemical cause or

DROVOST MARSHAL'S OFFICE, 17TH DIST., PENNA., } HUNTINGDON, June 11 1863. }

MEN WANTED FOR THE INVALID CORPS. Only those faithful soldiers who, from wounds or the hardships of war, are no longer fit for active field duty will be received into this Corps of Honor. Enlistments will be for three years unless sooner discharged. Pay and allowances same as for officers and men of the United States Infantry ; except that no premiums or bounty for enlistment will be allowed. This will not invalidate any pensions or bounties which may be due tor previous services.

All persons honorably discharged from the service, not liable to draft, whether they have served in this war or not, can be admitted into this Corps of Honor.

Men who are still in service and unable to perform effective field, may be transferred to this corps.

For the convenience of service, the men will be selected for three grades of duty .---Those who are most efficient and able bodied, and capable of performing guard duty, etc., etc., will be armed with muskets, and assigned to companies of the Frst Battallion. Those of the next degree of efficiency, including those who have lost a hand or an arm; and the least effective, including those who have lost a foot or a leg, to the companies of the Second or Third Battallions; they will be armed with swords. The duties will be chiefly to act as provost guards and garrisons for cities ; guards for hospitals and other public buildings; and as clerks, orderlies, etc. If found necessary they may be assigned to forts, etc. Acting Assistant Provost Marshals General are authorized to appoint Officers of the Regular Service, or of the Invalid Corps, to administer the oath of enlistment to those men who have completely fulfilled the prescribed conditions of admission to the Invalid Corps, viz :

Horse into our midst had something to do | each day by the following persons : with it. No matter-it is so.

As before remarked, the snow is now a foot deep. The township roads in this section being as a general thing miserable thoroughfares at best, and more particularly nuisances after the fall rains, our farmers wisely hold back the bulk of their "projuce" from market until the advent of "sled ling," when they confidently count upon being able to transport larger loads of the same with greater celerity, thus making up for lost time. The result is, when the "sledding" comes so also comes the produce. It is coming now. In new sleds and in old sleds, in sleds with beds and sleds without, in sleds with iron runners and sleds with wooden, in one-horse, two-horse and four-horse sleds, in sleds of all sorts and sizes-comes the produce. It is a well attested fact that at no time of the year is so much business of a miscellaneous character done in ye ancient village as during the continuance of this same "sledding." Wherefore, blessings unto the snow. It serves the farmers a good turn, distributes a share of its favors upon those who are not farmers by causing "times" to be "brisk," and gives a strong impetus to industrial pursuits and

occupations generally. Kind snow ! The sleighing is superb. We know, for we tried it on the other evening. It is very good. Wherefore, "superb" is not too strong a word to use in the connection. Reader, did you ever go sleigh-riding ?-If not, you have lived many winters in vain. Sleigh-riding is the attic salt, or arctic salt, or words to that effect, which seasons the hyemal porridge. At least such is our opinion. You ought to indulge a few times, and become convinced. our otherwise exceeding sound slumber 6' nights is a vision wherein a cutter and fast horse, buffalo-robes and sleigh-bells, blankets, fur tippets, whip, gauntlets, hot punch and heops are jumbled together in inextricable confusion. When we bedescription, we are wont to awake at about the critical juncture when the inevitable upset comes in, to find ourself falling out of bed, with the pillow tightly clasped in our arms! Such is the effect of a dream on us. What an ecstatical affair, then,

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects; I vet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejadiced against them for many years, under the impression that they were chiefly an acloholic mixture. I am indebted to my friend Robert Shoemaker., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to use them. J. NEWTON BROWN. PHILAD'A., JUNE 23, 1861,

PHILADELPHIA, August 12, 1862. DR. C. M. JACKSON-Dear Sir : While in Virginia, owing to the change of water, I was taken with a severe diarthoea, which seemed incurable, and which greatly weakened me. When we reached Martinsburg, I feared that I should have to come home; but noticing some of your Bitters in the store of Mr. H. H. Price, in that town, I purchased a supply, and on taking it was speedily restored to health. The diarrhoea was quickly checked, and I experienced no return of it. A number of my comrades who suffered in the same manner and from the same cause, with whom shared the Bitters, join me in this certificate, I expect to return to the seat of war with the Legion, and I shall certainly take a supply of the Bitters in my knapsack. I would not be without it for its weight in gold, particularly on going into a limestone region. Yours, truly, A. E. ALMEUS.
