

EBENSBURG:

THURSDAY:::::::FEBRUARY 25

FOR PRESIDENT :

ABRAHAM LINCOLN, of Illinois.

Rebel Debates.

There was a debate in the Richmond Congress, January 30th, on the means of strengthening their army, and on the employment of negroes in the military service. During the course of the debate, the rebel legislators talked very much as the rebel press has been printing for six weeks past-despondently of their general condition. Now and then a fact leaked out. Mr. Smith, of North Carolina, said there was less than 200,000 men in the rebel armies, and that even those could not be fed. Outside of the army the suffering is extreme. "Private appeals were daily coming to the Members of Congress from soldiers in the army, speaking of the suffering at home; how many of their families are wanting the necessaries of life, when they are unable to send them any part of their scant pay." Why unable? Is it true that rebel soldiers are not allowed to write home?

Mr Chambers, of Virginia, said there was as great a deficiency in clothing as in food. The next campaign was expected to be the "worst, most decisive and heaviest of the war." In other words, everything is staked on the great battles in the Spring and Summer. The news of each succeeding day shows more clearly the purpose of the rebel leaders to augment their armies for one struggle, sacrificing all chances of the future to the hope of success in that. Yet Mr. Goode, of Virginia, says that all the enrolling officers agree that the rebel States cannot stand another draft. Mr. Holcombe, another F. F. V., confessed it was a precarious matter to supply, from week to week, the army in the field. Other members spoke in the same strain. There was no denial of the statements. Everybody asserted, or admitted, or took it for granted, that there was great destitution in the army and everywhere else. It is only the Copperhead journals at the North that think it worth while to say there is

A discussion followed on the employment of slaves and free negroes-very shocking it must be, indeed, to the sensibilities of Northern Conservatives. If the negro is to make his appearance in military service on both sides, where will they turn for relief? What will become of English sympathy, which our enlistment of the negro has elicited for the South? The bill in question gives authority to employ 40,000 negroes, who are "to perform such duties with the army, or in connection with the military defences of the country, in the way of work upon fortifications, &c., &c., as the Secretary of War may from time to time prescribe." So there is nothing in the terms of the act to prevent Mr. Seddon from putting a musket on the shoulder of every one of his 40,000 black men. What will perhaps prevent such a step was revealed by Mr. Smith, of Alabama, who remarked there was so much esteem for their kind "Massas" and love here list in the bloody calendar of to-day, but danger of the negroes proving unsafe, if for the "Confederacy." These negroes employed even in any way. It was re- furnished them with food, and gave them plied, in substance, that the rebellion was such information as ultimately enabled in desperate straits, and must adopt them to pass the rebel lines. When will desperate measures; and the bill passed. the country at large learn that the black We wait with interest for the appearance man is, indeed and in truth, the sincere Chester county, and were credited to that of the first black regiment in the rebel army on the field of battle.

The Conscription bill, as amended by a joint committee of conference, passed both branches of Congress on Saturday last. Its provisions in the main are the same as those of the House bill, a summary of which we printed last week .-Excepting to such as are rejected on the ground of mental or physical disability, and to those who are now actually in the exemptions whatever are allowed. The commutation fee of \$300 is retained, to exempt from military duty for one year. Negroes of the proper age to be enrolled; when drafted, and the slaves of loyal masters, they are to be free-the masters in jority. each case to be paid a bounty and compensation not exceeding \$400.

diers from Libby Prison.

The escape of one hundred and ten Union soldiers from Libby Prison, Rich. mond, of which number twenty-seven have arrived safely at Fortress Monroe, is one of the most daring facts on record .-Beside it, Morgan's escape from the Ohio penitentiary sinks into utter insignificance. The narration of their adventures reads more like a romance of the medieval ages, than a plain, matter-of-fact recital of events actually transpiring.

The prisoners were engaged fifty-one days in making a turnel, commencing on afforded. Their instruments were case had to abandon their work and commence anew, on account of obstructions which they could not pass. They had hoped to have availed themselves of a culvert, but found it impracticable. After getting through the wall, they disposed of the excavated soil by drawing it out in a spitteon, which they attached to a cord. This would be filled by the party at work in the tunnel, and pulled out into the cellar by their companions, who disposed ot it by spreading it in shallow layers over the floor, concealing it beneath the straw. The work was necessarily very slow. So close was the atmosphere in the tunnel, that they could remain in it but a few moments at a time, and their candles would go out.

At one time, they got so near the bed of the street, that a small hole about the size of a stove pipe broke through; but, fortunately, this was not observed by the guard, and was a great service, admitting them. We have worked through three air, and enabling them to prosecute their successive Congressional and two Senato- ilton, in this harbor. Sixteen men will be work more rapidly. The tunnel, when completed, was about fifty feet long, and found the way clear, they emerged slowly circumstances. Cambria county will in small squads of two and three, saun- present a man for Congress, and we mean tered off until they got clear of the guards, making their way towards the Williamsburg road by the shortest route. The darkness favored them, and the fact that all the rebel soldiers whom they met were habited in the army coats of Uncle Sam, which they had stolen from the supplies sent to our prisoners by our Government, was of great help to them.

Although they were attired in our army coats, as many of them had their haversacks, they found the national uniform a better disguise than if they had been provided with genuine rebel uniforms. In order to elude their pursuers, whom they knew would soon be on their track, they scattered as much as possible. Many were their hardships and sufferings, and frequent their narrow escapes from the rebel cavalry, who next morning were bushwhacking in every direction.

Of the whole number escaping, something less than thirty have come into our lines as yet. The rest were most likely recaptured. Gen. Butler, however, has sent out cavalry in all directions, in the hope of picking up and bringing in others who may be wandering about in the neighborhood of Fortress Monroe.

-There is one fact connected with this escape which deserves special mention .-The prisoners unite in saying that they received the most uniform kindness from the negroes they met on their journeythose dusky beings in whose bosoms, doughface authority would have us believe, there beats only a sentiment of profound friend of the cause of the Union, and district. This was ten dollars more than our treat him accordingly?

For one, we say unhesitatingly that we are tired of working for Blair county men for office, as though there were not men in other counties fit to fill to work for him. We are not certain whether it will be Mr. Barker again, (although we favor his claims) or some other man; but Cambria county will present her candidate, and if our friends in Blair county have any liberality at all, and desire the success of our party, they will not only not insist upon their man, but will abandon the field altogether to the just claims of their neighbors. A Congressman for six years in succession-the Senator for three years, with the candidate for a second term—the Assessor of Internal Revenue, Provost Marshal, and half a score of Clerkships at Washington -ought to satisfy them for a year or two.

The election of a successor to Senator Harry White came off in the Indiana district on Friday. Dr. St Clair, the regular Union candidate, received about 1,200 majority over his opponent, James Douglas, Democrat, of Armstrong. The Senator elect will take his seat about the first of next week, when the power of demagogues to further retard the wheels of legislation will absolutely cease.

Adultery.

To the Editor of The Alleghanian : It is a duty incumbent on us to say that adultery is too much tolerated in the landjust as if we winked at it.
