

A FAST STORY.—An Englishman was bragging of the speed of English roads to a Yankee traveler seated at his side, in one of the cars of a "fast train" in England. The engine bell was rung as the cars neared a station. It suggested to the Yankee an opportunity of "taking down his companion a peg or two."

"What's that noise?" innocently inquired the Yankee.

"We are approaching a station," said the Englishman; "they have to commence ringing about ten miles before they get to a station or else the train would run by before the bell could be heard! Wonderful, isn't it? I suppose they haven't invented bells in America yet?"

"Why, yes," replied the Yankee, "we've got bells, but can't use them on our railroads. We run so fast that the trains always keep ahead of the sound; no use whatever; the sound never reaches the village till after the trains get by."

"Indeed!" exclaimed the Englishman. "Fool," said the Yankee; "had to give up bells. Then we tried steam whistles, but they wouldn't answer, either. I was on a locomotive when the whistle was tried."

"We were going at a tremendous rate; hurricanes were now and then, and I had to hold my hair on. We saw a two-horse wagon crossing the track about five miles ahead, and the engineer let the whistle on, screeching like a trooper. The next thing I knew, I was picking myself out of a pond by the roadside, amid the fragments of the locomotive, dead horses, broken wagon, and dead engineer lying beside me. Just then, the whistle came along mixed up with some frightful oaths that I had heard the engineer use when he first saw the horses. Poor fellow! he was dead before his voice got to him. After that we tried lights, supposing these would travel faster than sound. We got one so powerful that the chickens woke up all along the road when we came by, supposing it to be morning. But the locomotive kept ahead of it still, and was in darkness with the light close behind it. The inhabitants petitioned against it; they couldn't sleep with so much light in the night-time. Finally, we had to station electric telegraphs along the road, with signal men to telegraph when the trains were in sight; and I have heard that some of the fast trains beat the lightning fifteen minutes every forty miles. But I can't say as that is true; the rest I know to be so."

ABOUT THE SIZE OF IT.—In the fall of 1863, (says a Richmond paper,) General Johnson was riding along during his march to Bristow Station, when, perceiving one of his men up a persimmon tree, he hallooed out to him:

"I say, there, what are you doing up there? Why ain't you with your regiment?"

"I'm gettin' 'simmons, I am," replied the soldier.

"Persimmons!—thunder! They are not ripe yet. They are not fit to eat."

"Yes, but, general," persisted the Confed., "I am trying to draw my stomach up to suit the size of my rations. If it stays as it is now, I shall starve."

The general had nothing more to say.

JOHNSON'S RHEUMATIC COMPOUND!

No medicine for the cure of Rheumatism has ever attained to such a high degree of favor and universality as

JOHNSON'S RHEUMATIC COMPOUND.

Although but one year before the public, this medicine has justly gained an unbounded popularity. When the originator first introduced it, he was convinced of its efficacy, but he little supposed it was destined to prove such an inestimable blessing to the afflicted. But "true merit" cannot be suppressed. The attestation of hundreds who have been cured by its use, must prove the truth of the assertion,

"THAT IT IS A RADICAL CURATIVE" FOR

INFLAMMATORY AND ACUTE RHEUMATISM, GOUT, NEURALGIA, AND KINDRED DISEASES.

We recommend it with confidence as **THE GREAT INTERNAL REMEDY,** For the Speedy and Positive Cure of the above Complaints.

Messrs. R. E. SELLERS & Co.: This is to certify that for the last sixteen years I have been severely afflicted with rheumatism, often confined to my house, and even unable to walk. Being in the Postoffice, about two months ago, Mr. Clark observed my crippled condition, and urged me to try a bottle of "Johnson's Rheumatic Compound." I followed his advice and now, by the blessing of God, and the use of half a bottle of your "Compound," I am free from all symptoms of rheumatism, and can walk without the aid of my staff, as well as ever.

Licking Station, Ky., Dec. 14, 1845. Mr. R. E. SELLERS:—Your Vermifuge possesses more virtue than any I ever used. I will state a case where I gave one vial. My brother's child was pining and wasting to a mere skeleton. In thirty-six hours after I gave the Vermifuge, the enormous quantity of upward of six hundred worms were passed. The child that was given up for lost, is now as well as any in the neighborhood.

A CARD TO THE LADIES!— DR. DUPONCO'S GOLDEN PERIODICAL PILLS

In correcting irregularities, removing Obstructions of the Monthly Turns, from whatever cause, and always successful as a Preventive.

It is now over thirty years since the above celebrated Pills were discovered by Dr. Duponco, of Paris, during which time they have been extensively and successfully used in most of the public institutions—as well as in private practice—of both hemispheres, with unparalleled success in every case, and it is only at the "urgent request" of the thousands of ladies who have used them that he is induced to make the Pills public for the alleviation of those suffering from any irregularities whatever, as well as to prevent an increase of family where health will not permit it.

Females peculiarly situated, or those supposing themselves so, are cautioned against using these Pills while in that condition, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health—otherwise the Pills are recommended.

ONE BOX IS SUFFICIENT. Full and explicit directions accompany each box, which must be strictly followed, and all cases peculiar to females may be speedily cured.

A CARD.— WITNESSES: Messrs. EVANS AND WATSON, Lancaster Tp., July 24, 1866. The small size No. 1 Salamander and I purchased from your agent, Mr. Barr, in Lancaster City, on July 24, 1866, has been subjected to a very severe which it withstood in a most admirable manner. This safe, containing all my valuable papers, including my own and representing a value of over \$20,000, was destroyed on the night of the 24th, 1866, and passed through the flames unscathed. The safe was on the second and fell to the basement of the Mill, subjected for six hours to an intense among the ruins, which was greatly aided by the combustion of a large quantity confined within the brick walls. The fire the safe was opened and the papers taken out in a state of preservation, the paper not even being discolored. This fact was, however, to many by a better recommendation of your safe could be expressed in any other words. Yours Respectfully, [Jan2
