DARING ROBBERY .- On Thursday of last week, five men appeared at the residence of Mr. Thomas O'Brian, in Munster township, not far from the line of the Eb. & Cresson Railroad, and demanded supper. This was furnished them : after which, they stated that they were government agents for the detection of counterfeit money, and requested to be allowed to inspect all the greenbacks in the house. Some \$40 or \$50 were shown them, which they inspected. Finding the money good, they proceeded to testify their appreciation of that fact by unceremoniously fobbing the amount. At this stage of the game, one of the five stationed himself immediately outside the door as a guard, while the other four remaining within, requested as a particular favor that any and all moneys remaining on the premises, greenbacks or gold, should be exposed to view for inspection in "less than no time." This request was backed by the display in close proximity to Mr. O'B.'s head of a pistol which looked as though it might be loaded .-There was no denying the persuasive power of this sort of a request, and Mr. O'B. from one hiding-place and another produced greenbacks to the amount of some \$300 and gold to the amount of about \$400. The men with the pistols

have not been heard of since. Some years ago, when seemingly on his death-bed, Mr. O'Brian made a will, leaving various sums to various persons .-Some one acquainted with this fact must have been concerned in the robbery, for, as was gathered from the conversation of the robbers in the house, they were entirely conversant with the exact amount of greenbacks and gold, respectively, he had in his possession, and would be satisfied is now no public place for spending the with no less sum.

LOCAL CORRESPONDENCE. DEARTH OF INTELLECTUAL ENTERTAINMENT IN EBENSBURG-SOME SENSIBLE SUGGESTIONS ON THE SUBJECT. EBENSBURG, Feb. 25, 1867.

To the Editor of The Atleghanian: Has it never occurred to you that our borough has many wants that might be supplied with very little trouble or expense to the citizens? Among them might be named a Public Library and a Lyceum, the advantages of which would be incalculable. There Draw Guag evenings, except at the occasional Church Edge Tools, and Society meetings, (which are good as far Punches, Hammers, as they go, but do not cover the case, and Bridle Bits, Buckles, on the store counters and in bar-rooms- Snaps, Stirrups, the objections to which need not be discus- Rein Web, ed, as they are patent to every one.

A course of lectures by our capable citizers, which could be had for the requesting, and an occasional lecture by a professional lecturer, might be a feature of the plan, and a source of revenue. But it is unnecessary n this article to go into detail. The object is to bring the matter before the people and have it discussed, feeling that if that is obtained, we will certainly have a Public Library and Lyceum.
