TERRIBLE TRAGEDY IN JOHNSTOWN!—WOMAN'S FAITHFULNESS THE CAUSE OF IT!—AN INJURED HUSBAND SHOTS HIS WIFE'S SEDUCER!—ASTOUNDING REVELATIONS!—We are indebted to our Johnstown correspondent for the following reliable particulars concerning the Moore-Marboung tragedy, which has created such wide-spread excitement throughout the State:—

"A most terrible tragedy was enacted in this place on Friday morning, 12th inst., involving the death of one of our most prominent citizens. A criminal intimacy had for some time past been known to exist between the wife of Joseph Moore, auctioneer, and Jordaa Marboung, merchant, both of Johnstown. In addition to various meetings had at a certain house on Clinton street, it is known the parties also visited Ebensburg, Somerset, Greensburg, and other localities, in company. But so great faith did the confiding husband place in the virtue of both, that he did appear to imagine for a moment that his honor—the most sensitive feeling of a man's heart—was being outraged. A short time ago, however, Moore became informed as to the situation of affairs, and forthwith set to work to establish either the guilt or innocence of the parties.—One after another, he visited the several localities where they had been in the habit of meeting, and, on Thursday eve, on returning from Greensburg, where his proof had culminated, he directly charged his wife with infidelity, and demanded a confession. This she at length made, acknowledging that an improper intimacy had been existing between Marboung and herself for over a year.

"The next morning, Thursday, about 8 o'clock, Moore met Marboung immediately in front of the Post Office, and, in the presence of a number of witnesses, shot him dead on the spot. After committing the deed, he went to Esquire Rutledge's office and delivered himself up. On his own confession, he was committed to answer for the crime of murder.

"The news of the tragedy spread like wild fire, and in a few minutes a large and excited crowd had gathered around the Post Office, eager to obtain a glimpse of the deceased. Until late at night, knots of men were to be seen occupying the sidewalks, and the murder was the sole topic of conversation.

"Herewith append an abstract of the testimony elicited before the Coroner's inquest:—
"Howard J. Roberts, sworn: Was standing at the Tribune office, when one of the boys, who was at the window, remarked that there was a fight going on below stairs, in which one of the parties had a revolver. Went to the window, and recognized Joseph Moore and Jordaa Marboung as the participants.—Moore had Marboung by the throat, or collar, with his left hand, and held a revolver in his right. Marboung was backed against the Post Office window, and his hat was off.—Moore told Marboung he had seduced his wife, thereby raising him; that she had acknowledged all; and that he was going to kill him. Do not know that Marboung made answer, but he looked as if he wanted to reason with Moore; he made no resistance. Moore let go his hold, stepped back a pace, drew a pistol and fired either four or five shots. About the time he fired the second shot, Marboung fell forward toward the street. I stepped back from the window, but shortly after looked out again, and saw Marboung there; did not see Moore. Saw Marboung's body being conveyed away. Think he was dead when he fell; know he was dead when carried away. Think they talked together about two minutes before Moore fired. Do not know whether deceased was struck in head or breast first; saw mark of ball on his head when they lifted him up. This on the morning of the 12th February, 1894.

"John M. Bowman, sworn: Saw and heard Moore, in a very excited manner, charge Marboung with having seduced his wife, saying that she had confessed all; Marboung denied the charge; all I could distinguish of his words were, 'did not' or 'I never did'—Moore continued, in a violent manner and brandishing a pistol, to charge that he was guilty of the crime, saying that his wife had acknowledged all; that, while he (Moore) was in the service of his country (the nine months service) last year, he (Marboung) had seduced his family, and that he would be perfectly justifiable in shooting him. Marboung seemed to be denying the charge and attempting to explain to Moore; the latter repeated 'You did, Jordaa, you did!' using profane language. About two minutes elapsed while this was occurring, when Moore stopped back, and I thought to go away, but suddenly I heard the pistol at Marboung and fired; my impression is that five shots were fired, the first I think, taking effect in the forehead, perhaps about the left temple; the next three were fired in quick succession as he was falling. After the body had reached the pavement, Moore stepped back a pace or two and,

taking deliberate aim at the head, fired, the ball striking the top or back of the head. I then closed the window, &c.

"George Thomas, sworn: This witness, who does business near the Post Office, testified in substance similar to the foregoing. He stated that, when the altercation commenced, he went to the door of Wehr's store, (next door to Post Office,) and asked Geo. Wehr, who was standing on the step, if they had better not take Moore away; Wehr did not think he would shoot, and said they had better not interfere.
"George Wehr, Jr., sworn: Moore came into my store that morning, and sat near and facing the door; asked him if he had read an account of the late battle; he said he had not; I got a paper and commenced reading him an extract from the Richmond Examiner; he appeared deeply interested. He sat about half an hour, when he suddenly jumped up and went out. I went to the window, and observed Marboung going to the Post Office; then went to the door and saw Moore standing by the Post Office door. When Marboung came out, Moore caught him by the collar, and told him his wife had confessed all, at the same time commanding him to get down on his knees and confess his guilt, for he was going to shoot him. While saying this, he pulled a revolver out of his inside breast pocket with his right hand, grasping Marboung with his left. He continued saying, 'You have ruined me and my family, you have ruined my soul, but I am a professor of Christianity, and believe I would be perfectly justifiable in so doing; while I was fighting for my country, you seduced my wife!' Moore was crying at the time. * * After firing, Moore put the pistol in his pocket, with the handle exposed, and walked toward the Mansion House, saying he wanted to give himself up.

"Col. E. Shaffer and Charles Barnes were also examined before the inquest, but their testimony does not vary materially from the foregoing.
"Dr. Lowman made a post mortem examination of the body, and found five wounds—two in the head, one in the neck, one through left breast, and one in left arm. The one in the head supposed to be the first fired was sufficient in itself to have caused instant death.
"The affidavit of Esquire Rutledge to the effect that Moore surrendered himself to justice and was committed on his own confession was also taken in evidence; and a verdict in accordance with the testimony was rendered by the jury.
"Moore was removed to Ebensburg the same morning, to await his trial, which will doubtless take place at the coming March term of our county Courts.
"The remains of the deceased were consigned to their final resting place on Sunday, followed thereto by the largest concourse of people which ever attended a funeral in this town.
"I almost forget to remark that Marboung had made his arrangements to go to Philadelphia the morning he was killed, and had left home with that intention.
"The pistol used by Moore in the commission of the bloody deed was an Allen repeater, better known, possibly, as a 'pepper-box.'
"Both Moore and Marboung were members of religious denominations—the former of the Disciples and the latter of the Lutheran church,—and both bore excellent reputations. Moore has one child, a son, of probably 15 years of age; Marboung leaves a wife and nine or ten children, some of the latter grown up. Deceased was about 50 years old.
"Another Tragedy.—Almost!—Another adultery case has just turned up, which, the injured husband threatening condign punishment upon the destroyer of his domestic happiness, has been compromised by the payment to him of \$1,000 by his wife's paramour. Six hundred dollars of this amount was paid down, and a note given for the balance."

VALENTINE.—Last Sunday was Valentine day, and the birds, no doubt, took advantage of the fact to choose their mates for the coming summer. The number of vile caricatures of every phase of humanity usually disseminated broadcast about this period was gratifyingly small—a marked improvement on former years. We always thought this latter feature would be more highly honored in the breach than in the observance, and are glad the community at large are arriving at the same wise conclusion.

ALLEGED MURDER.—A rumor is current in town to the effect that, in an affray on Monday last, a man, name unknown, was stabbed so severely, at Gallitzin, this county, as to result in his death. It lacks confirmation.

GONE BACK.—Our re-enlisting veteran soldiers, who were at home on furlough during the past three weeks, have all returned to their respective regiments.

MARRIED: On Thursday eve, Jan. 21, by Rev. Mr. Hackett, Wilmore, Mr. MORRIS KEIL, of Wilmore, to Miss SUE A. BRADY, of Summerhill township.

THE NEW NOTES of the First National Bank of Johnstown are beginning to circulate. We will receive them at par for subscription to *The Alleghanlian*.

SOME MORE OF THE SAME SORT.—Wonders never cease! No sooner has one untoward event cast its broad shadow over us, throwing our nerves into a state of tumultuous disorder, than along comes another, of more ponderous proportions, to absolutely stupefy us with astonishment. Thus, by way of illustration, at the commencement of this rebellion, when traitors attempted the assassination of President Lincoln in Baltimore city, we all were greatly startled; but a little later, when traitors, deliberately and systematically, undertook the destruction of the nation, we lost sight of the other sensation in the transports of horror which followed. So, at the beginning of hostilities, when many so-called Democratic politicians and newspapers North wheeled into line in support of the Union under protest, we opened our eyes in surprise at the manifest depths of disloyalty into which they had fallen; but when, afterward, these same politicians and newspapers came out openly in espousal of the rebel cause, our surprise took the guise of unqualified amazement, and we became forthwith converts to the doctrine of "total depravity." The last sensation is always the strongest, and after its resuitance we wonder how we ever could have wondered at anything bearing a more subdued form. We have been led into these remarks through reading the Johnstown Democrat. Last week we mentioned that that journal had seen fit to award Asst. Provost Marshal Heyer a gratuitous puff, and had called him "not such a bad fellow, after all." This was wonderful enough, to be sure; but this week—oh! conscience, column advertisements, and cranberry sauce!—the Democrat makes a still greater concession to the cause of truth and common decency. It is in this wise:

"THE MILL.—We Johnstownians speak of the greatest railroad iron manufactory in the world as an institution of no importance. It is called 'the Mill'—nothing more, nothing less. Well, it is emphatically the mill. * * To an utter stranger in the place, or to one who visits it for the first time, the mill is, indeed, a wonder in more than one respect. It is a wonder in regard to the capital invested—in regard to its magnitude—in regard to its capacity—in regard to the durability of the material of which everything is composed—the originality of its patterns, and the regularity and reliability of all its operations. We doubt whether a more honest, or capable, or clever corps of operatives can be found in the world, whether in the department of labor or of skill—whether in the mines or at the desk," &c., &c.

Only a few short months ago, the Democrat made it its especial task to impress upon its readers that "the Mill"—the Cambria Iron Works—was the very acme of corruption; that its "corps of operatives," particularly those designated "of skill" and "at the desk," were only political hirelings and toadyers to a base corporation; and that its business manager was about the greatest rascal unhung. It even attempted to incontinently write down the whole concern, or at least to assume a general dictatorship over it, and was only unsuccessful through sheer impotency. Now, a change comes over the spirit of its dream, and it suddenly attains the conclusion that the mill is the mill, and the operatives honest, capable, clever! Is it any wonder we clasp our hands tenaciously together, roll our visual organs upward, and stick a pin here!

The Democrat should now go one step further, and give Old Abe a friendly lift. It has well and truly said that "a sworn officer should not be condemned for performing the duties imposed by bad laws." Abraham is a "sworn officer," whose oath of office makes it obligatory on him to execute all laws, be they good, bad, or indifferent, just as he finds them. Pitch into the law maker, then, neighbor, if you please, but spare, oh! spare the law administrator, who walks in the straight path of duty. Then will we be sure the Democrat's professions are not hollow professions, but honest and sincere.

DIED: On Thursday, 11th inst., at the residence of his parents, in this place, LEMUEL T., son of Isaac and Mary Evans, aged about 18 years.

DR. C. M. JACKSON.—Dear Sir: While in Virginia, owing to the change of water, I was taken with a severe diarrhoea, which seemed incurable, and which greatly weakened me. When we reached Martinsburg, I feared that I should have to come home; but noticing some of your Bitters in the store of Mr. H. H. Rice, in that town, I purchased a supply, and on taking it was speedily restored to health. The diarrhoea was quickly checked, and I experienced no return of it. A number of my comrades who suffered in the same manner, to the change in this certificate, I expect to return to the seat of war with the Legion, and I shall certainly take a supply of the Bitters in my knapsack. I would not be without it for its weight in gold, particularly on going into a limestone region.

From Rev. J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge.
Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects; I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.
I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Shoemaker, for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to use them.

DR. HOOFLAND'S German Bitters,
PHILADELPHIA, August 12, 1892.
DR. C. M. JACKSON.—Dear Sir: While in Virginia, owing to the change of water, I was taken with a severe diarrhoea, which seemed incurable, and which greatly weakened me. When we reached Martinsburg, I feared that I should have to come home; but noticing some of your Bitters in the store of Mr. H. H. Rice, in that town, I purchased a supply, and on taking it was speedily restored to health. The diarrhoea was quickly checked, and I experienced no return of it. A number of my comrades who suffered in the same manner, to the change in this certificate, I expect to return to the seat of war with the Legion, and I shall certainly take a supply of the Bitters in my knapsack. I would not be without it for its weight in gold, particularly on going into a limestone region.
Yours, truly,
A. E. ALMEUS,
Company H, Seco. Legion.
